Abstract: The current standard may need to be revised because it emphasizes line shafting, belt and pulley systems that are alleged to be obsolete. The current standard also overlaps with other rules. In addition, the standard could be made more "performance" oriented than it is now. No action planned in next 12 months.

Abstract: This rule would specify general work practice requirements, guarding requirements and provisions for safeguarding during repairs, tests and services. A notice of proposed rulemaking was published on 06/03/74 (39 FR 19507) with comments due by 06/30/81. Following a public hearing in 10/74, the project was dormant until 11/14/80 when a notice to reopen the record was published (45 FR 75238). A notice to schedule a public hearing and extend the comment period was published on 01/16/81 (46 FR 3916). On 04/10/81 a notice (46 FR 21368) was published to cancel the public hearings, schedule public meetings, and propose the addition of non-mandatory appendices. Public meetings were held in 05/81 and the public comment period ended 06/30/81. Industry contended the standard was unnecessarily excessive and not needed. At this time, it has not been determined whether further regulatory action will be undertaken within the next year. No action planned in next 12 months.

FOREIGN MISSIONS ACT REGULATIONS.

Priority: Agency Determination

Legal Authority: 22 USC 4301 et seq

CFR Citation: Not yet determined

Abstract: The Foreign Missions Act creates certain authorities for the Secretary of State relating to the regulation of foreign missions, diplomatic, consular, and international organization. Exercise of those authorities could involve restricting or controlling the access of such missions to American vendors of goods and services. Exercise of other authorities in the Foreign Missions Act could affect the location of premises of foreign missions. The regulations under consideration would provide procedures for exercise of these authorities. These regulations are at the stage of preliminary consideration. No timetable has been established.

Department Regulations Agenda; Semi-Annual Summary

AGENCY: Department of Transportation

ACTION: Department Regulations Agenda

SUMMARY: The Regulations Agenda is a semi-annual summary of all current and projected rulemakings, reviews of existing regulations and completed actions of the Department. These are matters on which action has begun or is projected during the succeeding 12 months or such longer period as may be anticipated, or for which action has been completed since the last Agenda. The Agenda provides the public with information about the Department of Transportation's regulatory activity. It is expected that this information will enable the public to be more aware of, and allow it to more effectively participate in, the Department's regulatory activity.

ADDRESSES: The mailing address for the initiating offices of the Department which appear in the Agenda are 400 Seventh Street, S.W., Washington, D.C. 20590, except for the Federal Aviation Administration and the St. Lawrence Seaway Development Corporation, which are located at 800 Independence Avenue, S.W., Washington, D.C. 20591, and the U.S. Coast Guard, which is located at 2100 Second Street, S.W., Washington, D.C. 20593.

FOR FURTHER INFORMATION CONTACT:

General

For further information on the Agenda, in general, contact: Neil R. Eisner, Assistant General Counsel for Regulation and Enforcement, Department of Transportation, 400 Seventh Street, S.W., Washington, D.C. 20590, 202-426-4723.

Background

Improvement of government regulations is a prime goal of the Reagan Administration. There should be no more regulations than necessary, and those that are issued should be simpler, more comprehensible, and less burdensome. Regulations should not be issued without appropriate involvement of the public; once issued, they should be periodically reviewed and revised, as needed, to assure that they continue to meet the needs for which they originally were designed.

To help the Department of Transportation ("Department") achieve these goals, and in accordance with Executive Order 12291 ("Federal Regulation"; 46 FR 13193; February 19, 1981) and the Department's Regulatory Policies and Procedures (44 FR 11034; February 26, 1979), the Department prepares a semi-annual Regulations Agenda for publication in the **Federal Register**. The Agenda summarizes all current and projected rulemaking, reviews of existing regulations and completed actions of the Department. These are matters on which action has begun or is projected during the succeeding 12 months or such longer period as may be anticipated or for which action has been completed since the last Agenda.

The Agendas are based on reports submitted by the initiating offices by the beginning of February and August each year. After these reports are consolidated for, and reviewed by, the Department Regulations Council, the Department's Regulations Agenda is prepared and published in the **Federal Register**. The Department's last Agenda was published in the **Federal Register** on October 26, 1982 (47 FR 48562). The next one is scheduled for publication in the **Federal Register** in October 1983.

Regulatory Flexibility Act

In 1980, Congress passed the Regulatory Flexibility Act (RFA), P.L. 96-354, which requires the designation of those regulations for which a Regulatory Flexibility Analysis will be prepared, i.e., those regulations that would have a significant economic impact on a substantial number of small entities. The symbol "†" appears at the left margin, prior to the title, for each significant and nonsignificant regulation in this Agenda for which a Regulatory Flexibility Analysis will be, or has been, prescribed. In addition, where the RFA applies to a significant regulation in this Agenda, that fact is noted in the regulation's summary under subheading E, "Analysis," by the addition of a slash (/) after the words "Regulatory Evaluation" or "Regulatory Impact Analysis," followed by the words "Regulatory Flexiblity Analysis." In addition, subheading D. "Effects on Small Entities" will indicate whether a Regulatory Flexibility Analysis is required by a "yes" or a "no."

The RFA also requires that each year the Department publish a list of those regulations that have a significant economic impact on a substantial number of small entities and are to be reviewed under the Act during the succeeding twelve months. The agenda includes those regulations to be reviewed under the RFA or those for which review has been concluded since the last Agenda. The symbol "†" also will appear in the left margin, prior to the title, and a "yes" or "no" will be found under subheading D, for each such regulation. It should be noted, however, that after a preliminary assessment of the regulations listed for RFA review, it may be found that the regulations, in fact, do not have a significant economic impact on a substantial number of small entities and a full RFA review will be unnecessary.

Definitions

The Agenda covers all rules and regulations of the Department, including those that establish conditions for financial assistance. The following definitions are provided for ease in understanding the information in this document.

(1) *Initiating office* means an operating administration or other organizational element within the Department, the head of which is authorized by law or delegation to issue

regulations or to formulate regulations for issuance by the Secretary.

(2) *Significant regulation* means a regulation that is not an emergency regulation and that in the judgment of the head of the initiating office, or the Secretary, or the Deputy Secretary -

(a) Is a major regulation;

(b) Concerns a matter on which there is substantial public interest or controversy;

(c) Has a major impact on another operating administration or other parts of the Department or other Federal Agency;

(d) Has a substantial effect on State and local governments;

(e) Has a substantial impact on a major transporation safety problem;

(f) Initiates a substantial regulatory program or change in policy;

(g) Is substantially different from international requirements or standards; or

(h) Otherwise involves important Department policy.

(3) *Major regulation* means a significant regulation for which a Regulatory Impact Analysis is required to be prepared.

(4) *Emergency regulation* means (a) a regulation that, in the judgment of the head of the initiating office, circumstances require to be issued without notice and opportunity for public comment or made effective in less than 30 days after publication in the Federal Register; or (b) is governed by short-term statutory or judicial deadlines.

(5) *Nonsignificant regulation* means a regulation that, in the judgment of the head of the initiating office, is neither a significant nor an emergency regulation.

A preliminary and final Regulatory Impact Analysis is required for each proposed and final regulation, respectively that

(1) is likely to result in:

(a) An annual effect on the economy of $100 million or more;

(b) A major effect on the general economy in terms of costs, consumer prices, or production;

(c) A major increase in costs or prices for consumers; individual industries; Federal, State, or local government agencies; or geographic regions;

(d) Significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets; or

(2) The Secretary or head of the initiating office determines deserves such an analysis.

Explanation of Information on the Agenda

In accordance with Office of Management and Budget Bulletin No. 83-8 (December 15, 1982), it has been necessary for us to revise the headings under which the information on our Agenda is presented. The following describes our new system.

The Regulations Agenda is divided by initiating offices. For each initiating office the Agenda is divided into three categories: (1) current and projected rulemakings, (2) reviews of existing regulations, and (3) completed actions. These categories are further subdivided into priority rulemakings (or regulations) and other rulemakings. Priority rulemakings are divided into major and non-major, with non-major including all significant rulemakings that do not require a regulatory impact analysis. The "other rulemakings" include all those defined by the Department as nonsignificant, including the routine and frequent rulemakings. For each entry, the Agenda provides the following information: (1) a short descriptive title; (2) a summary; and (3) a timetable, including the earliest expected date for a decision on whether to issue the proposed or final regulation, or complete the review and determine the corrective action to be taken. (The action taken can be revocation or revision of the regulation, or it can be a determination that no regulatory action is necessary because the regulation is found to be achieving its goals and the goals and objectives of Executive Order 12291 and the Department's Regulatory Policies and Procedures.)

The summary includes: (1) an abstract of the review or the proposed or final regulation; (2) the related regulatory citation in the Code of Federal Regulations; (3) the legal basis for the action being taken or the regulation being reviewed; and (4) a statement as to whether the Regulatory Flexibility Act applies because of the rulemaking's effect on small entities. It also includes (5) a listing of any analyses an initiating office will prepare or has prepared for the rulemaking document; e.g., a Regulatory Impact Analysis or Evaluation, an Environmental Impact Statement (EIS), a Regulatory Flexibility Analysis, or an Urban Impact Analysis. It should be noted that, even though a Regulatory Impact Analysis is not required for some items on the Agenda, the Department requires an economic analysis for all of its regulations. This economic analysis is contained in the Regulatory Evaluation. (6) If there is information that does not fit in the above categories, it will be included under a separate heading, entitled "Additional Information". Finally, for each entry, the summary includes (7), an agency contact office or official who can provide further information, including advice on how to obtain documents referenced in the Agenda.

For nonsignificant regulations issued routinely and frequently as a part of an established body of technical requirements (such as the Federal Aviation Administration's Airspace Rules) to keep those requirements operationally current, only the general category of the regulations, the identity of a contact office or official, and an indication of the expected number of regulations are included; individual regulations are not listed.

If a regulatory docket number has already been established, it is contained in parentheses immediately following the short descriptive title of the rulemaking. If a member of the public desires further information regarding a particular proposal or regulation, reference should be made to this docket number. The Federal Highway Administration also provides an FHPM number at this point for easier reference by those who use the Federal-aid Highway Program Manual (FHPM). The numbers following the FHPM represent, respectively, the volume, chapter, section and subsection at which the material is located in the FHPM.

In the "Timetable" column, abbreviations are used to indicate the particular documents being considered for issuance by that date. ANPRM stands for Advance Notice of Proposed Rulemaking, SNPRM for Supplemental Notice of Proposed Rulemaking, NPRM for Notice of Proposed Rulemaking, and FR for Final Rule. Listing a future date in this column is not an indication that a proposal or a final rule will be issued on that date; it is the earliest date on which a decision is expected to be made on whether to issue the document listed. Submittal of any proposed or final rule to the Office of Management and Budget for review, under Executive Order 12291, must follow such a decision. For major rules, this review could take 60 days or more. If any document is issued, publication in the Federal Register would follow within a few days. In addition, these dates are based on current schedules. Subsequently received information could result in a decision not to take regulatory action or in changes to proposed publication dates. For example, the need for further evaluation could result in a later publication date; evidence of a greater need for the regulation could result in an earlier publication date.

It should be noted that some of the items on the Agenda result from programs that were established to review existing regulations and revoke or revise those regulations that the initiating office determined were not achieving their intended purpose. Projects under regulatory development that resulted from a review of existing regulations to determine whether they should be revoked or revised are preceded by the word "Review" in the "Title" column. Because some reviews can be large-scale undertakings, and because there are already a number of these in the regulatory development process, the Department thought it would provide the public with valuable information if it indicated not only which regulatory reviews are under consideration but also which reviews have now reached the stage where proposed revisions are being, or have been, prepared. The number of regulatory projects that an initiating office can handle is limited by available resources. Therefore, the number of projects in the regulatory development stage may limit the number of reviews that can be added.

General

To allow for easier use of the Agenda and for quick comparison with earlier Agendas, the Department has instituted the following additional procedures in the Agenda: (1) Items listed on the Agenda retain the same order in each semi-annual publication. If subheadings are used within an initiating office's listing, then the same order is retained within each subheading. (2) New items generally are added at the end of the appropriate portion of the Agenda and are identified by an asterisk ("*") on the left side of the "Title" when first added. (3) New substantive information added to items that were on an earlier Agenda is printed in italics.

Mailing Lists for Regulatory Documents

To assist the public in obtaining regulatory documents issued within the Department of Transportation, an Appendix A has been included in this document. The appendix contains instructions on how to be placed on mailing lists for copies of regulatory documents, including the Department's Semi-Annual Regulations Agenda, issued by the operating administrations of the Department and the Office of the Secretary. There is no charge for this service; however, because of the costs involved, the number of copies of a document forwarded to an individual requestor may be limited. Persons already on mailing lists for particular documents within the Department will remain on those lists and should not reapply.

By following the instructions specified in the appendix, a person can be placed on a mailing list for future copies of the Department's Regulations Agenda, which will be updated and published in the **Federal Register** every year during April and October. By using the Agenda, individuals can determine which Notice or Advance Notice of Proposed Rulemaking, to be issued by elements of the Department, is of interest to them. Then, using the instructions in the appendix, such persons also can be placed on a mailing list to ensure that, after the document of interest is issued, a copy will be mailed to them for their review and comment. In this way, individuals will be relieved of the burden of having to review the **Federal Register**, perhaps on a daily basis. The Department expects that this process will ensure that those people placed on mailing lists will receive early notice so that their views on the document can be adequately prepared and presented within the established comment period.

General Rulemaking Contact Persons

To assist persons desiring to obtain general information concerning the rulemaking process within the Department's operating administrations, an Appendix B has been added to the Agenda. This appendix sets forth the addresses and the telephone numbers of the persons who can respond quickly to requests for general rulemaking information. Please note, however, that questions related to particular rulemaking actions should still be referred to the contact person listed with the particular rulemaking on the Agenda.

Public Rulemaking Dockets

To facilitate the inspection of docket files and the submission of comments by the public, an Appendix C sets forth the addresses and working hours for the Rules Docket for each operating administration.

Request for Comments

Agenda

Our Agenda is intended primarily for the use of the public. In each of the Agendas that we have issued, we have made modifications and refinements that we believe provide the public with more helpful information as well as make the Agenda easier to use. We would now like to ask you, the public, to make suggestions or comments on how the Agenda could be further improved. For example, do you find the information presented in an easily understandable manner? Do you find it easy to follow a regulation's development from Agenda to Agenda? Do you find that the format for setting out the information enables you to use the Agenda easily? Do you find that the explanation of the information in the Agenda is clearly explained in the preamble to the Agenda? Your responses to these questions or any other comments or suggestions you may have should be sent to Neil R. Eisner, whose address appears above.

Reviews

In an effort to comply further with the spirit of Executive Order 12291 and the Regulatory Flexibility Act, we are also seeking suggestions on existing regulations that should be included in our review of existing regulations list; that is, which existing regulations issued by an operating administration of the Department or the Office of the Secretary do you believe need to be reviewed to determine whether they should be revised or revoked? The Department is particularly interested in obtaining information on requirements that have a "significant economic impact on small entities" and therefore, must be reviewed under the Regulatory Flexibility Act. If you have any suggested regulations, please send them, along with your explanation of why they should be reviewed, to the concerned operating administration or the Office of the Secretary, at the appropriate address noted in the "Addresses" paragraph above.

In accordance with the Regulatory Flexibility Act, comments are specifically invited on regulations that are targeted for review under the RFA. Those comments should be addressed to the "contact" person of the operating administration involved, at the appropriate address noted in the "Addresses" paragraph above.

It should be noted that in February 1981, the Department initiated a systematic review of over 40 of its most costly and controversial existing regulations for possible revision/rescission. Most of these reviews are now completed and a second group of Department of Transportation regulations have been selected for priority review treatment. Regulations selected for either the first or second round of this priority review process are listed under the subheading "Priority Regulations" in the review portion of the Agenda.

Purpose

The Department is publishing this Regulations Agenda in the **Federal**

Register to share with interested members of the public the Department's preliminary expectations regarding its future regulatory actions. This should enable the public to be more aware of the Department's regulatory activity. Knowledge of the nature and scope of this activity, as well as the specific proposals and reviews being considered, should result in more effective public participation in the Department's regulatory activity. For example, awareness of the dates when notices may be issued seeking public comment should allow appropriate planning and more efficient use of the comment period. By providing the expected date for a decision on whether to issue a final rule, the Department expects that more appropriate planning by those concerned with the regulation will also be possible. This publication in the Federal Register does not impose any binding obligation on the Department, or any of the offices within the Department, with regard to any specific item on the Agenda or the Review List. Regulatory action in addition to the items listed is not precluded. If further information is desired on any of the items listed in the Agenda or the Review List, the public is encouraged to contact the individual listed for the particular item. Additional information concerning the Agenda, in general, or the Department's Regulatory Policies and Procedures may be obtained from Neil R. Eisner, whose address and telephone number appear above.

Issued in Washington, D.C. on March 1, 1983.

Elizabeth Hanford Dole,

Secretary of Transportation.

Allocation of "Slots" at Washington National Airport.	**Abstract:** Proposed amendment to establish procedures for allocating the hourly number of instrument flight operations (takeoffs and landings) or "slots" that may be reserved at Washington National Airport (WNA) in accordance with the FAA's High Density Rule. This proposal is considered a significant rulemaking project due to substantial public interest and potential costs to airlines. The Civil Aeronautics Board and the Department of Justice have expressed concerns about continuing the antitrust immunity under which the airline scheduling committees currently allocate slots at WNA. A new method of allocation may become necessary. **CFR Citation:** 14 CFR pt. 93 **Legal Authority:** 49 U.S.C. 1303, 1347, 1348 (a), (b), and (c), and 1354(a); (Sections 103, 306, 307 (a), (b), and (c), and 313(a), Federal Aviation Act of 1958, as amended); 49 U.S.C. 1655(c), (Sec. 6(c) DOT Act); Sec. 2, Act for the Administration of Washington National Airport, 54 Stat. 688. **Effects on Small Entities:** No **Analysis:** Regulatory Impact Analysis **Additional Information:** The CAB in conjunction with the FAA commissioned the Polinomics Research Laboratories, Inc., to research the allocation problem A report of its findings has been prepared. Another report by Econ, Inc. analyzing a slot allocation auction procedure has been prepared under an FAA contract. On August 15, 1980, the Secretary of Transportation issued a Policy for the Operation of Washington National Airport (WNA). The policy and implementing regulations were published in the Federal Register on September 18, 1980 (45 FR 62406). On October 29, 1980, DOT issued an emergency regulation for the temporary allocation of slots at WNA for the period December 1, 1980 until April 26, 1981, because of the failure of the scheduling committee to come to an agreement for that period. The emergency regulation was published in the Federal Register on November 3, 1980 (45 FR 72637). The NPRM for a long term solution to the slot allocation problem was issued on October 27, 1980 (45 FR 71236). A public hearing was held on February 13, 1981, and the comment period was extended until February 26, 1981 (46 FR 932, January 5, 1981). **Agency Contact:** Harvey Safeer, (202) 426-3331	NPRM Comment Period Extended Public hearing *To be withdrawn*	10/27/80 1/5/81 2/3/81	45 FR 71236 46 FR 932
Nondiscrimination on the Basis of Handicap.	**Abstract:** The Department's section 504 rule is one of those selected for priority review. In addition, a May 1981 Federal Court of Appeals decision said that section 504 of the Rehabilitation Act of 1973 did not authorize the Department's rule as it affects mass transit. The Department published an interim final rule changing the transit portion of the rule on July 20, 1981 (48 FR 37488) to conform to the Court's decision. Other parts of the rule will be revised in light of the decision and as part of the priority review of the regulation, with an NPRM to be issued proposing any appropriate changes. The section 504 rule is a controversial regulation affecting all parts of DOT as well as many providers and users of DOT-funded or operated programs. The mass transit section of the rule is controversial and changes to the rule will be of considerable interest to the public. These regulatory actions are necessary in order to make the rule consistent with the Court's decision and the Administration's regulatory policy. *Section 317(c) of the Surface Transportation Act of 1982 directed the Department to publish a NPRM within 90 days after the date of enactment.* **CFR Citation:** 49 CFR pt. 27 **Legal Authority:** 29 U.S.C. 794, (Section 504 of the Rehabilitation Act of 1973, as amended); 49 U.S.C. 1612(a), (Section 16(a) of the Urban Mass Transportation Act of 1964, as amended); 23 U.S.C. 142 nt, (Section 165(b) of the Federal-aid Highway Act of 1973, as amended). **Effects on Small Entities:** No	NPRM	4/83

Title VI Civil Rights Regulation...	**Abstract:** The proposed regulations would assemble in one package all DOT procedures and requirements concerning all recipients of financial assistance under Title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d-4). This rulemaking is significant because substantial public interest is anticipated and it will affect all of the DOT elements and the administration of all grant programs. The Department has an existing Title VI regulation dating from 1970, and a Title VI order promulgated by Secretary Coleman on Jan. 19, 1977, and reaffirmed by Secretary Adams in March of that year. This rule is undergoing a priority regulatory review within the Department, and changes may be proposed based on the results of this review. **CFR Citation:** 49 CFR pt. 21 **Legal Authority:** 42 U.S.C. 2000d-4 **Effects on Small Entities:** No **Analysis:** Regulatory Evaluation **Additional Information:** NPRM published in the Federal Register January 19, 1981, (46 FR 5588). No further action will be taken on this NPRM pending the outcome of the priority regulatory review. Comment period closed April 20, 1981. **Agency Contact:** Shirley Lloyd (202) 426-4754	NPRM *To be withdrawn*	1/19/81	46 FR 5588
Minority Business Enterprise Program (Direct Contracting).	**Abstract:** This regulation would implement the requirements of DOT Order 4000.7A for DOT operating elements to take affirmative action to assure that minority business enterprises participate in Departmental procurement programs. This rulemaking is significant because substantial public interest is anticipated given the proposed action's potential impact on DOT's procurement programs. It is needed to implement the provisions of the DOT Order 4000.7A by providing detailed instructions for carrying out the affirmative action requirements of the order and to supplement the 1978 amendments to the Small Business Act. **CFR Citation:** 49 CFR pt. 23 **Legal Authority:** Executive Order 11625; Executive Order 12138; 45 U.S.C. 803; P.L. 95-507. **Effects on Small Entities:** No **Analysis:** Regulatory Evaluation **Additional Information:** NPRM was published on May 17, 1979 (44 FR 28928). The comment period closed on July 16, 1979. The Department published a final rule concerning its financial assistance programs on March 31, 1980 (45 FR 21172). The Department has concluded that further rulemaking in the direct contracting field is unnecessary at this time, and intends to withdraw this proposed rule. Review: Minority Business Enterprise Program (Financial Assistance Programs).	**Agency Contact:** Robert C. Ashby, (202) 426-4723 **Abstract:** The Department is reviewing its regulation establishing a minority business enterprise (MBE) program in its financial assistance programs (49 CFR Part 23). This regulation has been very controversial, is of interest to most DOT grant recipients and contractors, and affects the operations of all DOT financial assistance programs. As part of the Administration's program of reviewing regulations that are costly or controversial, the Department has decided that it is necessary to consider substantial revisions of the existing rule. The aim of the revisions would be to reduce regulatory burdens associated with the present rule. **CFR Citation:** 49 CFR pt. 23 **Legal Authority:** 42 U.S.C. 2000d; (Title VI of the Civil Rights Act of 1964); Title 49 U.S.C. 1730; 45 U.S.C. 906; 49 U.S.C. 1615. **Effects on Small Entities:** Yes **Analysis:** Regulatory Evaluation/Regulatory Flexibility Analysis (for NPRM). **Additional Information:** Final Rule published March 31, 1980 (45 FR 21172). NPRM to make interim amendment to this final rule, proposing to delete two controversial provisions, pending revision of the entire rule, published March 12, 1981 (46 FR 16282). Comment period closed March 26, 1981. Final rule for interim amendment published April 27, 1981 (46 FR 16202). Further action to revise existing rule under consideration . **Agency Contact:** Robert Ashby, (202) 426-4723	Further Action to be determined.		
Public Availabiltiy of Information.	**Abstract:** This involves a revision of DOT's Freedom of Information Act regulations. Specific areas to be revised may include the fee schedule and the policy on waivers of fees for public interest groups and the press. This rulemaking is significant because of substantial public interest. It is needed because the Freedom of Information Regulations need periodic revision to keep current with changes in case law, policy, and implementation costs. **CFR Citation:** 49 CFR pt. 7 **Legal Authority:** 5 U.S.C. 552 (Freedom of Information Act) **Effects on Small Entities:** No **Analysis:** Regulatory Evaluation **Additional Information:** The regulations were last revised in 1975. (40 FR 7915). A new revision is currently under internal development. **Agency Contact:** Greg Wolfe (202) 426-4710	Further action to be determined.		
Nondiscrimination in Federally-Assisted Programs of the Department of Transportation—State Transportation Agencies' EEO Affirmative Action Programs.	**Abstract:** The proposed regulation would set forth requirements and procedures for all State Departments of Transportation (DOTs) equal employment opportunity compliance programs. It would also consolidate FHWA, FRA, and UMTA responsibilities in this area. This proposed regulation is significant because it would affect the equal opportunity employment programs of all State transportation agencies. It is needed because OST, FHWA, FRA, and UMTA each have responsibility for implementing the equal employment opportunity programs of State DOTs. This proposed rule would assure full coordination among these departmental elements, reduce the burden on the recipients, simplify reporting requirements, and eliminate duplication of effort. **CFR Citation:** 49 CFR 1.48(c), 2.49(u), 1.51(a) **Legal Authority:** Section 22(a) of the Federal-Aid Highway Act of 1968, as amended; Section 905 of the Railroad Revitalization and Regulatory Reform Act of 1976; (49 U.S.C. 1615) (Section 19 of the Urban Mass Transportation Act of 1964, as amended); (29 U.S.C. 794). (Section 504 of the Rehabilitation Act of 1973). **Effects on Small Entities:** No **Analysis:** Regulatory Evaluation	Further action to be determined.

*Intergovernmental Review of Federal Programs.	**Abstract:** The proposed rule would implement Executive Order 12372, which replaces OMB Circular A-95 with a new system to ensure effective Federal-state-local consulation with respect to DOT programs. The rule is significant because it implements government-wide policy and will make important changes in DOT relationships with state and local governments. It is needed because the Executive Order requires all Executive agencies to issue implementing regulations. **CFR Citation:** 49 CFR Part 31 **Legal Authority:** Executive order 12372; 42 U.S.C. 4231(a), 3 U.S.C. 301, (Section 401(a) of the Intergovernmental Cooperation Act). **Effects on Small Entities:** No **Analysis:** Regulatory Evaluation **Additional Information:** The President signed Executive Order 12372 on July 14, 1982. *Participation by Minority Business Enterprises in Department of Transportation Programs.	**Abstract:** Section 105(f) of the Surface Transportation Assistance Act of 1982 requires ten percent of the funds authorized by the Act to be expended with small business concerns owned and controlled by socially and economically disadvantaged individuals. This rulemaking would add a new Subpart D to the Department's existing Minority Business Enterprise (MBE) rule (49 CFR Part 23) to implement the statute. The rulemaking is significant because it affects all contracting in FHWA and UMTA programs and because of substantial public and Congressional interest. **CFR Citation:** 49 CFR Part 23, Subpart D **Legal Authority:** Section 105(f) of the STAA of 1982 **Effects on Small Entities:** Yes **Analysis:** Regulatory Evaluation **Additional Information:** None **Agency Contact:** Robert C. Title VI Regulation	**Abstract:** This regulation prohibits discrimination on the basis of race, color, or national origin in programs and activities receiving DOT financial assistance, provides examples of prohibited practices, and establishes enforcement procedures. Because the regulation affects all DOT financial assistance programs, creates administratives burdens for DOT and its recipients, and is an old regulation that has not been extensively revised since the early 1970s, it is an appropriate subject for a priority regulatory review, which will be led by the Departmental Office of Civil Rights with the participation of other affected DOT offices. The purpose of the review will be to make recommendations for how to carry out Title VI of the Civil Rights Act of 1964 and prevent discrimination in DOT-assisted programs more efficiently and with fewer administrative burdens. **CFR Citation:** 49 CFR pt. 21 **Legal Authority:** 42 U.S.C. 2000(d) (Title VI of the Civil Rights Act of 1964). **Effects on Small Entities:** No **Agency Contact:** Shirley Lloyd, (202) 426-4754	Further Action to be determined.

Review: Construction and Equipment; Existing Self-Propelled Vessels Carrying Bulk Liquefied Gases (Docket No. 77-069).	**Abstract:** Would amend regulations for existing self-propelled vessels that carry bulk liquefied gases by including the substantive requirements for the "Code for Existing Ships Carrying Liquefied Gases in Bulk" adopted by the *International Maritime Organization (IMO).* These amended regulations would also increase safety levels of existing ships carrying gas. This is significant because it involves a large number of existing U.S. and foreign flag ships which carry liquefied gas and because it is the subject of substantial public interest. Increased use of liquefied gases has intensified the problems associated with this product. Since this product has unique properties and dangers, a dedicated set of regulations is needed to address them. *The work plan for this project was approved by the Coast Guard Marine Safety Council in October, 1982 and the NPRM is currently undergoing internal review.* **CFR Citation:** 46 CFR pts. 31, 34, 38, 40, 54, 98, 154 **Legal Authority:** R.S. 4417(a) as amended by section 5, P.L. 95-474 (46 U.S.C. 391a); See 6(d)(1), 80 Stat. 937 (49 U.S.C. 1655(b)(1)). This rulemaking also implements the Port and Tanker Safety Act of 1978. **Effects on Small Entities:** No **Analysis:** Regulatory Impact Analysis **Additional Information:** An Advance Notice of Proposed Rulemaking was published June 30, 1977 (42 FR 33353). Damage Stability and Flooding Protection Standards for Great Lakes Bulk Dry Cargo Vessels (Docket No. CGD 80-159).	**Abstract:** Would require a level of subdivision for new ships which is at least equivalent to that required for Maritime Administration construction loan guarantees. Would reduce the risk of catastrophic sinking and increase the time available to utilize recently improved survival gear. This project is significant because it would initiate a significant change in policy which differs substantially from international standards. Additionally, it could result in a major price increase for an individual industry. **CFR Citation:** 46 CFR pts. 45 and 93 **Legal Authority:** 46 U.S.C. 375, (RS 4405); 46 U.S.C. 391, (R.S. 4417); 46 U.S.C. 416, (R.S. 4462). **Effects on Small Entities:** No **Analysis:** Regulatory Impact Analysis **Additional Information:** January 7, 1981, work plan approved **Agency Contact:** *Lt. Segregated Ballast, Dedicated Clean Ballast, and Crude Oil Washing on Tank Vessels of 20,000 to 40,000 Deadweight Tons. (Docket No. CGD 82-028).	**Abstract:** This project would amend 33 CFR for the purpose of implementing the tanker construction and equipment standards in Sections (7)(E) and (H) of R.S. 4417a, as amended by the Port and Tanker Safety Act of 1978. These statutes require tank vessels of 20,000 to 40,000 DWT that are 15 years old or older to have segregated ballast tanks, dedicated clean ballast tanks or a crude oil washing system by January 1, 1986 or the date they reach 15 years of age. This rulemaking is considered significant because of economic impact on industry, Congressional and Administration interest. It is needed because implementing standards mandated by the Port and Tanker Safety Act, will reduce operational pollution from ballasting, tank cleaning and sludge removal on existing tank vessels that are 15 years old or older. *Work plan was approved at the April 1982 Marine Safety Council Meeting.* **CFR Citation:** 33 CFR pt. 157 **Legal Authority:** 46 U.S.C. 391a as amended by the Port and Tanker Safety Act of 1978 (92 Stat. 1486), R.S. 4417a. **Effects on Small Entities:** No **Analysis:** Regulatory Impact Analysis, Environmental Impact Statement. This is considered significant because this is the result of a Presidential initiative. This rulemaking is necessary because most pollution incidents are the result of personnel error; consequently, the minimum qualifications of persons involved in handling polluting substances should be specified. **CFR Citation:** 33 CFR pt. 155; 46 CFR pts. 12, 13, 30, 31, 35, 70, 90, 98, 105, 151, 153, and 157. **Legal Authority:** 46 U.S.C. 391a, (86 Stat. 427, as amended); 49 U.S.C. 1655(b)(1), Sec. 6(b)(1), 80 Stat. 937; 49 CFR 1.46(n)(4). **Effects on Small Entities:** Yes **Analysis:** Regulatory Evaluation, Environmental Impact Statement, Inflationary Impact Statement/Regulatory Flexibility Analysis. **Additional Information:** Environmental Analysis and Inflationary Impact Statement completed February, 1977. †Review: Licensing of Pilots (Docket No. CGD 77-084).	**Abstract:** This proposal would require: recency of service for each route upon which a pilot is authorized to serve; licenses to be issued with tonnage limitations commensurate with pilot experience; and consideration of shiphandling simulator training for pilots of very large vessels including Very Large Crude Carriers (VLCC). It is considered significant because there is substantial interest among marine personnel about this matter and because opposition is expected from Federal pilots. It is needed because increased ship size has led to unusual handling characteristics with which some pilots may not be familiar. This rule would allow use of simulator training for these kinds of vessels. **CFR Citation:** 46 CFR pt. 10 **Legal Authority:** 46 U.S.C. 214, 224, 230, 233, 237; 49 U.S.C. 1655(b)(1). **Effects on Small Entities:** Yes **Analysis:** Regulatory Evaluation/Regulatory Flexibility Analysis **Additional Information:** A Regulatory Analysis and Work Plan were completed in October 1978. Marine Sanitation Devices on Vessels.	**Abstract:** These regulations govern the design and construction of marine sanitation devices in accordance with the regulations and performance standards promulgated by the Environmental Protection Agency (EPA) under section 312 of the Federal Water Pollution Control Act. They also contain the procedures by which Coast Guard enforces its own and EPA standards pertaining to these devices. The purpose of the regulations is to eliminate the discharge of untreated sewage from vessels into the waters of the United States. This is one of the Coast Guard's most controversial regulations. The Coast Guard estimates the annual cost of the rule to be $100,000,000. The Coast Guard estimates the cost of retrofitting boats with these devices to be $100,000,000. The regulation is appropriate for review because of its cost and because of its unpopularity with boat owners. Any revision of the regulation, however, will require coordination with the EPA. **CFR Citation:** 33 CFR pt. 159 **Legal Authority:** 33 U.S.C. 1322 **Effects on Small Entities:** No **Agency Contact:** *LCDR. Vessel Reporting Requirements.	**Abstract:** These regulations were developed and promulgated pursuant to the Port and Tanker Safety Act. They require vessel owners to report their locations, arrivals and departures when carrying certain hazardous cargoes. The barge industry and certain boat owners in the past have opposed these regulations. These regulations are being reviewed because of their controversy and impact on the barge and towing industry.. **CFR Citation:** 33 CFR pt. 161 **Legal Authority:** 46 U.S.C. 391A **Effects on Small Entities:** No **Agency Contact:** Mr. Bruce Novack, (202) 426–1477	Completion of Review.	4/83

†Regulatory Flexibility Act Reviews.	**Abstract:** In accordance with the Regulatory Flexibility Act (RFA) review plan published in the Federal Register of June 29, 1981 (46 FR 33404) the Coast Guard has deferred selecting any specific regulations for RFA review at this time. Instead, the Coast Guard is dividing its regulatory material into manageable units and determining which will require review under the RFA. Once the extent of the required RFA review is known, the Coast Guard will publish a specific review schedule. **CFR Citation:** 33 CFR **Legal Authority:** None **Effects on Small Entities:** Yes **Agency Contact:** Mr. Bruce Novak, (202) 426-1477	**Review Plan** Review in Process.	**6/29/81**	**46 FR 33404**

†Parts Manufacturer Approvals (Docket No. 17147).	**Abstract:** Would (1) simplify the procedure for approving a PMA applicant's design on the basis of identicality to an already approved design; (2) reduce PMA application and reporting requirements; and (3) add a marking requirement which will facilitate field installation of replacement parts manufactured under a PMA and help avoid use of incorrect parts. The proposed revision is considered to be significant because it is controversial. Differences of opinion exist with respect to the methods available for showing identicalness of parts. Also the Parts Manufacturer Approval application and reporting requirements may be unnecessarily burdensome. **CFR Citation:** 14 CFR pt. 21 **Legal Authority:** Secs. 313(a), 601 and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423). **Effects on Small Entities:** Yes **Analysis:** Regulatory Evaluation/Regulatory Flexibility Analysis. **Additional Information:** This project was initiated December 23, 1975. NPRM No. 77-19 was published in the Federal Reigster (42 FR 43985). Comment period later reopened until January 4, 1978 (NPRM No. 77-19A, 42 FR 61048) and again reopened until May 15, 1978 (NPRM No. 77-19B, 43 FR 15432). Portions of NPRM 77-19 dealing with other subjects were handled separately. Supplemental Notice of Proposed Rulemaking (SNPRM) was published January 15, 1981 (46 FR 3775). Initial comment period closed April 15, 1981; reply comment period closed May 15, 1981. NPRM 77-19D reopening the comment period until August 24, 1981, and the reply comment period until September 21, 1981, was published July 23, 1981 (46 FR 38062). Airborne Low-Level Wind Shear Equipment Requirements (Docket No. 19110).	**Abstract:** Would revise existing regulation to require all large passenger-carrying aircraft be equipped with a device that will display wind shear information to the pilots. This action is considered a significant project because it will generate substantial public interest and will be controversial. As a result of several accidents involving wind shear, it is necessary to identify equipment that will enable pilots to identify low level wind shear conditions. **CFR Citation:** 14 CFR pt. 121 **Legal Authority:** Secs. 313(a), 601 and 604 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421 and 1424) and Sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)). **Effects on Small Entities:** No **Analysis:** Regulatory Evaluation **Additional Information:** In 1975, the FAA began a two year effort to develop a wind shear program. As part of the program, FAA began work to develop a wind shear warning and pilot aiding device which has achieved encouraging results. Following the initial announcement of this proposal it was determined that a regulatory analysis would not be required; however, an evaluation will be made and docketed. ANPRM No. 79-11 was published on May 3, 1979 (44 FR 25807) and comment period closed August 3, 1979. (14 CFR Parts *91*, 121 & 135). **Agency Contact:** *David L. Catey, (202) 426-8096*	ANPRM ..... Further action to be determined.	5/3/79	44 FR 25807
Flight Crewmembers: Limitations on Use of Services *(Docket No. 23174)*.	**Abstract:** The FAA has established a project to determine the need to revise that provision of Part 121 which prohibits certificate holders from using the services of any person as a pilot flight crewmember if that person has reached his or her 60th birthday and to extend the rule to cover all flight crewmembers in air carrier operations. The "Age 60" rule is significant because it has been objected to by pilots flying in Part 121 operations since its adoption. Any action that the FAA proposes can be expected to generate significant concern over the economic and career consequences to flight crewmembers and to air carriers. This project is needed in light of a recent government study on the "Age 60" rule and air carrier experience involving down-bidding of age 60 pilots to flight engineer positions. **CFR Citation:** 14 CFR pt. 121 **Legal Authority:** Section 313(a), 601, 602, and 604, Federal Aviation Act of 1958 (49 U.S.C. Sections 1354(a), 1421, 1422, 1423); Section 6(c) Department of Transportation Act (49 U.S.C. Section 1655(c)). **Effects on Small Entities:** No **Analysis:** Regulatory Evaluation **Additional Information:** Public Law 96-171 (7/18/79) directed the National Institutes of Health (NIH) to conduct a study to determine if the "age 60 rule" is warranted. The report, issued August 1982, recommends retaining the rule, extending it to cover Part 135 operations, and implementing a study to collect data to possibly relax the current rule. The ANPRM 82-10 was published July 8, 1982. (47 FR 29782). The comment period closed November 5, 1982. **Agency Contact:** *Lawrence P. Bedore, (202) 426-8096*	ANPRM ..... Airport Noise Compatibility Planning.	**Abstract:** Would revise and replace with a final rule the interim rule (FAR Part 150) on this subject, (1) prescribing requirements for airport operators choosing to submit an airport noise exposure map or an airport noise compatibility program, (2) establishing a single system of measuring aircraft noise and a single system for determining the exposure of individuals to noise in the vicinity of airports, and (3) identifying land uses that are normally compatible (or noncompatible) with various levels of noise around airports. The proposed regulation is significant because it is of substantial interest to the public, potentially affecting State and local governments and the aviation community. The Aviation Safety and Noise Abatement Act of 1979 requires the Secretary of Transportation (and through delegation, the Administrator of the FAA) to establish items (1), (2), and (3). The aviation noise problem in the vicinity of airports has become recognized as one of the greatest and potentially most damaging problems in social as well as environmental and economic terms, in aviation today. Pressures for curfews and other constraints upon aviation to solve noise problems are increasing. Costs of land purchases, soundproofing, and land use changes for compatibility purposes are increasing at even faster rates. There is an urgent need for positive actions and constructive cooperative efforts by all involved in the aviation noise problem. This final rule will serve as the primary vehicle for these actions and efforts. **CFR Citation:** CFR pt. 150 **Legal Authority:** Title I of the Aviation Safety and Noise Abatement Act of 1979 (P.L. 96-193), Sections 307(a), 312, 611, and 612 of the Federal Aviation Act of 1958 (as amended), and Section 20(b) of the Airport and Airway Development Act of 1970 (49 U.S.C. 1720(b)). **Effects on Small Entities:** No **Analysis:** Regulatory Evaluation **Additional Information:** The Aviation Noise Abatement Policy, issued November 18, 1976, established a pilot noise abatement planning program, the Airport Noise Control and Land Use Compatibility (ANCLUC) Program. The Aviation Safety and Noise Abatement Act of 1979 established the basis and legal requirement for this and the interim rule FAR Part 150. FAR Part 150, the interim rule, was adopted January 19, 1981, and became effective February 28, 1981. Comments were received on the interim rule through December 1, 1981. **Agency Contact:** Richard Tedrick, (202) 755-9027	NPRM	*5/83*	
*High Density Airport Traffic Rule.	**Abstract:** Would rescind the operations reservations rule as it applies to the John F. Kennedy, LaGuardia, and Chicago O'Hare Airports. Under the current rule, an operator must secure a reservation for any instrument flight rule departure or arrival operation at those airports during designated hours. The proposal is considered significant because of the public interest it is likely to generate. **CFR Citation:** 14 CFR Part 93 **Legal Authority:** Secs. 103, 307, 313(a) of the FA Act of 1958 (49 U.S.C. 1303, 1348, 1354(a), and 1421(a)). **Effects on Small Entities:** No **Analysis:** Regulatory Evaluation **Additional Information:** The rule was originally promulgated to reduce air traffic congestion and delay. With the advent of improved programs, procedures, and air traffic flow management, the rule is felt to be unnecessary. **Agency Contact:** Hal Becker, (202) 426-3656	NPRM	4/83

**Part 120 Air Transportation Regulation (Docket No. 22480).*	**Abstract:** To evolve a single air transportation regulation from Parts 121 (Air Carrier, Supplemental Air Carrier, and Commercial Operators of Large Aircraft) and 135 (Air Taxi Operators and Commercial Operators) which would embody aviation safety policy procedures rather than using several different regulations for this purpose. This would eliminate inconsistencies within each rule which lends credence to the public complaint that the regulations too often are unduly complex, confusing, and difficult to understand. It would allow individual operators to conduct operations in the most efficient manner possible to meet established safety objectives and would reduce costs while retaining the highest level of safety.. **CFR Citation:** 14 CFR pts. 121 and 135 **Legal Authority:** F.A. Act, Secs. 313(a), 314(a), 601–610 (49 U.S.C. 1354a, 1355, 1421–1430). **Effects on Small Entities:** No **Analysis:** Regulatory evaluation **Additional Information:** None **Agency Contact:** *Daniel C. Review: Update of Part 139	**Abstract:** Revision of 14 CFR Part 139 to update and clarify the part including fire-fighting and rescue requirements. **CFR Citation:** 14 CFR pt. 139 **Legal Authority:** F.A.Act, Secs. 313, 609, 610 (49 U.S.C. 1354, 1429, 1430, 1432). **Effects on Small Entities:** No **Analysis:** Regulatory Evaluation **Additional Information:** *This project was initiated on June 25, 1975, in response to a GAO evaluation of the FAA's Airport Certification Program and the result it has on improving the safety of airports. The project has been delayed for a number of reasons that impacted completion and publication of a NPRM. Some of these reasons are: FAA cost benefit analysis of CFR services, recent changes to F.A. Act and proposed sunset of CAB. On November 22, 1982, FAA conducted a listening session with aviation industry representatives.* **Agency Contact:** Jose Roman, (202) 426-3087	Further action to be determined.

Review: Revision of Part 91 (Docket No. 18334).	**Abstract:** This review deals with the air traffic and general operating rules in Part 91 - the most fundamental aviation regulations. This action would reorganize and rearrange the rules without substantive change, to make them easier to use and understand. (Phase I). A later action will review and revise them to eliminate unnecessary burdens in keeping with E.O. 12291. (Phase II). AOPA withdrew its petition on November 20, 1980, so the FAA could proceed with this two-step review. ANPRM 79-2 published the original AOPA petition for comment on January 22, 1979 (44 FR 4571). NPRM 79-2A proposing reorganization of Part 91 was published on September 10, 1981 (46 FR 45256). NPRM 79-2B extended the comment period to April 9, 1982 (December 10, 1981; 46 FR 60461). Comments received on NPRM 79-2A will form a basis for proceeding with Phase II. **CFR Citation:** 14 CFR pt. 91 **Legal Authority:** F.A.Act, Secs. 307, 313(a), 402, 601-603, 902, 1110, 1202 (49 U.S.C. 1348, 1354, 1354(a) 1355, 1401, 1402, 1421-1430, 1502, 1655(c)). **Effects on Small Entities:** No **Analysis:** *Regulatory Evaluation* **Additional Information:** *None* **Agency Contact:** *James R. Revision of Applicability of Part 139.	**Abstract:** Proposed amendment to require the certification of airports serving commuter air carriers, as well as air carriers holding certificates of public convenience and necessity from the CAB. This revision would respond to the Airline Deregulation Act of 1978 and ensures that passengers traveling aboard commuter air carriers enjoy the same level of safety as passengers traveling aboard CAB certificated air carriers. **CFR Citation:** 14 CFR pt. 139 **Legal Authority:** F.A.Act, Secs. 313, 609, 610 (49 U.S.C. 1354, 1429, 1430, 1432). **Effects on Small Entities:** No **Analysis:** *Regulatory Evaluation* **Additional Information:** *After further analysis and review in light of comments received to Notice 80-10, the FAA concluded that its authority to issue the proposed rule was unclear and that rulemaking should not proceed until the statutory basis for the proposed rule was clarified. For this reason, the FAA suspended action on the notice and on January 22, 1981, published in the Federal Register (46 FR 6975) a copy of its letter to Congress requesting clarification of its authority to regulate airports under Section 621 of the F.A. Act. In response to that request, on September 3, 1982, the Airport and Airway Improvement Act of 1982 (P.L. 97-248) was enacted and in part amended Sections 610 and 612 of the F.A. Act. To implement the authority of P.L. 97-248, this Notice revises the amendments proposed in Notice 80-10.* **Agency Contact:** Jose Roman, Jr., (202) 426-3087	NPRM *SNPRM*	6/12/80 *4/83*	45 FR 39857

Deregulation of Parachuting	**Abstract:** This notice proposes to remove from the regulations those sections or references to sections pertaining to the airworthiness requirements of parachuting. It does not propose to remove those sections which deal with jumping within controlled airspace, over congested areas, or over open-air assemblies. The regulations governing parachuting were issued at a time when the unreliability of aircraft caused passengers to be dependent on parachutes. The reliability of today's aircraft makes dependence on parachutes unnecessary and, consequently, the regulations which govern them *should be deleted.* **CFR Citation:** 14 CFR pts. 65, 91, 105, 149, and 183 **Legal Authority:** F.A.Act, Secs. 301(c), 305, 307, 307(b), 313(a), 314, 402, 601-603, 607, 902, 1110, 1202; 49 U.S.C. 1341(c), 1346, 1348, 1348(a)(b)(c), 1354(a), 1355, 1421, 1421(a), 1427, 1655(c). **Effects on Small Entities:** No **Analysis:** *Regulatory Evaluation* **Additional Information:** *None* **Agency Contact:** *Jean Casciano, (202) 426-8357*	NPRM	*4/83*

• Airport Layout Plan Approvals	**Abstract:** This review will concentrate on Airport Layout Plan (ALP) approvals as required by Federal Aviation Regulation Part 152 in an effort to reduce the regulatory and paperwork burden on state and local governments. The ALP approval review was selected by the Presidential Task Force on Regulatory Relief. **CFR Citation:** 14 FR pt. 152 **Legal Authority:** 49 U.S.C. 1701 **Effects on Small Entities:** No **Analysis:** *Regulatory Evaluation* **Additional Information:** *None* **Agency Contact:** Paul Galis, (202) 426-3050	Completion of Review.	5/83	
*Airmen Medical Standards	**Abstract:** These regulations specify the medical standards which must be met before a medical certificate is issued to an airman. For example, a medical certificate is required before a person can obtain a pilot license. During a recent rulemaking involving these regulations, a considerable number of commenters expressed the belief that the current standards should and could be revised to state, in generally applicable objective terms, all those circumstances in which the FAA will issue medical certificates. In the past, some certificates have been issued on a case-by-case basis, with appropriate limitations, under exemption and waiver provisions where strict compliance with the existing standards was not essential in the interest of safety. A comprehensive review of these regulations is necessary to determine if the commenters' arguments are correct. If they are and the requested regulatory changes are possible, it could greatly reduce burdens, both on the FAA and airmen, associated with the processing of medical certificates. **CFR Citation:** 14 CFR pt. 67 **Legal Authority:** F.A.Act, Secs. 313(a), 314, 601, 607 (49 U.S.C. 1354(a), 1355, 1421, 1427) **Effects on Small Entities:** No **Agency Contact:** *William H. Rotorcraft Certification and Operating Rules	**Abstract:** This will include a review of new flight control and associated system airworthiness for rotorcraft. Previous notices covered the applicability of rotorcraft certification, instrument flight rules (IFR) certification, and the certification of anti-icing and deicing equipment. This review is based on a number of proposals discussed at the Rotorcraft Regulatory Review held December 10-14, 1979, in New Orleans, La.; and the Rotorcraft Regulatory Review Meeting held August 18-20, 1980, in Washington, DC. **CFR Citation:** 14 CFR pts. 27, 29, 91, and 127 **Legal Authority:** F.A.Act, Secs. 307, 313, 313(a), 402, 601-605, 902, 72, 1110, 1202 (49 U.S.C. 1348(a)(c), 1354, 1354(a), 1421, 1421(a), 1423-1425, 1655(c)). **Effects on Small Entities:** No **Analysis:** *Regulatory Evaluation* **Additional Information:** *None* **Agency Contact:** *Robert T. Flight Crewmember Flight Time Limitations and Rest Requirements *(Docket No. 22745).*	**Abstract:** Proposed amendment to revise the flight time limitations and rest requirements for flight crewmembers utilized by domestic, flag, and supplemental air carriers, commercial operators, air taxi operators, and scheduled air carriers with helicopters. The complexity of the current rule has required numerous interpretations and has been a burdensome requirement. A proposal is to be developed which is both less complex and less burdensome in compliance with Executive Order 12291. **CFR Citation:** 14 CFR pts. 121 and 135 **Legal Authority:** F.A.Act, Secs. 313(a), 314(a), 501, 601-610, 1102 (49 U.S.C. 1354(a), 1355(a), 1421-1430, 1502, 1655(c)). **Effects on Small Entities:** No **Analysis:** *Regulatory Evaluation* **Additional Information:** *None* **G. •Air Carrier Certification, Operating and Maintenance Rules. Elements of the review: Aircraft Requirements Manual Requirements Performance Limitations Airworthiness Requirements Instrument and Equipment Requirements Maintenance Requirements Airmen and Crewmember Requirements Training Programs Crewmember Qualifications Airplane Performance Operations Limitation Flight Time Limitations Flight Operations Dispatching and Flight Release Rules, Records, and Reports	**Abstract:** To evolve a single air transportation regulation from Parts 121 (Air Carrier, Supplemental Air Carrier, and Commerical Operators of Large Aircraft) and 135 (Air Taxi Operators and Commercial Operators) which would embody aviation safety policy procedures rather than using several different regulations for this purpose. This would eliminate inconsistencies within each rule which lends credence to the public complaint that the regulations too often are unduly complex, confusing, and difficult to understand. It would allow individual operators to conduct operations in the most efficient manner possible to meet established safety objectives and would reduce costs while retaining the highest level of safety. **CFR Citation:** 14 CFR pts. 121 and 135 **Legal Authority:** F.A.Act, Secs. 313(a), 314(a), 601-610 (49 U.S.C. 1354a, 1355, 1421-1430). **Effects on Small Entities:** No **Analysis:** *Regulatory Evaluation* **Additional Information:** *Rulemaking initiated. †Noise Standards: Aircraft Type and Airworthiness Certification.	**Abstract:** Part 36 prescribes noise type certification *standards for* turbojet powered airplanes *and propeller driven small airplanes* regardless of category. This review will examine the need to reorganize and realign the noise standards to make them more understandable and easier to use. This review would reorganize existing material into several new subparts, and utilize an improved numbering system to provide for the easier inclusion of future changes. Other immprovements would be made by deleting redundancies, obsolete compliance dates, and making other minor changes. Additionally, Part 36 will be reviewed in accordance with Executive Order 12291 to reduce regulatory burdens on the public, including the preparation of both a Regulatory Evaluation and a Regulatory Flexibility Analysis. **CFR Citation:** 14 CFR pt. 36 **Legal Authority:** F.A.Act, Secs. 313(a), 601, 603, 611 (49 U.S.C. 1354, 1421, 1423, 1431, 1655(c)). **Effects on Small Entities:** Yes **Additional Information:** A new rulemaking has been initiated, and is located in the "Current and Projected Rulemaking" portion of the Agenda, in the "Other Rulemakings" section. **Agency Contact:** Richard Tedrick, (202) 755-9027	*Review Completed.*

	FEDERAL MOTOR CARRIER SAFETY REGULATIONS			
Minimum Cab Space Dimensions (Docket No. MC-79).	**Abstract:** This regulation would specify minimum sizes for the cab portion of the regulated commercial vehicles manufactured after a certain date. The rulemaking is significant because it has the potential of being costly if extensive changes to cab configuration become necessary. It is necessary because changes in truck technology and maximum limitation on size by States have led to the development of reduced cab space in favor of increased cargo space to remain within State length limitations. The impact on safe operations and driver workplace may be negatively affected. **CFR Citation:** 49 CFR pt. 393 **Legal Authority:** 49 U.S.C. 304 and †655 **Effects on Small Entities:** No **Analysis:** Regulatory Impact Analysis **Additional Information:** An ANPRM was issued on February 14, 1978 (43 FR 6273). 	PLANNING			
Review: Urban Transportation Planning.	**Abstract:** These regulations govern urban transportation planning under FHWA and UMTA grant programs. The changes are intended to (1) increase flexibility at the State and local level, (2) reduce red tape and simplify the planning process especially for areas under 200,000 population, and (3) shift certain responsibilities from the Federal to the State and local level while maintaining an appropriate Federal oversight role. The rulemaking is significant because it involves important departmental policy. It is needed to reduce burdens associated with the urban transportation planning process. **CFR Citation:** 23 CFR pt. 450; 49 CFR pt. 613 **Legal Authority:** 23 U.S.C. 134 **Effects on Small Entities:** No **Analysis:** Regulatory Evaluation **Additional Information:** Notice and request for comments on comprehensive review of urban transportation planning process published on December 17, 1981 (46 FR 61531). 	CFR Citation: 23 CFR 635.410 **Legal Authority:** Section 165 of the STAA of 1982; P.L. 97-424 **Effects on Small Entities:** To be determined **Analysis:** Regulatory Flexibility Analysis/Regulatory Evaluation **Additional Information:** Section 165 of the STAA of 1982 amended the previous Buy America Statute of 1978. The new regulation issued on January 17, 1983, implemented the STAA of 1982 as it related to cement and steel products. The emergency final rule expires on September 30, 1983. The public was advised of the interim nature of the rule and a forthcoming rule which would be based in part on comments received on the emergency final rule. The FHWA considers this regulation significant because of the potential controversial nature of the regulation. The FHWA also considers the regulation to be non-major because of the potential economic impact (less than $100 million annually) and the fact that the Federal-aid highway program uses less than one half of one percent of the total U.S. consumption of steel. **Agency Contact:** P. 	RIGHT-OF-WAY AND ENVIRONMENT			
Review: Outdoor Advertising Control and Acquisition.	**Abstract:** This regulation would provide a definition of "effective control" of outdoor advertising as required by 23 U.S.C. 131. It would also set further requirements for signs exempt from control under the statute and establish the basic framework for State development of police power regulations and procedures. The regulation would also outline the requirements for Federal participation in the acquisition of compensable nonconforming outdoor advertising devices. This proposal is significant because it may involve substantial public interest, is controversial and involves important departmental policy. This regulation is necessary for the maintenance of national uniformity in the outdoor advertising control program. Since 23 U.S.C. 131 is regulatory in nature, it is necessary to establish and maintain minimum Federal program requirements. **CFR Citation:** 23 CFR pt. 750, subpt. C. (FHPM 7-6-2) **Legal Authority:** 23 U.S.C. 131, 148, and 315; 49 CFR 1.48 **Effects on Small Entities:** No **Analysis:** Regulatory Evaluation **Additional Information:** The proposal involves the consolidation of two existing regulations, 23 CFR pt. 750, subpts. D and G, and one interim regulation 23 CFR pt. 750, subpt E. The regulations have been in effect since September 16, 1975 and July 29, 1974, respectively. The interim regulations have been in effect since October 16, 1976. The proposed consolidation will be issued as an NPRM. An ANPRM, published April 30, 1979, (44 FR 25387) and a Notice, published, May 17, 1979, (44 FR 28946) announced public hearings as part of an overall review of the Highway Beautification Program. These currently proposed regulations may be modified as a result of this review. A Notice published June 15, 1979 (44 FR 34516) announced a hearing site change and a change in hearing procedures. On June 25, 1979 (44 FR 37100), a Notice announced amendments to the Highway Beautification Act by the Surface Transportation Assistance Act of 1978. A Notice published on July 12, 1979 (44 FR 40781) announced the establishment of a National Advisory Committee on Outdoor Advertising and Motorist Information. On July 23, 1979 (44 FR 43236), a Notice announced the availability of a report on Directional and Informational Sign Standards and Systems. This report is to be considered as part of the reassessment of the Highway Beautification Program. *The National Advisory Committee has completed its report. Further action will be determined after the recommendations of the report are fully considered.* **Agency Contact:** Myron Laible, (202) 245-0021	*Further action to be determined.*

Review: Environmental Impact and Related Procedures.	**Abstract:** This regulation covers the preparation of environmental impact statements and related documents and compliance with other Federal environmental requirements under FHWA and UMTA grant programs. The changes are intended to streamline the project development process and provide increased decisionmaking authority to agency field offices. The amendments are significant because they involve important departmental policy. They are needed to reduce burdens associated with the environmental review process. **CFR Citation:** 23 CFR pt. 771, 49 CFR pt. 622 **Legal Authority:** 42 U.S.C. 4321 et seq., 23 U.S.C. 101 et seq., 49 U.S.C. 1601 et seq., 49 U.S.C. 1653(f). **Effects on Small Entities:** No **Analysis:** Regulatory Evaluation **Additional Information:** Notice and request for comments on priority review of environmental process published on April 13, 1981 (46 FR 21620). **Agency Contact:** FHWA: R. 	FEDERAL MOTOR CARRIER SAFETY REGULATIONS			
Employee Safety and Health Standards (Docket No. MC-64).	**Abstract:** This regulation would provide safety and health standards to govern employees engaged in the operation, maintenance, and loading and unloading of motor vehicles, designed to eliminate uncertainty with regard to the jurisdictional authority of the Occupational Safety and Health Administration (OSHA). This proposal is significant because it may have a significant impact on OSHA. These standards are needed because they are designed to eliminate uncertainty with regard to the jurisdictional authority of the OSHA and to improve safety and health standards for employees of motor carriers. **CFR Citation:** 49 CFR pt. 399 **Legal Authority:** 49 U.S.C. 304 and 1653 **Effects on Small Entities:** No **Analysis:** Regulatory Evaluation **Additional Information:** An NPRM was issued March 2, 1978 (43 FR 8566) and the closing date for the comment period was May 31, 1978. A notice on June 9, 1978 (43 FR 25145) extended the comment period to June 30, 1978. As a result of the analysis of the comments, another NPRM is being considered. No further action is anticipated within the next 12 months. **Agency Contact:** Neill Thomas, (202) 426-9767	NPRM Further action to be determined.	3/2/78	43 FR 8566
* Minimum Levels of Financial Responsibility for Motor Carriers of Property.	**Abstract:** Section 406(a) of the Surface Transportation Assistance Act of 1982 amended Section 36 of the Motor Carrier Act of 1980 by allowing the Secretary to extend the "phase-in-period" for the reduced minimum levels of financial responsibility from 2 years to 3½ years. This rulemaking action would propose to extend the effective date for reduced liability limits from July 1, 1983 to January 1, 1985, as specifically provided for by Section 406(a). This rulemaking is significant because the rulemaking action which initially set the reduced levels was considered significant. **CFR Citation:** 49 CFR pt. 387 **Legal Authority:** Section 406(a) of STAA of 1982 **Effects on Small Entities:** No **Analysis:** Regulatory Evaluation **Additional Information:** None **Agency Contact:** Neill Thomas, (202) 426-9767	NPRM *FR*	4/83 *6/83*

	CIVIL RIGHTS			
Review: Civil Rights Requirements.	**Abstract:** These regulations contain the policies, procedures and guides for implementing equal employment opportunity requirements under the Federal and Federal-aid highway programs. The changes are intended to eliminate unnecessary requirements, streamline procedures and reduce recordkeeping and reporting requirements. **CFR Citation:** 23 CFR pt. 230; FHPM 6-4-1-2, 2-2-2, and 2-2-3 **Legal Authority:** 23 U.S.C. 140 and 315; EO 11246 **Effects on Small Entities:** No **Analysis:** Regulatory Evaluation (Minimal Impact) **Additional Information:** Notice and request for comments on priority review published on 4/13/81 (46 FR 21620). **Agency Contact:** Edward W. 	PAVEMENT PROCEDURES			
*Review: Bond Issue Projects.	**Abstract:** This revision to procedures for the use of Federal funds in aiding in the retirement of the principal of bonds pursuant to 23 U.S.C. § 122 will reflect statutory changes mandated by section 113 of the STAA of 1982. **CFR Citation:** 23 CFR Part 140, Subpart F **Legal Authority:** 23 U.S.C. 122, 315; Section 113 of the STAA of 1982. **Effects on Small Entities:** No **Analysis:** Regulatory Evaluation (minimal impact) **Additional Information:** None **Agency Contact:** Harvey Wood, (202) 426-0562	FR	4/83	
*Audit Costs	**Abstract:** Section 159 of the STAA of 1982 expanded the definition of the term "construction" in section 101(a), title 23, United States Code, to include costs incurred by the States in performing Federal-aid project related audits which directly benefit the Federal-aid highway program. 23 CFR Part 140 will be revised to reflect the statutory amendment. **CFR Citation:** 23 CFR Part 140 **Legal Authority:** Section 159 of the STAA of 1982 **Effects on Small Entities:** No **Analysis:** Regulatory Evaluation (minimal impact) **Additional Information:** None **Agency Contact:** Harvey Wood, (202) 426-0562	FR	4/83	
*Transfer of Federal-Aid Highway Funds.	**Abstract:** This regulation revision will reflect the required statutory changes included in section 116 of the STAA of 1982 regarding the transfer of Interstate construction funds. **CFR Citation:** 23 CFR Part 160, Subparts A, B, and C **Legal Authority:** Section 116 of the STAA of 1982 **Effects on Small Entities:** No **Analysis:** Regulatory Evaluation (minimal impact) **Additional Information:** None **Agency Contact:** Carla Child, (202) 426-0674	FR	5/83	
	PLANNING			
Review: Highway Planning Program Administration (Docket No. 78-24).	**Abstract:** This revision to an existing regulation would reflect policy changes in management of the highway planning and research program, e.g., allowing separate projects for components of the program (urbanized area planning, statewide planning, research and development), and applying matching rates to time periods rather than a fiscal year fund, etc. NPRM was published January 11, 1979 (44 FR 2400). As a result of comments received to the Docket, as well as internal coordination, FHWA is considering combining this regulation with 23 CFR Part 450, Subpart B, Metropolitan Planning Funds, since both deal with program administration. *A draft regulation combining parts 420 and 450 has been prepared. Further revision is now necessary because of the STAA of 1982.* **CFR Citation:** 23 CFR pt. 420, Subpart A and pt. 450, Subpart B, FHPM 4-1-2-1. **Legal Authority:** 23 U.S.C. 104, 307, 315; *STAA of 1982*	NPRM Further action to be determined.	1/11/79	44 FR 2400

Review: Design Standards for Highways (Docket No. 80-2).	**Abstract:** This regulation would amend the existing geometric design standards for highways for the new construction and major reconstruction of Federal-aid highways by replacing several publications incorporated by reference in 23 CFR Part 625 with a single new publication. Public comments were requested on the geometric design criteria as presented in a draft of the new publication, "A Policy on Geometric Design of Highways and Streets" prepared by the American Association of State Highway and Transportation Officials (AASHTO). Comments received as a result of NPRM published February 14, 1980 (45 FR 10236) have been evaluated and recommended changes submitted to AASHTO for consideration. Notice regarding status of proposed rule published November 17, 1980 (45 FR 75690); it indicated further rulemaking action is not anticipated before *Summer 1983*. Based on the current AASHTO development schedule, submission of a final document to FHWA is not anticipated until late 1983 or early 1984. **CFR Citation:** 23 CFR pt. 625, FHPM 6-2-1-1 **Legal Authority:** 23 U.S.C. 109, 315, and 402 **Effects on Small Entities:** No **Analysis:** *Regulatory Evaluation (Minimal Impact)* **Additional Information:** *None* **Agency Contact:** Wilson B. Review: Traffic Surveillance and Control (Docket No. 82-9).	**Abstract:** This regulation prescribes procedures and requirements for the expenditure of Federal-aid highway funds for traffic surveillance and control measures. The proposed revisions would significantly reduce the existing regulation in length and detail with certain unnecessary requirements deleted. **CFR Citation:** 23 CFR pt. 655; FHPM 6-8-3-4 **Legal Authority:** 23 U.S.C. 101(a), 315 **Effects on Small Entities:** No **Analysis:** *Regulatory Evaluation (Minimal Impact)* **Additional Information:** *None* **Agency Contact:** Robert Harp, (202) 426-0411	NPRM FR	6/14/82 *1983*	47 FR 25541
*Review: Highway Construction Work to be Performed by Methods Other Than Contract Awarded by Competitive Bidding.	**Abstract:** This regulation was originally selected for review because of FHWA policy on minimization of red tape. The revisions to 23 U.S.C. 112 by section 112 of the STAA of 1982 will be incorporated into the revised regulations. These revisions change the exception to the general requirements of competitive bidding (23 U.S.C. 112) from a finding by the Secretary that some other method is in the public interest to a demonstration by the State highway department to the satisfaction of the Secretary that some other method is more cost effective. It also changes the competitive bidding requirements for Federal-aid secondary projects advanced under Certification Acceptance. These changes will be incorporated in the revision to 23 CFR 635. •Buy America (23 CFR 635, 410).	ENGINEERING AND TRAFFIC OPERATIONS **Abstract:** This regulation implements the requirements of the Surface Transportation Assistance Act of 1978 that requires that preference be given to items produced in the United States in FHWA funded projects. The regulation has been the subject of considerable criticism and controversy. The controversy centers on the extent that the domestic steel industry deserves the protection afforded it under the statute, whether sufficient domestic supplies exist and the increased costs resulting from using more expensive domestic products. *Review mooted by enactment of PL 97-424, Section 165. Review: Hours of Service of Drivers' Drivers' Logs.	**Abstract:** *The FHWA has amended the Federal Motor Carrier Safety Regulations to reduce the burden for drivers and motor carriers by revising the requirements for recording a driver's duty status, reducing the record retention period for both the motor carrier and the driver, and relaxing the 100-mile radius driver exemption by increasing the consecutive hours worked criterion from 12 to 15 hours. The effective date was January 1, 1983.*. **CFR Citation:** 49 CFR pt. 395 **Legal Authority:** 49 U.S.C. 304 **Effects on Small Entities:** Yes **Analysis:** Regulatory Impact Analysis/Regulatory Flexibility Analysis. **Additional Information:** *None* **Agency Contact:** Neill Thomas, (202) 426-9767	NPRM FR	2/22/82 *11/26/82*	47 FR 7702 *47 FR 53383*
*Geometric Design Criteria for Resurfacing, Restoration, and Rehabilitation (RRR) of Streets and Highways Other Than Freeways (Docket No. 80–3).	**Abstract:** This final rule amends the Resurfacing, Restoration, and Rehabilitation (RRR) regulation to implement provisions required by section 110(a) of the Surface Transportation Assistance Act of 1982. Section 110(a) amends section 109 of title 23, United States Code, adding new subsection (o), to require Federal-aid nonfreeway RRR projects to be constructed to preserve and extend the service life of highways and enhance highway safety. This rulemaking is significant because it concerns a matter in which there is substantial public interest.. **CFR Citation:** 23 CFR Part 625 **Legal Authority:** Section 110(a) of the STAA of 1982, 23 U.S.C. 109(o), 315. **Effects on Small Entities:** No **Analysis:** Regulatory Evaluation (prepared for June 1982 final rule). **Additional Information:** A final rule was published on June 10, 1982 (47 FR 25270), containing policy and procedures intended to provide additional flexibility in the basic geometric features of design of nonfreeway RRR projects and involving primarily those in which modifications could result in appreciable savings in cost and other impacts while improving safety. This amendment will not change the procedures followed or the conclusions reached in the regulatory analysis and other documentation prepared during promulgation of the final rule on June 10, 1982. **Agency Contact:** David K. 	INFORMATION NOTICE The National Highway Traffic Safety Administration (NHTSA) has ordered the items that appear in the Agenda as follows. Proposals and regulations in this Agenda are subdivided into three subject areas. Within each of the subject areas, the entries are listed, where possible, in order of CFR section being amended or established. Entries for which a CFR section has not been identified are listed at the end of each subject area in the order in which they have been added to the Agenda. The first subject area is "Federal Motor Vehicle Safety Standards." The largest number of entries are in this area. These entries are listed by order of the safety standard being amended or established, since those numbers correspond to CFR section numbers. The second subject area is "Fuel Economy Standards and Exemptions." The third subject area is "Regulations Other Than Safety Standards and Fuel Economy Standards/Exemptions".			
	FEDERAL MOTOR VEHICLE SAFETY STANDARDS			
†Heavy Duty Vehicle Brake Systems (Formerly Truck and Trailer Brake Systems) (Docket No. 79-03).	**Abstract:** Would establish a new brake standard for all trucks, buses and trailers with a Gross Vehicle Weight Rating (GVWR) over 10,000 pounds. This standard would replace Standard No. 121, Air Brake Systems, and that portion of Standard No. 105, Hydraulic Brake Systems, that applies to vehicles with a GVWR over 10,000 pounds. It would also establish new requirements for heavy trailers having other than air-actuated brakes. In developing the standard, the agency will consider compatibility with international regulations. Research programs in support of this new standard and possible future upgradings of the standard will investigate such long-term advanced braking system concepts as automatic brake adjustors, load-sensing proportioning valves, air driers, and retarders for heavy trucks, buses and trailers. This rule is considered significant because of the level of public and Congressional interest. It is necessary to prevent and reduce the severity of accidents involving heavy vehicles by providing increased accident avoidance capability. **CFR Citation:** 49 CFR 571.121, 49 CFR 571.105 **Legal Authority:** 15 U.S.C. 1392, 1407, National Traffic and Motor Vehicle Safety Act of 1966, as amended. **Effects on Small Entities:** Yes **Analysis:** Regulatory Impact Analysis/Regulatory Flexibility Analysis. **Additional Information:** Two ANPRM's have been issued related to this rulemaking. The first was published February 15, 1979 (44 FR 9783; Notice 1). The second was published February 28, 1980 (45 FR 13155); Notice 3 . **Agency Contact:** R. 	FUEL ECONOMY STANDARDS			
*Post-MY-1985 Light Truck Fuel Economy Standards.	**Abstract:** In accordance with the mandatory requirements of section 502(b) of the Motor Vehicle Information and Cost Savings Act, would establish light truck average fuel economy standards for model years 1986 and 1987. **CFR Citation:** 49 CFR 533 **Legal Authority:** 15 U.S. 2002 **Effects on Small Entities:** No **Analysis:** Regulatory Impact Analysis **Additional Information:** None **Agency Contact:** William Boehly, (202) 426-1740	NPRM	1983

†Crashworthiness Ratings (Docket No. 79-17).	**Abstract:** Ratings: Would require manufacturers to disseminate crashworthiness performance information concerning their cars to the public, to provide consumers with comparative information on the crashworthiness performance of new car models. This rulemaking is considered significant because of the impact on manufacturers, the interest shown by consumers, and the potential significant effects on the automotive marketplace. **CFR Citation:** 49 CFR Ch.5 **Legal Authority:** National Traffic and Motor Vehicle Safety Act of 1966, as amended, and Motor Vehicle Information and Cost Savings Act, as amended, (15 U.S.C. 1401, Section 112(d); 15 U.S.C. 1941, Section 201(d)). **Effects on Small Entities:** Yes **Analysis:** Regulatory Impact Analysis/Regulatory Flexibility Analysis. **Additional Information:** NPRM published January 22, 1981 (46 FR 7025; Notice 1). Hydraulic Brake Systems	**Abstract:** Would change the parking brake gradient requirement for school buses with a GVWR of 10,000 pounds or less from 30 percent to 20 percent, while maintaining the recently adopted more stringent effort limits. This change would make the parking brake requirements for school buses with a GVWR of 10,000 pounds or less the same as for other buses, trucks and multipurpose passenger vehicles within that weight class. **CFR Citation:** 49 CFR 571.105 **Legal Authority:** 15 U.S.C. 1392, 1407 **Effects on Small Entities:** *Yes* **Analysis:** *Regulatory Evaluation/Regulatory Flexibility Analysis* **Additional Information:** *NPRM, Notice 13 FR, Notice 2* **Agency Contact:** R. Head Restraints	**Abstract:** This regulation which was promulgated in 1969, is designed to reduce the frequency and severity of neck injuries in passenger car accidents. It is estimated that the rule requires a recurring investment of $130 million (an additional cost of $19 per vehicle). **CFR Citation:** 49 CFR 571.202 **Legal Authority:** 15 USC 1392, 1407 **Effects on Small Entities:** No **Agency Contact:** Frank Ephraim, (202) 426-1574	Evaluation report published. Side Door Strength	**Abstract:** This regulation provides minimum standards for side door crash resistance for passenger cars under static test conditions. NHTSA estimates that the standard saves 2,800 lives and averts 7,000 injuries a year. A recurring cost of $300 million (an additional cost of $38 per vehicle) is associated with the requirement. An initial review of this regulation, originally promulgated in 1974, was completed in 1979. **CFR Citation:** 49 CFR 571.214 **Legal Authority:** 15 USC 1392, 1407 **Effects on Small Entities:** No **Agency Contact:** Frank Ephraim, (202) 426-1574	*Evaluation report published. Lamps, Reflective Devices, and Associated Equipment.	**Abstract:** This standard, which is applicable to both motor vehicles and equipment, specifies requirements for original and replacement lamps, reflective devices, and associated equipment necessary for signaling and for the safe operation of motor vehicles during darkness and other conditions of reduced visibility. The standard is being reviewed because of its relatively high costs and to refine previous agency estimates of its effectiveness. At the present time, the review is limited to the standards requirements for side marker lamps. An evaluation report will be prepared and made available for public comment before completion of the review. At that time, the agency will consider whether changes should be made in the standard's requirements. A review has determined that this rule has minimal effects on small entities, and therefore a Regulatory Flexibility Analysis (RFA) is not required. The rule will still be reviewed as a priority review item . **CFR Citation:** 49 CFR 571.108 **Legal Authority:** 15 U.S.C. 1392, 1407 **Effects on Small Entities:** No **Agency Contact:** Frank Ephraim, (202) 426-1574	Completion of Review.	1983	
Fuel System Integrity	**Abstract:** This standard, which is applicable to passenger cars, school buses, and light trucks, specifies requirements for the integrity of motor vehicle fuel systems. The purpose of the standard is to reduce deaths and injuries occurring from fires that result from fuel spillage during and after motor vehicle crashes. The standard is being reviewed to refine previous agency estimates of its effectiveness. An evaluation report will be prepared and made available for public comment before completion of the review. At that time, the agency will consider whether changes should be made in the standard's requirements. A review has determined that this rule has minimal effects on small entities, and therefore a Regulatory Flexibility Analysis (RFA) is not required. The rule will still be reviewed as a priority review item . **CFR Citation:** 49 CFR 571.301 **Legal Authority:** 15 U.S.C. 1392, 1407 **Effects on Small Entities:** No **Agency Contact:** Frank Ephraim, (202) 426-1574	*Evaluation report published. Hydraulic Brake Systems	**Abstract:** This standard, which currently applies to passenger cars and school buses, specifies requirements for hydraulic service brake and associated parking brake systems. (The standard will become applicable, in modified form, to hydraulic braked trucks, all types of buses, and multipurpose passenger vehicles, in 1983. A priority review of this extension of the standard has already been completed). The purpose of the standard is to insure safe braking performance under normal and emergency conditions. The standard is being reviewed because of its relatively high costs, and the controversial nature of some of its requirements, as well as to refine previous agency estimates of its effectiveness. An evaluation report will be prepared and made available for public comment before completion of the review. At that time, the agency will consider whether changes should be made in the standard's requirements. It should also be noted that the agency is actively involved with the Economic Commission for Europe (ECE) in international harmonization efforts in this area. A review has determined that this rule has minimal effects on small entities, and therefore a Regulatory Flexibility Analysis (RFA) is not required. The rule will still be reviewed as a priority review item . **CFR Citation:** 49 CFR 571.105 **Legal Authority:** 15 U.S.C. 1392, 1407 **Effects on Small Entities:** No **Agency Contact:** Frank Ephraim, (202) 426-1574	*Evaluation report published. Occupant Crash Protection (Docket No. 74-14).	**Abstract:** Rescinds the automatic restraint requirements of Standard No. 208. 	Additional Information: NPRM published April 9, 1981 (46 FR 21205; Notice 22). Comment period closed May 26, 1981. Public meetings held August 5 and 6, 1981. FR published October 29, 1981 (46 FR 53419; Notice 25). This action is under court review. An opinion by the U.S. Court of Appeals (D.C. Cir.), dated June 1, 1982) reversed NHTSA's rescission. The agency was directed to submit a schedule for resolving issues raised in the court's opinion. NHTSA filed its response on July 1, 1982. On August 4, 1982, the court issued an order which established an effective date of September 1, 1983, for the standard. The agency was given until October 1, 1982, to advise the court whether such a compliance date is achievable. *On October 1, 1982, the agency filed with the court a memorandum indicating that the September 1983 effective date was not achievable by the manufacturers. The Motor Vehicle Manufacturers Association of the United States, Pacific Legal Foundation, and Consumer Alert filed petitions for certiorari on August 30, 1982. The Solicitor General on behalf of the Department of Transportation filed a petition for certiorari on September 8, 1982. The Supreme Court granted certiorari on November 8, 1982. On November 18, 1982, the Court of Appeals recalled its mandate, which apparently had the effect on staying its August 4 order establishing the September 1983 effective date. The court's mandate was withdrawn because the Supreme Court agreed to hear the case.*

Bumper Standard (Docket No. 73-19).	**Abstract:** NHTSA has performed an evaluation of the bumper standard in terms of costs and benefits. In 1979 NHTSA issued a report that concluded that the 5 mph standard was justified. Based on the new evaluation of the bumper standard published in April 1981, the Preliminary Regulatory Impact Analysis dated July 1981, and the Final Regulatory Impact Analysis dated May 1982, NHSTA amended the bumper standard to reduce the impact speed requirements while retaining the bumper height requirements. This rulemaking is considered significant because of the level of interest shown by Congress and bumper manufacturers, and because of the cost impact to consumers. It *was* necessary to reassess various regulatory options to achieve the most cost-effective requirements.	NPRM FR Under court review.	10/1/81 5/20/82	46 FR 48262 47 FR 21820

Uniform Tire Quality Grading (Docket No. 25).	**Abstract:** Would suspend the treadwear test portion of the Uniform Tire Quality Grading Standards until tests can be conducted to determine the causes of, and possible solutions for, variation in treadwear grades which does not reflect true variation in tire performance. This rule is considered significant because of the level of public interest. It is needed to avoid dissemination of potentially misleading tire grading information to consumers and to minimize the imposition of unwarranted compliance costs on industry and consumers. **CFR Citation:** 49 CFR 575.104 **Legal Authority:** Section 203 of the National Traffic and Motor Vehicle Safety Act, (15 U.S.C. 1423). **Effects on Small Entities:** No **Analysis:** Regulatory Evaluation **Additional Information:** *None* **Agency Contact:** *William Boehly,* (202) 426-1740	NPRM Public Hearing FR	7/12/82 8/12/82 *2/7/83*	47 FR 30084 *48 FR 5690*

†"Buy America" Requirements of Surface Transportation Assistance Act of 1978.	**Abstract:** This rulemaking proposes amendments to the existing Buy America Requirements. The amendments would permit subcomponents manufactured in the United States that receive Customs Bureau tariff exemptions to retain their domestic identity for purposes of determination of origin under the Buy America Requirements. A definition of "final assembly" is also proposed. This rulemaking is significant because there is substantial public interest concerning these regulations because of their impact in urban mass transportation projects. 	Additional Information: The NPRM was published on January 19, 1981 (46 F.R. 6815). Comments on alternative approaches were invited until April 20, 1981. UMTA extended the comment period until May 20, 1981 (46 FR 23501). *UMTA has reviewed this NPRM and determined not to proceed with this rulemaking. While this regulation is still effective and does apply to all UMTA funds obligated before Jan. 6, 1983, the Surface Transportation Assistance Act of 1983 (Pub. L. 97-424) imposes new and different Buy America requirements on UMTA recipients. Thus, UMTA has stopped all rulemaking activities on this regulation and will issue a new Buy America regulation for the new requirements in the 1982 STAA in April, 1983. Urban Transportation Planning.	**Abstract:** These regulations govern urban transportation planning under FHWA and UMTA grant programs. The changes are intended to (1) increase flexibility at the State and local level, (2) reduce red tape and simplify the planning process, especially for areas under 200,000 population, and (3) shift certain responsibilities from the Federal to the State and local level while maintaining an appropriate Federal oversignt role. This rulemaking is significant because it involves important departmental policy. It is needed to reduce burdens associated with the urban transportation planning process. **CFR Citation:** 23 CFR pt. 450; 49 CFR pt. 613 **Legal Authority:** 23 U.S.C. 104(f)(3), 134, and 315; Sections 3, 4(a) and 5 of the Urban Mass Transportation Act of 1964, as amended (49 U.S.C. 1602, 1603(a) and 1604); and 49 CFR 1.48(b) and 1.51(f). **Effects on Small Entities:** No **Analysis:** Regulatory Evaluation **Additional Information:** Notice and request for comments on comprehensive review of urban transportation planning process published on December 17, 1981 (46 FR 61531). 	Additional Information: *UMTA originally published these regulations on April 1, 1976 (41 FR 14123). UMTA published an ANPRM on January 19, 1981, that proposed extensive changes to the regulations. (46 FR 5394). The comment period closed on March 5, 1981. UMTA reviewed the comments received and recognized that there were many fundamental issues that needed further exploration. Consequently, UMTA decided to issue a new ANPRM rather than to continue to develop the previously issued ANPRM into an NPRM. The new ANPRM was published on Oct. 12, 1982, and proposed four alternatives: (1) retain the existing regulation; (2) make the incidental use presumptions irrebuttable; (3) require rate comparability; and (4) establish passenger mile ceilings for charter bus operations. Uniform System of Accounts and Records and Reporting System.	**Abstract:** The purpose of this regulation is to implement Section 15 of the Urban Mass Transportation Act of 1964, as amended (49 U.S.C. 1611). This provision requires UMTA to develop, test, and prescribe: 1) a reporting system to accumulate financial and operating information about public mass transportation by uniform categories; and 2) a uniform system of accounts and records. UMTA published the existing regulation on January 19, 1977 (42 FR 3772). †•Charter Bus Regulations	**Abstract:** These regulations provide more detailed information regarding the restrictions placed on charter bus operators under Section 3(f) of the Urban Mass Transportation Act (49 U.S.C. 1602). These regulations have been the subject of some controversy. In the past, UMTA received a considerable number of comments from the public on an advance notice of proposed rulemaking concerning these regulations. Because of the controversy and the impact of these regulations upon small business, their review is needed. **CFR Citation:** 49 CFR Part 604 **Legal Authority:** 49 U.S.C. 1602(f) and 1608(c)(6); 23 U.S.C. 103(e)(4),and 142(a) and (c). **Effects on Small Entities:** Yes **Agency Contact:** Douglas G. †Buy America Regulations	**Abstract:** *UMTA has completed its review of prior regulation which* implements the requirements of the Surface Transportation Assistance Act of 1978 that require that preference be given to items produced in the United States in UMTA funded projects. The regulation has been subject to considerable controversy centering on the extent that domestic industry should be protected and the increased costs resulting from using more expensive domestic products. *Since the Surface Transportation Assistance Act of 1982 (Pub. L. 97-424) imposes new and different Buy America requirements on UMTA recipients, UMTA has determined that no further review or revision of this regulation is needed. Instead, UMTA will issue an emergency rule for the new Buy America requirements on in April 1983. †School Bus Operations	**Abstract:** UMTA is reviewing this regulation as part of its overall effort to examine and evaluate the role of private enterprise in the UMTA program. The regulation is needed to provide guidelines under which recipients of UMTA funds can conduct school bus operations. This requirement is to implement Section 3(g) of the Urban Mass Transportation Act of 1964, as amended. **CFR Citation:** 49 CFR pt. 605 **Legal Authority:** 49 USC 1602 and 1608(c)(6); 23 USC 103(e)(4) and 142(a) and (c). **Effects on Small Entities:** Yes **Agency Contact:** Douglas G. Operational Regulations	**Abstract:** Periodic update of 33 CFR Part 401 operational regulations developed, for the most part, jointly with the Seaway Authority of Canada. No alternatives can be considered. Cost will be borne primarily by foreign vessels, since these regulations relate to commercial users of the Seaway. The economic benefits to be derived from a safe and efficiently operated Saint Lawrence Seaway are considerable. **CFR Citation:** 33 CFR pt. 401 **Legal Authority:** 33 USC 981-990; 68 Stat. 93-96; Pub. Tank Car Safety Improvements: Specifications and Retrofit (Docket No. HM-175).	**Abstract:** This project would extend the puncture and thermal protection systems now required for DOT 112 and 114 tank cars to existing DOT 105 tank cars and to other newly constructed tank cars. (New construction of DOT 105 tank cars is addressed in Docket No. HM-174, Safety Improvement Program for DOT 105 Tank Cars). The rulemaking is significant because there is substantial public interest in tank car safety and in retrofit issues. It is needed to determine the extent to which current thermal and puncture standards should be applied to the existing DOT 105 tank car fleet, and to other similarly used tank cars. **CFR Citation:** 49 CFR Part 173 **Legal Authority:** 49 U.S.C. 1803, 1804, 1806 **Effects on Small Entities:** No **Analysis:** Regulatory Evaluation **Additional Information:** ANPRM published July 21, 1980 (45 FR 48668); public comment period closed October 16, 1980. **Agency Contact:** L. Review: Performance-Oriented Packaging Standards (Docket No. HM-181).	**Abstract:** To develop performance-oriented packaging standards for small packagings based on the Recommendation of the United Nations Committee of Experts on the Transport of Dangerous Goods. Also includes former nonsignificant rulemaking on listing and packaging requirements for organic peroxides. The rulemaking is significant because a large nubmer of specifications for packagings in the Hazardous Materials Regulations would be affected by this project. To a large extent the complexity and mass of the present Hazardous Materials Regulations are due to the detailed specification type packaging standards contained in these regulations. To replace these with standards based on the U.N. system would both simplify the present regulations and facilitate international trade. **CFR Citation:** 49 CFR Parts 172, 173, 178 **Legal Authority:** 49 U.S.C. 1803, 1804, 1808. **Effects on Small Entities:** No **Analysis:** Regulatory Evaluation **Additional Information:** ANPRM published April 15, 1982 (47 FR 16268). *Corrections document and notice of meeting published June 17, 1982 (47 FR 26172). Extension of the comment period to January 13, 1983 published September 1982 (47 FR 40816). Further action to be determined from evaluation of comments received on ANPRM.* **Agency Contact:** T. Hazardous Waste Manifest: Shipping Papers (Docket No. HM-148D).	**Abstract:** Would establish a uniform hazardous waste manifest for use by both interstate and intrastate carriers of hazardous waste. The rulemaking is significant because there is substantial carrier and shipper industry, and State and local government interest in and controversy concerning the implementation of a manifest system. It is needed to simplify the manifesting of hazardous waste so interstate and intrastate commerce is not adversely affected by a number of differing requirements imposed by State and local government. **CFR Citation:** 49 CFR Parts 171 and 172 **Legal Authority:** 49 U.S.C. 1803, 1804 and 1808 **Effects on Small Entities:** No **Analysis:** Regulatory Evaluation **Additional Information:** Regulation of the transportation of hazardous waste was established by Docket No. HM-145A (45 FR 74640, Nov. 10, 1980) NPRM on uniform hazardous waste manifest published Mar. 4, 1982 (47 FR 9346). Comment period extended to July 20, 1982 by joint rulemaking with EPA June 30, 1982 (47 FR 28428). **Agency Contact:** L. E. Metcalfe, (202) 426-2075	NPRM FR	3/4/82 *4/83*	47 FR 9346

Data Collection and Reporting: Hazardous Materials Incident Reports.	**Abstract:** The current regulations require reports of hazardous material incidents. The objective of this review is to determine if the current data requirements can be modified to reduce the burden on industry and for most result in the collection of the information needed for the hazardous materials safety program. Although safety programs, such as the one covered by these regulations, require data in order to function properly, it is possible that the data collection can be made less burdensome. **CFR Citation:** 49 CFR Part 171 **Legal Authority:** 49 USC 1803, 1804, 1809 **Effects on Small Entities:** No **Additional Information:** *Methodological inadequacies revealed by the initial results of the review necessitated extension of the completion date.* **Agency Contact:** R. Data Collection and Reporting: Hazardous Materials Incident Reports.	**Abstract:** The current regulations require reports of hazardous material incidents. The objective of this review is to determine if the current data requirements can be modified to reduce the burden on industry and for most result in the collection of the information needed for the hazardous materials safety program. Although safety programs, such as the one covered by these regulations, require data in order to function properly, it is possible that the data collection can be made less burdensome. **CFR Citation:** 49 CFR Part 171 **Legal Authority:** 49 U.S.C. 1803, 1804, 1809 **Effects on Small Entities:** No **Additional Information:** *Methodological inadequacies revealed by the initial results of the review necessitated extension of the completion date.* **Agency Contact:** R. Abis, (202) 426-2075	Completion of Review.	*6/83*	
Data Collection and Reporting: Gas Pipeline Reporting.	**Abstract:** The pipeline industry questions the usefulness to government and industry of the reports of leaks required by these regulations. While any safety enforcement program requires recordkeeping in order to operate, it is possible to be more specific, and therefore less burdensome, in identifyng problems for which reporting and recordkeeping are useful. Annual costs of the current regulation are more than $6 million. *Review found current reporting requirements should be modified to obtain information better suited to meet RSPA's needs to identify safety problems and develop regulatory solutions while reducing industry burden. NPRM to improve data quality and reduce paperwork burden listed under "Current and Projected Rulemakings: Other Rulemakings" in this Agenda.* **CFR Citation:** 49 CFR Part 191 **Legal Authority:** 49 U.S.C. 1671 et seq **Effects on Small Entities:** No **Agency Contact:** R. Langley, (202) 426-2392	*Review completed.*	*1/83*	
Repair and Removal of Defects.	**Abstract:** These rules, which specify what repairs are permitted on defective pipe welds, may be more restrictive than required for safety. Less stringent repair methods have been shown to be safe under most conditions. Changing the rules to allow some repairs of defective welds, rather than total removal, could save industry about $20 million per year. *Review found that present requirements are more restrictive and costly than needed to assure pipeline safety. NPRM to amend rules permitting weld repairs consistent with present technology listed under "Current and Projected Rulemakings: Other Rulemakings" in this Agenda.* **CFR Citation:** 49 CFR 192.245 and 195.232 **Legal Authority:** 49 U.S.C. 1672, 2002 **Effects on Small Entities:** No **Agency Contact:** W. This rulemaking is significant because it concerns a matter on which there is substantial public interest. Merchant Marine Training	**Abstract:** The Maritime Administration is responsible for operating the U.S. Merchant Marine Academy and for providing financial assistance to State Maritime academies and the U.S. Maritime Service, a voluntary Maritime training organization. This rulemaking is significant because it concerns a matter of substantial public interest. It is needed because the Maritime Education and Training Act of 1980 (P.L. 96-453) requires changes in regulations to reflect new requirements as conditions for financial aid for merchant marine training, as well as disposition of excess or surplus government property. **B. Award and Administration of Operating-Differential Subsidy (ODS) for Dry Bulk Cargo Vessels.	**Abstract:** Regulation states conditions for award of ODS for dry bulk cargo vessels engaged in worldwide trade. This rulemaking is significant because it reflects a change in policy on a matter of substantial public interest. It is needed because it would recognize unique economic aspects of dry bulk carriers and is intended to afford sufficient flexibility to allow them to compete in worldwide trade. **CFR Citation:** Consolidation with other ODS Regulations. 46 CFR Ch. Federal Income Tax Aspects of the Capital Construction Fund.	**Abstract:** Joint rulemaking with Treasury Department would finalize technical regulations governing the utilization of Capital Construction Fund (CCF) - comprised of deposits of the deferred income from shipping operations, related income, and CCF investment income. The rulemaking is significant because it involves a matter of substantial public interest and has major impact on another Federal Agency (Treasury Department). It is needed to implement a statutory provision. **CFR Citation:** 46 CFR Pt. 391 **Legal Authority:** 46 U.S.C. 1177, 1114(b) **Effects on Small Entities:** No **Analysis:** Regulatory evaluation **Additional Information:** NPRM published jointly with Treasury Department on June 15, 1972 (37 FR 11887). **Agency Contact:** Lawrence B. Legal Authority: 31 USC 6716 State and Local Fiscal Assistance Act of 1972; 29 USC 794 Rehabilitation Act of 1973

CFR Citation: 31 CFR 51

Abstract: The revenue sharing regulations implementing section 504 of the Rehabilitation Act of 1973, as amended, currently in interim form, may be revised and reissued during the next year. The HHS guidelines on which these regulations are patterned (45 CFR Part 85) are currently being revised by the Department of Justice (46 FR 40687). New guidelines are expected to be issued. The Office of Revenue Sharing will begin development of new regulations, based upon the Department of Justice guidelines, by issuance of regulations first in proposed and then in final form.

Semiannual Agenda

AGENCY: Bureau of Government Financial Operations, Treasury.

ACTION: Semiannual Agenda.

SUMMARY: This notice is given pursuant to the requirements of the Regulatory Flexibility Act (Pub. L. 96-354, September 19, 1980) and Executive Order 12291 (Federal Regulation, February 17, 1981), which require the publication of a semiannual agenda of regulations under development or review.

FOR FURTHER INFORMATION CONTACT: For additional information about a specific regulation contained in this agenda, contact the "agency contact" listed in the specific regulatory action.

SUPPLEMENTARY INFORMATION: The proposed regulations are not considered to be major regulations within the meaning of E.O. 12291 and will not have a significant impact on small entities within the meaning of the Regulatory Flexibility Act.

REGULATIONS GOVERNING THE UTILIZATION OF THE U.S. TREASURY FINANCIAL COMMUNICATIONS SYSTEM.

Priority: Undetermined

Legal Authority: 5 USC 301; 31 USC 3302; 31 USC 3342; 31 USC 321; 31 USC 331

CFR Citation: Not yet determined

Abstract: To further enhance the deposit and collection operations of the Government, increased use of the most efficient delivery system, the Treasury Financial Communications System (TFCS), must be accomplished. Some of the increase can be gained via voluntary actions by Federal agencies; however, mandatory use of TFCS for very large dollar deposits is considered a must to increase the efficiency of a significant number of large dollar deposits. This regulation is currently in the research stage.

REVISION OF TREASURY DEPARTMENT CIRCULAR (TDC) NO. 1075, REGULATIONS GOVERNING WITHDRAWAL OF CASH FROM THE TREASURY FOR ADVANCES UNDER FEDERAL GRANT AND OTHER PROGRAMS.

Legal Authority: 5 USC 301; 31 USC 6503; 42 USC 4213

CFR Citation: 31 CFR 205

Abstract: Revision of TDC No. 1075 will formally establish the Letter of Credit-Treasury Financial Communications System (LOC-TFCS). The two established letter of credit systems, the Letter of Credit-Federal Reserve Bank System and the Letter of Credit-Treasury Regional Disbursing Office System, do not provide the combination of Federal agency preaudit of payment requests and guaranteed payment time. The LOC-TFCS provides both of these features, thus enabling improved Federal control of advances made through letter of credit. In addition, other financing issues, such as developing more definitive guidelines for the immediate cash requirements of recipient organizations receiving advances of Federal funds, will be addressed at this time.

REGULATIONS GOVERNING PAYMENTS MADE BY ELECTRONIC FUNDS TRANSFER (EFT).

Legal Authority: 5 USC 301; 12 USC 391

CFR Citation: 31 CFR 210

Abstract: Because of the current work on the EFT Interagency Task Force, it is anticipated that in FY 1983 the above regulations governing the issuance of payments by EFT will be reviewed and possibly revised. Federal agencies involved in the Direct Deposit/EFT program report that some financial organizations have delayed the return of recurring benefits placed in the account of a deceased account holder after they have become aware of the death of a recipient. These same agencies have reported instances where the existing regulations have inhibited their ability to collect other funds after the death or legal incapacity of the recipient. Regulations may be amended to increase the Government's recovery rate and improve the responsiveness of financial organizations.

EXTENSION OF TREASURY RECLAMATION AUTHORITY.

Priority: Agency Determination

Legal Authority: 5 USC 301; 31 USC 3331; 31 USC 3343; 31 USC 3711

CFR Citation: 31 CFR 240

Abstract: The Treasury Department has the right to refunds from banks and other indorsers receiving payment on Treasury checks bearing forged or unauthorized indorsements. The United States has a common law right to offset amounts owed to it against amounts in its possession belonging to its debtors. Further, Treasury is authorized under the Federal Claims Collection Act of 1966, as amended, to issue regulations that authorize recovery of delinquent reclamations and accrued interest thereon by offsetting those amounts against amounts in the possession of the United States that are owed to banks. Treasury plans to offset the amount due, plus accrued interest, against other Federal agency payables due to financial institutions for reclamations at least 120 days old. This rule is intended to improve Treasury debt collection efforts.

Unified Agenda of Federal Regulations

AGENCY: Bureau of Alcohol, Tobacco and Firearms (ATF), Treasury.

ACTION: General Notice; Unified Agenda of Federal Regulations of regulatory projects under development, consideration, and review.

SUMMARY: Pursuant to section five of Executive Order 12291, entitled "Federal Regulation," ATF is publishing an agenda of proposed regulations that are expected to be issued and of proposed regulations that have been issued and an agenda of existing regulations that are being reviewed under the terms of the Executive Order, within the next six months. The latter agenda also lists regulatory projects identified for review pursuant to the ATF Regulatory Reform Program. Pursuant to section 610 of the Regulatory Flexibility Act (Pub. L. 96-354; 5 U.S.C. 610), ATF is also indicating whether a regulatory project is likely to have a significant economic impact upon a substantial number of small entities.

This general notice is designed to give the public adequate notice of the regulatory activities being contemplated by ATF.

The agenda is based on information available at the present time. The next Unified Agenda of Federal Regulations will be published in the **Federal Register** of Friday, October 14, 1983.

FOR FURTHER INFORMATION CONTACT:

For information about any particular regulatory project, contact the person listed in the subheading "Agency Contact," for that regulatory project.

REPORTING TAXES DUE TO THE GOVERNMENTS OF PUERTO RICO AND THE VIRGIN ISLANDS

Priority: Agency Determination

Legal Authority: 26 USC 5555; 26 USC 5207

CFR Citation: 27 CFR 19.377

Abstract: Changes the reporting requirements for most Puerto Rican and Virgin Islands spirits bottled at domestic distilled spirits plants. The reporting requirement will remain as a line item on the proprietor's monthly reports. However, the time for recording tax determination of insular spirits will change from the time these spirits enter the processing account to the time of tax determination.

Semiannual Agenda of Regulatory Actions

AGENCY: Office of the Comptroller of the Currency, Treasury.

ACTION: Semiannual Agenda of Regulations.

SUMMARY: As required by the Regulatory Flexibility Act and Executive Order 12291, the Office of the Comptroller of the Currency (Office) has prepared this semiannual agenda of its rules and regulations currently under review and scheduled for review. Also included is a list of regulatory actions taken since the publication of the Office's previous semiannual agenda on October 28, 1982 (47 FR 48691). It is expected that this semiannual agenda will enable the public to be more aware of, and allow it to more effectively participate in, the Office's regulatory activity.

ADDRESS: The mailing address for all contacts: Office of the Comptroller of the Currency, 490 L'Enfant Plaza East, S.W., Washington, DC 20219.

FOR FURTHER INFORMATION CONTACT: For general information about this semiannual agenda contact Nancy Lowther, Financial Analyst, Regulations Analysis Division, (202) 447-1177.

For additional information about a particular item on this semiannual agenda contact the individual identified as the contact person.

SUPPLEMENTARY INFORMATION: This agenda is organized as follows: SECTION A concerns current and projected rulemakings; SECTION B concerns reviews of existing regulations; SECTION C concerns recently completed regulatory actions. "PRIORITY" regulations, which are those regulations designated for priority development or review by the Comptroller or designated for review by the Presidential Task Force on Regulatory Relief, are identified as such and are listed first in each applicable section of this semiannual agenda. The Office has determined that none of the rulemakings discussed in this semiannual agenda requires a regulatory flexibility analysis; all entries either have been determined not to have a "significant impact on a substantial number of small entities," are interpretive rulings, or were the subject of a notice of proposed rulemaking prior to December 31, 1980. Such items are not subject to the provisions of the Act. Additionally, none of the rules is a "major" rule as defined by Executive Order 12291. Executive Order 12291 defines a "major" rule as one likely to result in:

(1) An annual effect on the economy of $100 million or more;

(2) A major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions; or

(3) Significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based enterprises to compete with foreign-based enterprises in domestic or export markets.

DATED: February 23, 1983.

Robert R. Bench,

Acting Comptroller of the Currency.

RULES, POLICIES, AND PROCEDURES FOR CORPORATE ACTIVITIES

Priority: Agency Determination

Legal Authority: 12 USC 1 et seq

CFR Citation: 12 CFR 5; 12 CFR 7.7376

Abstract: The Office is engaged in a comprehensive review of its rules, policies, and procedures governing corporate activities. Several revisions of the requirements of Part 5 have already been issued. Others being considered are operating subsidiaries, publication requirements, title changes and relocations of head offices. On January 14, 1983 (48 FR 1732) the Office proposed to simplify its approval process for banks seeking to establish or acquire operating subsidiaries, by replacing the requirement that a bank file a formal application with a notification procedure. The proposed revision benefits national banks and the Office by removing burdensome and costly regulatory requirements, while maintaining the Office's ability to render decisions on the permissibility of proposed activities. On January 26, 1983 (48 FR 3996) the Office also proposed to amend its policy statements and procedures concerning publication requirements for notice of filing an application and to make technical changes concerning the written comment period for customer-bank communication terminal branches, change in location of head office or branch, and relocation of a Federal branch or Federal agency of a (cont)

These proposals will shorten the time required for a bank to receive a decision on an application, facilitate more efficient corporate activities planning by national banks and enable them to compete more effectively. To incorporate provisions of the Garn-St Germain Depository Institutions Act of 1982, Pub. L. 97-320, the Office is amending its policy statements, procedures, and rulings concerning proposed corporate titles, changes of corporate titles, and relocations. The Act has eliminated the requirement that the Office approve the proposed title and any changes of an existing title of a national bank. A bank must still notify the Office of a change in title. The final rule will set forth the procedure by which an existing national bank can change its title. Technical changes are being made to Sec. 5.40 to install the requirements of the Act whereby a national bank may submit notice to change the location of the head office.

●BANK SERVICE CORPORATIONS

Priority: Undetermined

Legal Authority: 12 USC 1861 et seq

CFR Citation: 12 CFR 5, (New Subsection)

Abstract: The Bank Service Corporation Act was significantly amended by Section 709 of the Garn-St Germain Depository Institutions Act of 1982, Pub. L. 97-320. Under the amended Act, a national bank may now invest up to 10% of paid-in and unimpaired capital and surplus in a bank service corporation. Prior approval of the appropriate federal regulator is necessary for a national bank to invest in a bank service corporation under certain conditions. The Office will publish notice of proposed rulemaking to solicit comments on proposed policies and procedures for obtaining the required approval.

DEFINITION OF CAPITAL

Legal Authority: 12 USC 84

CFR Citation: 12 CFR 7.1100

Abstract: The amount of capital held by a bank affects the maximum it may lend to a single entity or group of related entities, the amount of investment securities of a single issuer it may hold, other investment limits, borrowings, and branching capabilities. The Office is reviewing its interpretive ruling defining the components of capital to make it more accurately reflect current banking practices. A notice of proposed rulemaking was issued on July 24, 1980 (45 FR 49276), on which almost 800 comment letters were received. After lengthy analysis, the Office issued a revised notice of proposed rulemaking on August 10, 1981 (46 FR 40520), that would redefine capital to include 100 percent of the reserve for loan losses. Mandatory convertible instruments would be included for the first time, and an amortization schedule would be applied to determine when limited life preferred stock and subordinated notes and debentures are to be included. In addition, a policy

statement setting out an analytical framework by which the Office would evaluate a bank's capital for purposes of capital adequacy was included. Comments received have been reviewed and drafting of a final rule is underway.

Legal Authority: 12 USC 1 et seq

CFR Citation: 12 CFR 9

Abstract: Comments in response to a prior rulemaking included recommendations that additional amendments should be made to 12 CFR Part 9. The Office believes that the issues raised by the commenters can best be addressed through a comprehensive review of its regulations concerning national bank fiduciary powers and collective investment funds. The Office requested comments from the public as to the desirability and feasibility of a comprehensive review of its trust regulations, including specific matters which should be addressed. SECURITIES EXCHANGE ACT DISCLOSURE RULES

Legal Authority: 15 USC 78

CFR Citation: 12 CFR 11

Abstract: On January 29, 1981, the Office published a notice of proposed rulemaking (46 FR 9618) suggesting a series of amendments to its securities disclosure regulations. The proposed amendments govern such matters as the form and content of financial statements of national banks, prescribed formats for financial statements and schedules, and requirements prohibiting the falsification of accounting records and misrepresentations by officers and directors of national banks. The Office is also reviewing the Exchange Act proxy disclosure rules. The Office seeks to minimize the regulatory burden of the Securities Exchange Act disclosure requirements and to make these rules more understandable. The Office is particularly interested in meeting these goals in order to facilitate the development of conforming regulations concerning Securities Exchange Act disclosure requirements. The Office, together with the other banking agencies, is coordinating with the SEC in these efforts.

REQUIRED NOTIFICATION TO NOMINATE BANK DIRECTORS

Legal Authority: 12 USC 1 et seq

CFR Citation: 12 CFR 17

Abstract: This regulation states that national banks may adopt bylaws or articles of association that require any shareholder proposing to nominate a director, other than a management nominee, to file certain information in advance with the Office and the bank. A proposal to rescind this regulation was published in the Federal Register on April 14, 1980 (45 FR 25078). Because of the comments received on that proposal, the Office is now considering retaining the regulation in revised form. Alternative approaches are being considered together with revisions of other rules affecting the corporate governance of

national banks with a view toward developing uniform federal standards.

ADJUSTABLE-RATE MORTGAGES (ARM'S)

Legal Authority: 12 USC 1 et seq; 12 USC 93a; 12 USC 371(g)

CFR Citation: 12 CFR 29

Abstract: This rulemaking proposes revisions to 12 CFR Part 29, published March 27, 1981 (46 FR 18932) and amended April 1, 1982 (47 FR 13775). The movement from standard fixed-rate mortgages to a variety of alternative mortgage instruments including ARM's occurred more rapidly than expected; mortage lenders other than national banks have received increased flexibility in mortgage products offered; and a secondary market in ARM's has developed. These factors require that the Office consider further revision to 12 CFR 29. The proposed revisions will benefit national banks by increasing their ability to design ARM instruments that meet the diverse needs of their customers. To reflect amendments made by Congress in Section 807(b) of the Garn-St. Germain Depository Institutions Act of 1982, Pub. L. No. 97-320, notice was published (47 FR 55911) identifying those portions of this Office's requlation that are deemed inapplicable to state banks and where necessary, modified the regulation for use by state banks.

REAL ESTATE LOANS MADE BY NATIONAL BANKS; VALIDATION AND ENFORCEMENT OF DUE-ON-SALE CLAUSES

Legal Authority: 12 USC 1 et seq; 12 USC 93a; 12 USC 371(a); 12 USC 371(g), 12 USC 1701j-3(c)

CFR Citation: 12 CFR 30

Abstract: On September 23, 1981, the Office issued a notice of proposed rulemaking, Docket No. 81-18 (46 FR 46964), which would validate the inclusion of due-on-sale clauses in real estate loans made by national banks, and make such clauses fully enforceable. Over 1,100 comments on the proposal were received. On October 15, 1982, Congress passed the Garn-St. Germain Depository Institutions Act of 1982 (Pub. L. 97-320). Section 341 of that Act preempts state restrictions on the inclusion of due-on-sale clauses made after October 15, 1982. It also provides that due-on-sale clauses in mortgage loans made or assumed when state law prohibited the enforcement of suchclauses will not be enforceable with respect to transfers occurring before October 15, 1985. The Act further authorizesstate legislatures and the federal regulatory agencies to adopt rules regarding those so-called "window-period" loans. Accordingly, the office is reviewing its proposed rule with regard to those "window-period" loans.

ACCRUAL ACCOUNTING

Legal Authority: 12 USC 1 et seq; 12 USC 93a

CFR Citation: 12 CFR 31, (Proposed)

Abstract: The Office is developing a new regulation to require the adoption of accrual accounting by all national banks, as recommended by the Federal Financial Institutions Examination Council. The proposed regulation would make uniform the method by which all national banks maintain their financial records. Currently, all banks with assets in excess of $25 million and many banks with assets of less than $25 million routinely maintain internal accounts on the accrual basis. The proposed regulation is intended to assist bank management, in those banks that now use the cash basis, in making more informed operating and policy decisions, and to assure that the financial data national banks provide to federal regulators and make available to bank shareholders, customers, and the general public are timely, consistent, and fairly presented. The Office is very concerned about the cost of conversion to accrual accounting and the annual cost of maintaining the system. Cost factors will be carefully considered in the development of a final rule.

Abstract: The Garn-St Germain Depository Institutions Act of 1982, Pub. L. 97-320, empowered this Office to charter bankers' banks, i.e., limited purpose national associations which will be owned exclusively by--and provide services solely to--depository institutions. On January 26, 1983, this office published an advance notice of proposed rulemaking Docket No. 83-3 (48 FR 3624) in order to solicit comments on what is virtually a new area of law. ●EXTENSIONS OF CREDIT TO EXECUTIVE OFFICERS, DIRECTORS AND PRINCIPAL SHAREHOLDERS OF NATIONAL BANKS AND TO THEIR RELATED INTERESTS

Legal Authority: 12 USC 375a; 12 USC 375b(2)

CFR Citation: 12 CFR 31

Abstract: Sections 421 and 422 of the Garn-St Germain Depository Institutions Act of 1982, Pub. L. 97-320, amended the statutes governing loans to executive officers, directors and principal shareholders of national banks as follows: (1) The $60,000 limit on loans to executive officers for the purchase of a home and the $20,000 limit on loans to executive officers to finance the education of their children have been eliminated. (2) The $10,000 limit on "other loans" to executive officers has been replaced with a proviso that such loans are subject only to limits which may be prescribed by the Office. (3) The requirement that loans to executive officers, directors, principal shareholders and their related interests exceeding $25,000 must be approved in advance by a majority of the bank's board of directors has been replaced with a proviso that the Office prescribe the threshold amount. On November 1, 1982, the Office issued an interim final rule, Docket No. 82-22 (47 FR 49347) maintaining the $10,000 limit on "other loans" and the $25,000 approval threshold. ●REAL ESTATE LENDING BY NATIONAL BANKS

Legal Authority: 12 USC 371; 12 USC 1 et seq

CFR Citation: 12 CFR 7.2000 et seq

Abstract: The proposal amends or removes interpretive rulings regarding real estate lending by national banks. The action will implement changes made by Section 403 of the Garn-St Germain Depository Institutions Act of 1982, Pub. L. 97-320. The proposal will generally eliminate real estate lending limitations and restrictions and enhance the ability of national banks to develop real estate lending products. An alternative to elimination of the limitations and restrictions is modification of the existing limitations and restrictions.

●DISPOSITION OF UNCLAIMED PROPERTY RECOVERED FROM CLOSED NATIONAL BANKS

Legal Authority: PL 97-320, Sec 408

CFR Citation: 12 CFR 33, (New)

Abstract: The regulation will establish procedures to facilitate the disposition of unclaimed property recovered from closed national banks, and when issued in conjunction with a final notice, also to be published in the Federal Register, will implement the provisions of the Garn-St Germain Depository Institutions Act of 1982, Pub. L. 97-320. The estimated cost is $100,000 for a one-time, one-year processing of the claims. This amount may be recouped from the sale of remaining property. The primary benefit of the regulation is the provision of information to potential claimants and the establishment of an orderly process for the effective disposition of the property. No other alternatives are being considered.

●ASSESSMENT OF FEES; NATIONAL BANKS, DISTRICT OF COLUMBIA BANKS

Legal Authority: 12 USC 481; 12 USC 482

CFR Citation: 12 CFR 8

Abstract: Pursuant to 12 USC 481 and 482, the Office is authorized to conduct examinations of national banks, district banks, and certain other entities, and to make assessments to recover the costs of these examinations. In a significant proportion of instances, payments of semiannual assessments and trust examination fees had not been received by OCC at the time required by regulation. This proposed regulation would enable OCC to charge interest when these payments are deliquent. The effects of this proposed regulation will be to compensate OCC for revenues lost during the time these payments are deliquent, and to eliminate the cost advantage of banks in making delinquent payments. Banks may completely avoid the effects of this proposed action by making payments as required by regulation.

●ANNUAL REPORTS OF NATIONAL BANK OWNERSHIP AND INSIDER INDEBTEDNESS TO NATIONAL BANK AND ITS CORRESPONDENT BANKS

Legal Authority: 12 USC 1817(k)1; 12 USC 1972(2)g

CFR Citation: 12 CFR 23

Abstract: Prior to the Garn-St Germain Depository Institutions Act of 1982 (Act), Pub. L. 97-320, each national bank was required to file a report with the Office regarding the ownership of the bank and indebtedness of the bank's executive officers and principal shareholders to the bank and its correspondent banks. Principal shareholders and executive officers must also file with the bank a report of indebtedness to correspondent banks of their national bank. The Act authorizes the regulatory agencies to develop alternative reporting and disclosure requirements which will result in the replacement of the current forms. The agencies are now considering alternative requirements. When replacement guidelines are developed, they will be submitted to the banking industry for public comment.

FAIR HOUSING HOME LOAN DATA SYSTEM

Legal Authority: 15 USC 1 et seq; 15 USC 481; 15 USC 1818; 15 USC 1691 et seq; 42 USC 3601 et seq

CFR Citation: 12 CFR 27

Abstract: This regulation requires national banks to record and retain information on age, race, sex, and marital status of loan applicants for the purchasing, refinancing, or construction of permanent residential real property. Its purpose is to gather data necessary to detect possible credit discrimination. The Office is reviewing this regulation to determine whether it is achieving its intended result in view of the reporting and recordkeeping burdens it imposes. Further, the Congress has mandated that a study be conducted by the Federal Financial Institutions Examination Council (FFIEC) to evaluate the functioning of the systems and procedures being used by each of the five constituent agencies (Federal Reserve Board, Federal Deposit Insurance Corporation, Federal Home Loan Bank Board, National Credit Union Administration, and the Office), in their efforts to enforce the fair housing lending statutes. That study has been completed and submitted to Congress. After reviewing public comments on the study, the FFIEC is expected to submit its conclusions to the Congress by March 31, 1983. REGISTRATION OF NATIONAL BANK TRANSFER AGENTS

Legal Authority: 15 USC 78 Securities Exchange Act of 1934

CFR Citation: 12 CFR 9

Abstract: The Office, the Federal Deposit Insurance Corporation, the Board of Governors of the Federal Reserve System, and the Securities and Exchange Commission agreed to adopt a uniform format for transfer agent reporting. On May 28, 1982, the Office issued a notice of proposed rulemaking, Docket No. 82-28 (47 FR 23473) which set forth the intention to adopt a simplified and standardized Form TA-1 (registration or amendment to registration) to standardize the reporting format, and proposed extension of the time, from 21 days to 60 days, for filing amendments to registration. Four comment letters were received, each favoring the changes. The standardizing and liberalizing changes will reduce the recordkeeping and reporting burdens on registered transfer agents.

CHARITABLE FOUNDATIONS AND CONTRIBUTIONS

Legal Authority: 12 USC 24(8)

CFR Citation: 12 CFR 7.7445; 12 CFR 7.7479

Abstract: These interpretive rulings permit national banks to establish and contribute to charitable foundations as well as limit the amount which a national bank may contribute to charity. Both rulings are being reviewed to determine whether any modifications are necessary. Subjects under review include defining the term charitable, defining contributions to include grants of the right to receive income from assets (commonly securities) owned by the bank, changing the contribution limitation to be consistent with higher tax limitations in the Economic Recovery Tax Act of 1981, and aggregating contributions to charitable trusts and other charities.

MANAGEMENT INTERLOCKS

Legal Authority: 12 USC 3201 et seq

CFR Citation: 12 CFR 26

Abstract: The Office has proposed amendments to this regulation to clarify, simplify, and relax current restrictions on management interlocks. The changes are intended to limit the extent to which the prohibitions apply to depository holding companies and certain management officials, and to reduce the need for institutions to seek exceptions under the regulations. The proposed amendments are being coordinated with substantially similar proposals by the Board of Governors of the Federal Reserve System, the Federal Deposit Insurance Corporation, the Federal Home Loan Bank Board, and the National Credit Union Administration. The changes are also intended to implement recent amendments to the Depository Institution Management Interlocks Act.

Semiannual Agenda

AGENCY: U.S. Customs Service, Department of the Treasury.

ACTION: Semiannual agenda.

SUMMARY: In response to Pub. L. 96-354, the "Regulatory Flexibility Act," and Executive Order 12291, "Federal Regulation," Customs has prepared and is publishing for public information a list of regulations either under development or under review.

FOR FURTHER INFORMATION CONTACT: For additional information regarding the substance of any particular regulatory project described in the agenda, please communicate with the person identified as the "Agency Contact." All agency contact persons are located at U.S. Customs Service Headquarters, the address of which is noted below. Comments or inquiries of a general nature about the agenda itself should be directed to Todd J. Schneider, Regulations Control Branch, Office of Regulations and Rulings, Headquarters, U.S. Customs Service, Room 2426, 1301 Constitution Avenue, NW., Washington, D.C. 20229 202-566-8237.

SUPPLEMENTARY INFORMATION:

Background

Public Law 96-354, the "Regulatory Flexibility Act" (RFA) and Executive Order (E.O.) 12291 of February 17, 1981, "Federal Regulation," require semiannual publication, in April and October of each year, of an agenda of regulations which are "likely to have a significant economic impact on a substantial number of small entities" and "major" regulations, respectively. The RFA and E.O. 12291 also require agencies to include in their agendas currently effective rules which are, or in the case of the RFA after July 1, 1981, will be under agency review. Customs combined agenda includes a brief abstract of each regulatory project ("project") being considered, an indication of whether the project will have an RFA impact, the section(s) of the Code of Federal Regulations affected, the legal authority for the action being taken, the name, title, and telephone number of an agency contact and, where applicable, an approximate timetable of completing action on any project for which Customs has published a notice of proposed rulemaking. In addition, subsequent agendas will show the status of projects referred to in the previously published agenda.

The following is the fifth semiannual agenda to be published by Customs under the RFA and E.O. 12291. It has been determined that none of the projects listed as being under development meets the standards required of a "major" regulation provided in E.O. 12291.

General statutory authority for the development or review of regulations relating to Customs matters is found in section 301, title 5, United States Code (5 U.S.C. 301), and in sections 66 and 1624, title 19, United States Code (19 U.S.C. 66, 1624). If a project is initiated under the foregoing general authority, it is so noted after the heading "Legal Authority" in the body of the agenda item for that project. When appropriate, specific statutory authority is indicated as the legal authority for the project.

In accordance with Department of the Treasury policy, no action, other than preliminary studies, may be taken on any project for which a notice of proposed rulemaking has not been published without Secretarial approval of a "work plan," or waiver of the plan. For a project which is in an early stage of preparation, no work plan is available to the public. However, projects which either have had work plans approved or are the subject of documents published in an advance notice of proposed rulemaking (ANPRM), a notice of proposed rulemaking (NPRM) or a final rule-Treasury Decision (T.D.), are identified by work plan number or Federal Register citation. Approved work plans are available to the public under the provisions of the Freedom of Information Act, as amended (5 U.S.C. 552), and Part 103, Customs Regulations (19 CFR Part 103). Requests should be addressed to the Regulations Control Branch, U.S. Customs Service, 1301 Constitution Avenue, NW., Room 2426, Washington, D.C. 20229.

Improving Government Regulations Semiannual Agenda of Regulations

AGENCY: Internal Revenue Service, Treasury.

ACTION: Semiannual agenda of regulations.

SUMMARY: This semiannual agenda lists the regulations determined as of January 31, 1983, that the Internal Revenue Service will be developing from January 31, 1983, through April 15, 1984. The purpose of this semiannual agenda is to give the public adequate notice of regulatory activities of the Internal Revenue Service.

FOR FURTHER INFORMATION CONTACT: Robert A. Bley, Executive Assistant to the Director, Legislation and Regulations Division, Office of the Chief Counsel, Internal Revenue Service, 1111 Constitution Avenue, N.W., Washington, D.C. 20224, Attention: CC:LR. 202-566-3331, not a toll-free call.

SUPPLEMENTARY INFORMATION:

General

Section 5 of Executive Order 12291 and section 602 of the Regulatory Flexibility Act and the Treasury Directive implementing that Act all require that a semiannual agenda of regulations under development and review be published in the **Federal Register**. The next semiannual agenda of the Internal Revenue Service will be published in the **Federal Register** in October of 1983.

Description

This Semiannual Agenda of Regulations lists all projects within the Internal Revenue Service (I.R.S.) as of January 31, 1983, for the development of regulations to appear in the Code of Federal Regulations. This agenda lists existing regulations under development by the Legislation and Regulations Division and the Employee Plans and Exempt Organizations Division of the Office of Chief Counsel, I.R.S. The following information is provided for each regulations project: the title; priority status; whether the regulation is currently under review; its effect, if any, on small businesses; the part of the Code of Federal Regulations affected; the legal authority for issuing the

regulations; a brief description of the problem to be addressed in the regulation; and a timetable of action taken and to be taken. Under additional information there is provided the control number of the project within the Chief Counsel's Office, the name and telephone numbers of the drafting and reviewing attorneys and the last formal action taken.

By direction of the Secretary of the Treasury.

INCOME TAX—TO PROVIDE "TIMING" REQUIREMENTS FOR EXEMPT SMALL ISSUES

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 103 Internal Revenue Code of 1954

CFR Citation: 26 CFR 1

Abstract: The rules will provide "timing" requirements for exempt small issues of industrial development bonds. They will address the nature of the governmental action necessary to approve such an issue and the relationship in time between that action and various expenditures to be funded by the issue.

INCOME TAX—TO DEFINE THE TERM "PRINCIPAL USER OF A FACILITY"

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 103(b) Internal Revenue Code of 1954

CFR Citation: 26 CFR 1

Abstract: This regulation would define the meaning of the term "principal user of a facility" for purposes of applying the limitation set by the Internal Revenue Code upon the permissible size of a small issue of tax-exempt industrial development bonds, as diminished by certain other capital expenditures. This regulation would help identify other facilities the capital expenditures from which must be taken into account in determining whether that issue exceeds the small issue limitation.

CFR Citation: 26 CFR 1

Abstract: The regulation would provide guidance regarding the effect of an urban development action grant with respect to a specific facility, upon the capital expenditures limitation with respect to a small issue of tax-exempt industrial bonds issued to finance such facility. The regulation may also provide guidance regarding the required size of such grant in relation to the cost of the facility to be financed by the bond issue, and the nexus between the grant and the financed facility.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 103 (b) (6) Internal Revenue Code of 1954

CFR Citation: 26 CFR 1

Abstract: This regulation would establish revised procedures whereby the issuer of a small issue of tax-exempt industrial development bonds can elect to have a $10 million limitation rather than a $1 million limitation apply in determining the maximum allowable size of such issue. This regulation would centralize the filing of documents relating to this election to make its requirements more administerable.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 103(c) Internal Revenue Code of 1954

CFR Citation: 26 CFR 1

Abstract: The regulations would provide miscellaneous changes to the arbitrage regulations. The changes would provide guidance to issuers, purchasers and users of tax-exempt obligations. The regulations woud relate to the calculations of yield for purposes of determining whether obligations are tax-exempt. If the yield on obligations acquired with the proceeds of a governmental obligation are materially higher than the yield on the governmental obligation then the interest paid on the governmental obligation is not tax-exempt.

INCOME TAX—DEDUCTIBILITY OF PAYMENTS OF DEFERRED COMPENSATION TO INDEPENDENT CONTRACTORS.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 404(d) Internal Revenue Code of 1954; 26 USC 404(b) Internal Revenue Code of 1954

CFR Citation: 26 CFR 1

Abstract: The regulations provide rules for taking a deduction under section 404(d) of the Internal Revenue Code for deferred compensation paid to independent contractors. A deduction is permitted only when there is a corresponding income inclusion by the plan participant. In addition, the regulations provide guidance with regard to the amendment of section 404(b) of the Internal Revenue Code by section 133 of the Revenue Act of 1978, which clarified that a method of compensation or contributions having the effect of a plan deferring the receipt of compensation does not have to be similar to a stock bonus, pension, profit-sharing, or annuity plan to be subject to 404(a) of the Internal Revenue Code. The regulations describe methods of compensation or contributions subject to the section 404(a) rules.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 422A Internal Revenue Code of 1954

CFR Citation: 26 CFR 1

Abstract: The regulations would provide guidance for taxpayers who either grant or receive incentive stock options. The grant of an incentive stock option to an employee by, generally, the employer, will not be a taxable event. At the time such an option is exercised by the employee, no amount of the spread will be included in the employee's gross income. When the stock acquired subject in the option is sold, the entire gain will be treated as capital gain and not ordinary income.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 483(g) Internal Revenue Code of 1954

CFR Citation: 26 CFR 1

Abstract: The regulations would provide guidance for determining if sales of land between related persons qualify for a lower imputed rate of interest. More specifically, the regulations would provide for a definition of land and for rules to compute the maximum dollar limitation on which the lower imputed rate of interest is to apply.

CFR Citation: 26 CFR 1; 26 CFR 20; 26 CFR 25

Abstract: This regulation project relates to the exemption of certain amateur athletic organizations from tax and the deductibility of contributions to organizations that qualify for the exemption. Changes to the applicable tax law were made by the Tax Reform Act of 1976 and the Tax Equity and Fiscal Responsibility Act of 1982. The regulations affect organizations that foster national or international sports competition and provide them with guidance needed to determine whether they qualify for the exemption.

CFR Citation: 26 CFR 1

Abstract: This regulation project relates to the treatment of income from qualified trade shows sponsored by certain exempt organizations. Changes to the applicable tax law were made by the Tax Reform Act of 1976. These regulations provide necessary guidance to the public for compliance with that Act and would affect certain exempt organizations that sponsor trade shows. The regulation also conforms the regulations to changes in the tax law concerning the time for filing an exempt organization's income tax return. In addition, this document makes clerical changes in the regulations to reflect a recent amendment to the Statement of Procedural Rules.

Abstract: The regulation will provide final Income Tax Regulations relating to the application of the accumulated earnings tax to corporations accumulating earnings and profits to avoid the income tax on distributions by the corporation to certain foreign corporate shareholders and relating to the definition of accumulated taxable income. The changes are necessary because the prior regulations applied the accumulated earnings tax to corporations accumulating earnings and profits to avoid the income tax on distributions to individual, not corporate, shareholders and because, in the case of a foreign corporation, the definition of accumulated taxable income was unclear.

INCOME TAX—CERTAIN PAYMENTS FOR OIL OR GAS NOT TO BE CONSIDERED AS TAXES

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 901(f) Internal Revenue Code of 1954

CFR Citation: 26 CFR 1

Abstract: Section 901 (f) denies, under certain conditions, a foreign tax credit for any payment made to a foreign country in connection with the purchase or sale of oil and gas extracted in that country. The section does not apply if either the taxpayer has an economic interest in the oil and gas or the taxpayer purchased and sold the oil or gas at fair market value. The regulations will define the terms "economic interest in oil or gas" and "fair market value of oil or gas." The regulations will provide rules for determining the amount of foreign taxes paid or accrued in connection with the purchase or sale of oil or gas.

CFR Citation: 26 CFR 1

Abstract: The regulations would provide rules for determining the amount of and recapturing overall foreign losses. An overall foreign loss under any one of the separate limitations on the foreign tax credit may offset the taxpayer's United States tax on United States source income in the year of the loss. The recapture rules provide that a portion of the taxpayer's foreign taxable income under the same limitation in subsequent years is to be recharacterized as United States source income, thereby reducing the taxpayer's foreign tax credit and preventing a double tax benefit from the loss.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 1056 Internal Revenue Code of 1954; 26 USC 1245 Internal Revenue Code of 1954

CFR Citation: 26 CFR 1

Abstract: The regulations would provide rules for determining the basis of player contracts acquired by a purchaser upon the sale or exchange of a sports franchise. Generally, the purchaser's basis with respect to player contracts is to be determined by reference to the seller's adjusted basis and the gain the seller recognizes from the transfer of the player contracts. Exceptions are provided in the cases of certain corporate one-year liquidations, certain like-kind exchanges and for certain transfers relating to decedents. Furthermore, a presumation is provided that in the sale or exchange of a sports franchise, not more than 50-percent of the consideration will be allocable to player contracts unless the taxpayer can satisfy the Secretary it is proper to allocate an amount in excess of 50-percent.

Legal Authority: 26 USC 7805 Internal Revenue Code of 1954; 26 USC 7609 Internal Revenue Code of 1954; 26 USC 7610 Internal Revenue Code of 1954

CFR Citation: 26 CFR 301

Abstract: An administrative summons is used by the Internal Revenue Service to obtain taxpayer records in the hands of a third party recordkeeper, such as a bank. Sections 331, 332, and 333 of the Tax Equity and Fiscal Responsibility Act of 1982 amended sections 7609 and 7610 of the Internal Revenue Code of 1954 relating to administrative summonses. The amendments alter the circumstances under which an administrative summons may be issued and also alter the rights and obligations of the subject taxpayer and third-party recordkeeper. This regulation project will provide guidance relating to these new administrative summons procedures.

45 CFR Ch. XII

Executive Order 12291, Federal Regulation Semiannual Agenda of Regulations

AGENCY: ACTION.

ACTION: Publication of semiannual agenda.

SUMMARY: This agenda announces the regulations that ACTION will have under development, revision and review during the six month period from April 1, 1983, through September 30, 1983. The purpose for publishing this agenda is to give notice of these upcoming regulations to allow the public the opportunity to participate in the rulemaking process.

FOR FURTHER INFORMATION CONTACT: Ronald C. Owens, Associate General Counsel, ACTION, Room M-607, 806 Connecticut Avenue, N.W., Washington, D.C. 20525, (202) 254-7963.

SUPPLEMENTARY INFORMATION: Executive Order 12291, Federal Regulation, and the Regulatory Flexibility Act (Pub. L. 96-354) require that executive agencies publish in the **Federal Register**, in April and October of each year, a semiannual agenda of regulations under development or review.

None of the regulations listed have been determined to be major and requiring a Regulatory Impact Analysis under E.O. 12291. None of the regulations listed have been determined to impose compliance costs or reporting burdens on the public and they have been found not to affect small business or State and local governments thereby requiring a Regulatory Analysis to be performed under 5 U.S.C. 602.

At this time, ACTION does not have a major regulation published and none is anticipated in the coming six month period.

DATED: March 11, 1983.

Timothy G. Ryan,

Executive Officer, ACTION.

ADVISORY COUNCIL ON HISTORIC PRESERVATION

36 CFR Ch. VIII

Regulatory Agenda

AGENCY: Advisory Council on Historic Preservation.

ACTION: Notice of Regulatory Agenda.

SUMMARY: The Regulatory Agenda is a semiannual summary of each proposed and each final regulation that the Advisory Council on Historic Preservation expects to publish in the **Federal Register** during the next twelve (12) months.

ADDRESS: Advisory Council on Historic Preservation, 1522 K Street, N.W., Washington, D.C. 20005.

FOR FURTHER INFORMATION CONTACT: Executive Director, Advisory Council on Historic Preservation, 202-254-3967.

John Fowler,

Acting Executive Director.

ADVISORY COUNCIL ON HISTORIC PRESERVATION (ACHP) — Current and Projected Rulemakings

PROTECTION OF HISTORIC AND CULTURAL PROPERTIES

Priority: Task Force

Legal Authority: 16 USC 470 et seq

CFR Citation: 36 CFR 800

Abstract: In order to streamline and increase the effectiveness of the Council's regulations at 36 CFR Part 800, the Council is in the process of preparing revisions to its regulations. The reason for the revisions is to implement new regulatory authorities set forth in PL 96-515, and to improve the efficiency of the historic preservation review process. The alternative to revision of the regulations is to leave them as they are, which would not achieve the goals the Council seeks. The revisions are expected to reduce the cost of complying with the regulations.

ARCHITECTURAL AND TRANSPORTATION BARRIERS COMPLIANCE BOARD

36 CFR Part 1190

Unified Agenda

AGENCY: Architectural and Transportation Barriers Compliance Board.

ACTION: Submission of Unified Agenda.

SUMMARY: The Architectural and Transportation Barriers Compliance Board submits the following agenda of regulatory activities which may be conducted by the agency during the next twelve months. This regulatory agenda may be revised and/or refined by the agency during the coming months as a result of action taken by the Board.

ADDRESS: U.S. Architectural and Transportation Barriers Compliance Board, 330 C Street, S.W., Room 1010, Washington, D.C. 20202.

FOR FURTHER INFORMATION CONTACT: For information concerning Board regulations and proposed actions, contact Ms. Sally Free, Office of Technical Services (202) 472-2700 (voice or TDD) or (202) 245-1591 (messages--voice or TDD).

DATED: March 18, 1983.

Wm. Bradford Reynolds,

Chairperson, Architectural and Transportation Barriers Compliance Board and Assistant Attorney General for Civil Rights, Department of Justice.

ARCHITECTURAL AND TRANSPORTATION BARRIERS COMPLIANCE BOARD (ATBCB)

Existing Regulations Under Review

MINIMUM GUIDELINES AND REQUIREMENTS FOR ACCESSIBLE DESIGN

Priority: Agency Determination

Legal Authority: 29 USC 792(b)(7) Rehabilitation Act of 1973, as amended

CFR Citation: 36 CFR 1190

Abstract: Specific provisions of the ATBCB Minimum Guidelines and Requirements for Accessible Design have been reserved until such time as sufficient research, information, and/or field experience is obtained. In addition to these reserved provisions, the Board has indicated that additional information would be useful on other provisions contained in the regulation and on other access issues. As materials and experience become available in these areas, the Board plans to take the appropriate action to complete or revise these requirements. Information on alternatives being considered for addressing a particular provision, and the potential costs and benefits of the action being proposed will be provided during the rulemaking process. The last revision to the Minimum Guidelines and Requirements for Accessible Design was published 08/04/82 (47 FR 33862).

FRL #2318-1

Regulatory Agenda

AGENCY: Environmental Protection Agency.

ACTION: Regulatory Agenda.

SUMMARY: The Agency publishes a semiannual Regulatory Agenda which summarizes the status of regulations under development, revision, and review. The purpose is to keep interested parties informed of the progress of these regulations.

FOR FURTHER INFORMATION CONTACT: For information on a regulation in the Agenda, please contact the person whose name is listed next to the regulation.

If you have suggestions for improving this publication, or need general information about the Agenda, please call or write to Daniel Fiorino, Regulation Management Staff, Environmental Protection Agency, PM-223, Washington, D.C., 20460, (202) 382-5480.

If you want to be on the mailing list for the Regulatory Agenda, please call or write to Penelope Parker, Regulation Management Staff, Environmental Protection Agency, PM-223, Washington, D.C., 20460, (202) 382-5475.

SUPPLEMENTARY INFORMATION:

Organization of the Agenda

The Agenda appears in three parts: (1) a set of entries identifying regulations under development or revision; (2) a list of regulations under review; and (3) a list of regulations EPA is deleting from the first part because they have been completed or cancelled.

The Agenda entries in the first and second parts are organized by statutory area--generally by the titles of the major legislation authorizing EPA's pollution control programs. In a few cases, the Agenda combines different statutory authorities that have closely-related subject matter. For example, the Fuel Economy Data regulation--authorized by the Energy Policy and Conservation Act--appears at the end of the section on the Clean Air Act, along with other mobile source regulations.

The statutory areas appear in the following order:

The Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and the Federal Food, Drug, and Cosmetics Act (FFDCA)
The Toxic Substances Control Act (TSCA)
The Clean Water Act (CWA) and the Marine Protection, Research, and Sanctuaries Act (MPRSA)
The Atomic Energy Act (AEA) and the Uranium Mill Tailings Radiation Control Act (UMTRCA)
The Safe Drinking Water Act (SDWA)
The Noise Control Act (NCA)
The Resource Conservation and Recovery Act (RCRA)
The Clean Air Act (CAA) and the Energy Policy and Conservation Act (EPCA)
The Comprehensive Environmental Response, Compensation, and Liability Act--"Superfund" (CERCLA)
General--Other Acts (including general grant and procurement regulations and regulations that cut across several programs)

Within each statutory area, we have divided the regulations into two basic groups: (a) "New Regulations," i.e., actions that will result in new CFR parts, subparts, or subsections; and (b) "Revised Regulations," i.e., actions that revise or amend already existing CFR parts, subparts, or subsections. Within each of these two groups, the regulations are ordered numerically by section number of the authorizing legislation. For example, all air regulations under Section 109 of the Clean Air Act will appear before those under Section 111.

Regulations Covered in the First Part of the Agenda

The first part of the Agenda includes most of the regulations under development that are:

- Subject to Executive Order 12291;
- Have been identified by the Presidential Task Force on Regulatory Relief; or
- Have been designated by the Agency for priority development or revision.

The only rules excluded are: (a) specialized categories of actions (such as EPA approvals of state plans and other actions that do not apply nationally); and (b) routine actions (such as pesticide tolerances and minor amendments to existing regulations).

The first part of the Agenda generally includes regulations scheduled for publication as a proposed or final rule within the coming calendar year. Occasionally, it also includes regulations with scheduled actions that are more than a year away. In some cases, regulations do not appear in the Agenda until they reach the stage of notice of proposed rulemaking.

Explanation of Information in the First Part of the Agenda

Two hundred and sixty-five regulation entries are in the first part of today's Agenda. Of these, 142 are revisions to existing regulations. Nineteen of the regulations are classified as "major" under Executive Order 12291, and 32 are being revised at the request of the Presidential Task Force on Regulatory Relief.

Second Part of the Agenda--Regulations Under Review

The second part of the Agenda identifies existing EPA regulations (1) that are now under review, or (2) whose review will begin before the next Agenda is published. The purpose of such reviews is to determine whether the regulation should be revised, rescinded, or left unchanged. If EPA decides to revise or rescind the regulation, the action will then appear as an entry in the first part of the Agenda, and this will state the timetable for completing the revision or rescission.

For each regulation under review, the Agenda gives the title, a short description, statutory authority, CFR reference, any analysis EPA is preparing, contact person, and the schedule for completing the review. It also indicates the "review authority," which in many cases will be different from the regulation's statutory authority. Regulations are reviewed under the mandates below. Some of EPA's reviews satisfy more than one of these mandates.

Executive Order 12291 establishes the general policy that EPA should review all of its existing regulations to ensure that the costs of these regulations are

justified by their benefits. This policy covers any regulations that EPA is reviewing at the request of the Presidential Task Force on Regulatory Relief.

The Regulatory Flexibility Act (5 USC 610) requires that EPA review at least once every ten years existing regulations that have a significant economic impact on a substantial number of small entities, including small businesses, small organizations, and small governments. EPA issued its plan for conducting these reviews on July 16, 1981 at 46 FR 36930 and has used those comments in identifying candidates for review.

The Paperwork Reduction Act requires that Federal agencies reduce unnecessary paperwork burdens on the public. EPA reviews information collection activities for duplication, practical utility, and burden on the public.

Many of EPA's authorizing *environmental statutes* also set review dates for specific regulations.

Regulations Covered in the Third Part of the Agenda

In the third part of the Agenda, EPA lists regulations appearing in the last Agenda that are now no longer under consideration. EPA will delete these from future Agendas. The information given on these regulations is less detailed than for those still under consideration. Generally, it includes (1) the date and **Federal Register** citation, if any, of the last action on the regulation, and (2) an explanation of why the Agency is deleting the regulation from the Agenda. If EPA has completed work on the regulation, the effective date of the regulation appears after the designation "completed."

Joseph A. Cannon,

Associate Administrator for Policy and Resource Management.

FEDERAL INSECTICIDE, FUNGICIDE, AND RODENTICIDE ACT

EXEMPTION FOR CERTAIN PRODUCTS CONTAINING PHEROMONE ATTRACTANTS

Priority: Task Force

Legal Authority: 7 USC 136 FIFRA

CFR Citation: 40 CFR 162

Abstract: This rule would exempt from regulation under the Federal Insecticide, Fungicide, and Rodenticide Act all pheromones, identical synthetic chemicals intended for use in pheromone traps, and the pheromone traps in which those chemicals are the sole active pesticide ingredient. This revision is being made at the request of the President's Task Force on Regulatory Relief.

DATA REQUIREMENTS FOR REGISTRATION

Priority: Task Force

Legal Authority: 7 USC 136(a) FIFRA

CFR Citation: 40 CFR 158

Abstract: This regulation will specify the kinds of data that will normally be required to support the registration of a pesticide based on its product type and use pattern. It will state whether the requirements apply to manufacturing-use products or to end-use products. These requirements will provide two principal benefits: 1) generation of data needed to evaluate pesticides' effects, and 2) more efficient and faster pesticide development and registration. EPA is revising this regulation at the request of the President's Task Force on Regulatory Relief.

●REVISION OF CERTAIN PROCEDURAL REQUIREMENTS FOR PESTICIDE REGISTRATION

Priority: Task Force

Legal Authority: 7 USC 136(d) FIFRA

CFR Citation: 40 CFR 162

Abstract: These regulations will revise EPA procedures and requirements pertaining to Agency approval of labeling and distribution arrangements, submission of pesticide efficacy data, and child-resistant packaging. EPA is revising this rule at the request of the President's Task Force on Regulatory Relief.

●COMPREHENSIVE REVISION OF PESTICIDE REGISTRATION, LABELING, AND CLASSIFICATION PROCEDURES

Priority: Task Force

Legal Authority: 7 USC 136(d) FIFRA

CFR Citation: 40 CFR 162

Abstract: These regulations will revise procedures and requirements for the registration and reregistration of pesticide products, the labeling of such products, and the classification of pesticide products as restricted use products. EPA is revising this rule at the request of the President's Task Force on Regulatory Relief.

●AMENDMENTS TO SPECIAL REVIEW CRITERIA AND PROCEDURES

Priority: Task Force

Legal Authority: 15 USC 136 FIFRA

CFR Citation: 40 CFR 162.11

Abstract: The Agency is revising its criteria for initiating special reviews of pesticides (previously known as the Rebuttable Presumption Against Registration (RPAR) Process). These revisions will make the special review process consistent with statutory changes and program experience. The Agency is also streamlining the procedures for special reviews of certain chemicals to provide for early peer review, to promote expedited settlements through negotiation, and to reduce paperwork.

PROPOSED REVISIONS TO CROP GROUP TOLERANCES

Priority: Task Force

Legal Authority: 21 USC 346a(e)

CFR Citation: 40 CFR 180.34(f)

Abstract: At the request of the President's Task Force on Regulatory Relief, EPA is revising the Crop Group Regulations to allow for more extensive use of group tolerances for related crops. It will minimize the burden of establishing tolerances for pesticide residues in or on minor crops. It defines crop groups and the procedures for establishing group tolerances.

TOXIC SUBSTANCES CONTROL ACT

PREMANUFACTURE NOTIFICATION REQUIREMENTS AND REVIEW

Priority: Major

Legal Authority: 15 USC 2604 TSCA

CFR Citation: 40 CFR 720

Abstract: This regulation establishes procedures for chemical manufacturers to submit notices to EPA before manufacturing new chemical substances for commercial purposes. EPA will use these notices to screen potentially harmful chemicals before they enter production and use. The Agency may, if necessary, take any of several different actions to prohibit, monitor, or control commercial development of a chemical.

RULES RESTRICTING THE COMMERCIAL AND INDUSTRIAL USE OF ASBESTOS FIBERS

Priority: Major

Legal Authority: 15 USC 2605 TSCA

CFR Citation: 40 CFR 763

Abstract: The Agency is evaluating the need for further information or control regulation of the commercial and industrial use of asbestos. A variety of alternatives are being considered, including: (1) requiring the labeling of asbestos and asbestos-containing products, and (2) prohibiting or otherwise restricting certain uses of asbestos that present unreasonable risks. PMN EXEMPTION FOR SITE LIMITED INTERMEDIATES AND LOW VOLUME CHEMICALS

Priority: Task Force

Legal Authority: 15 USC 2604 TSCA

CFR Citation: 40 CFR 723

Abstract: Section 5(a) of TSCA requires manufacturers of new chemical substances to submit a premanufacture notice (PMN) to EPA before manufacture or import begins. Section 5(h)(4) authorizes the Administrator to exempt any person from the provisions of section 5 if the Agency determines that the substance will not present an unreasonable risk. This rule would exempt manufacturers of certain chemicals produced at 10,000 kg or less and certain site-limited intermediates from PMN requirements. Abstract: EPA is revising the cost reasonableness test for BCT effluent limitations for primary and secondary industries, primarily food processors and light manufacturers. EPA issued a notice withdrawing the existing BCT limitations on February 17, 1982 (47 FR 6835). EPA proposed new BCT limitations for the affected industries, including seafood processing and meat packing, pulp and paper, timber, metal finishing, inorganic chemicals, ore mining, and leather tanning. EPA is making these revisions in response to a court decision. This revision also fulfills the request for review of the program by the President's Task Force on Regulatory Relief.

Priority: Task Force

Legal Authority: 33 USC 1251 CWA

CFR Citation: 40 CFR 122; 40 CFR 123; 40 CFR 125

Abstract: These revisions are being proposed to streamline permit program requirements and ease burdens upon the public by eliminating regulations not mandated by law or essential to good program implementation; by expediting procedures where appropriate; by reducing unnecessary reporting requirements; and by promoting assumption of NPDES authority by States. These revisions are being made at the request of the President's Task Force on Regulatory Relief.

Abstract: In conjunction with the Department of Transportation, EPA has proposed a uniform national manifest to eliminate problems caused by differing state manifest requirements. This action would require all generators and transporters of hazardous waste to use the Federal form. These revisions are being made as part of an overall revision of the RCRA program at the request of the President's Task Force on Regulatory Relief.

STANDARDS FOR HAZARDOUS WASTE GENERATORS: ALTERNATE MANIFEST

Priority: Task Force

Legal Authority: 42 USC 6922 RCRA

CFR Citation: 40 CFR 262

Abstract: This action would allow generators to reuse a manifest form if they repeatedly ship identical wastes to facilities which they own or operate. This will reduce the paperwork burdens for generators. These revisions are being made as part of an overall revision of the RCRA program at the request of the President's Task Force on Regulatory Relief.

Abstract: The Agency established requirements for use in permitting existing land disposal facilities (surface impoundments, waste piles, land treatment landfills) and the corresponding procedures for permit applications. The Agency is preparing a Regulatory Impact Analysis and will publish the results of it in the Federal

Register. A Regulatory Flexibility Analysis was published on 1/21/83.

Abstract: EPA will propose to allow precisely defined classes of facilities to obtain permits by demonstrating compliance with specific permit conditions established by regulation. This will simplify and expedite the process for individual members of the classes to receive permits. These and several other revisions listed below implement revisions to the Consolidated Permit Program at the request of the President's Task Force on Regulatory Relief.

●AMENDMENTS TO EXISTING PORTION CONCEPT IN LAND DISPOSAL REGULATIONS

Priority: Major

Legal Authority: 42 USC 6924

CFR Citation: 40 CFR 264

Abstract: Three related areas regarding coverage of the Part 264 land disposal regulations have been challenged in early public comments. These relate to requirements for liners at existing facilities. Amendments to be developed under this task are to "tighten-up" on the number of situations where operation of facilities after January 26, 1983, can continue without liners. Three issues will be addressed: (1) "lateral creep," (2) effective date of liner requirements, and (3) retrofit of liners. Final regulation for issue 1 is scheduled to be published in the Federal Register in July 1983, and proposed regulations for issues 2 and 3 in September 1983.

Priority: Major

Legal Authority: 42 USC 7521 CAA; 42 USC 7525 CAA; 42 USC 7526 CAA; 42 USC 7541 CAA

CFR Citation: 40 CFR 86

Abstract: EPA has identified several Air Quality Control Regions which currently are exceeding acceptable Nitrogen Dioxide levels. Heavy-duty vehicles and light-duty trucks produce 15 percent of total NOx emissions. The Clean Air Act requires EPA to establish emission standards for heavy-duty vehicles which represent a 75% reduction in nitrogen oxides. EPA has developed a new test procedure for measuring exhaust emissions which will be used to measure baseline emissions. At the request of the President's Task Force on Regulatory Relief, EPA will consider relaxing the statutory limit for 3 years to a level which can be achieved by diesel engines, and allowing emissions averaging to give flexibility to manufacturers.

AVERAGING OF PARTICULATE EMISSIONS FOR 1985 AND LATER MODEL YEAR LIGHT-DUTY DIESELS

Priority: Task Force

Legal Authority: 42 USC 7521(a)(3)(A) CAA

CFR Citation: 40 CFR 86

Abstract: EPA has proposed a diesel particulate averaging scheme to replace the individual-vehicle standards currently in place for 1985, 0.20 grams per mile for light-duty vehicles and 0.26 grams per mile for light-duty trucks. Averaging should allow manufacturers to employ the most cost-effective control technology strategies for their diesel models, while assuming that total particulate levels will not significantly increase beyond those allowable under the current regulations. If these standards are delayed until 1987, the averaging program will also be delayed until 1987. These revisions are being made at the request of the President's Task Force on Regulatory Relief.

Priority: Task Force

Legal Authority: 42 USC 7521(a) CAA

CFR Citation: 40 CFR 86 A; 40 CFR 86 K; 40 CFR 86 N

Abstract: At the request of the President's Task Force on Regulatory Relief, EPA is reviewing the hydrocarbon and carbon monoxide emission standards for heavy-duty engines which were promulgated in January 1980 at 45FR4136. The Clean Air Act permits EPA to revise emission standards if it finds that compliance with the standards cannot be achieved without unreasonable cost burden. This rulemaking will reevaluate certain aspects of the 1984 final rule with the aim of reducing short term compliance costs without significant losses in environmental benefits. The major objective will be to determine if hydrocarbon and carbon monoxide standards may be set at a level which will not require the use of catalytic converters. A recent Final Rule (48 FR 1406, 1/12/83) delays these standards for one year, until 1985, while the final level of the standard is determined. Useful life options were proposed on 1/12/83 and will be included in the Final Rule.

NON-METHANE HYDROCARBON STANDARDS

Priority: Task Force

Legal Authority: 42 USC 7521(b) CAA

Abstract: At the request of the President's Task Force on Regulatory Relief, EPA has proposed to adopt a non-methane hydrocarbon (NMHC) standard for compliance requirements for hydrocarbon exhaust emissions for 1983 and later model year vehicles. CFR Citation: 40 CFR 171

Abstract: This rule would establish certain recordkeeping and reporting requirements for pesticides that are classified for restricted use. This rule will only apply to States and Indian Reservations where the Administrator is conducting a Federal program to certify pesticide applicators. The rule would require persons who make restricted use pesticides available to users to submit a report to the Agency and maintain records of sales.

●PARTIAL EXEMPTION FROM FIFRA REQUIREMENTS FOR CERTAIN PRODUCTS CONTAINING BORON COMPOUNDS

Legal Authority: 7 USC 136 W FIFRA

CFR Citation: 40 CFR 162

Abstract: This rule proposes exemption of adequately labelled pesticide products in toxicity categories III and IV which contain boron compounds as their sole active ingredient from all of the requirements of FIFRA. This rule does not exempt the misbranding and other provisions of Section 12 which are not applicable solely to registered pesticides. The reporting requirements under Section 7 of FIFRA, which are now applicable to producers of products for which exemption is proposed, will also be retained.

CONDITIONAL REGISTRATION AND DATA COMPENSATION

Legal Authority: 7 USC 136 FIFRA

CFR Citation: 40 CFR 162

Abstract: This regulation will govern the conditional registration of pesticide products which are identical or substantially similar to those currently registered, and the conditional registration of new uses of existing pesticides. It will also implement the data compensation provisions of section 3(c)(1)(D) of FIFRA. The Unites States Court of Appeals for the Third Circuit stated on

June 22, 1982 that EPA must promulgate appropriate regulations in accordance with the Administrative Procedure Act.

●TOLERANCE FEES FOR PESTICIDE CHEMICALS

Legal Authority: 21 USC 346(a) FFDCA

CFR Citation: 40 CFR 180.33

Abstract: Section 408(o) of the Federal Food, Drug, and Cosmetic Act authorizes EPA to collect fees from registrants seeking approval of tolerance petitions. The tolerance fee structure originally was designed to cover the Agency's processing costs for reviewing tolerance petitions and for establishing tolerance levels for pesticides used on food products. The Agency has not modified its tolerance fee structure since 1972. This proposed regulation will establish a new tolerance fee structure based upon the Agency's increased costs for processing tolerance petitions.

GENERAL REIMBURSEMENT POLICY FOR TSCA TEST RULES

Legal Authority: 15 USC 2603 TSCA

CFR Citation: 40 CFR 790 F

Abstract: TSCA requires that those who manufacture and process a chemical must pay for tests to develop necessary information on its risks. Industry has initial responsibility for deciding how to share testing costs, but Section 4 requires EPA to issue reimbursement orders when private negotiations fail. This rule establishes procedures and criteria for EPA to make decisions on fair and equitable reimbursement. It is designed to encourage private arrangements by reducing the advantage of transferring a dispute to EPA.

LABELING RULE FOR TREATED WOOD

Legal Authority: 15 USC 2605 TSCA

CFR Citation: Not yet determined

Abstract: Pentachlorophenol, creosote and inorganic arsenicals are used as wood preservatives. They pose risks of teratogenicity, fetotoxicity, oncogenicity, and mutagenicity for persons improperly handling treated wood. This regulation would require the distribution of labels containing safe handling directions for products treated with these preservatives. In a related action, EPA is conducting a Rebuttable Presumption Against Registration (RPAR) review of these preservatives under FIFRA, because they may pose unreasonable risks to health.

COMPLIANCE EXTENSION FOR INNOVATIVE TECHNOLOGY FOR INDUSTRIAL DISCHARGE

Legal Authority: 33 USC 1311 CWA

CFR Citation: 40 CFR 125

Abstract: Section 301(k) allows industrial dischargers to request an extension of the compliance date for BAT until July 1, 1987 if they will install an innovative technology. This technology must produce either: (1) effluent reduction greater than BAT, or (2) same effluent reduction at significantly lower cost. It must also have the potential for industry-wide application.

Legal Authority: 33 USC 1311 CWA; 33 USC 1314 CWA; 33 USC 1316 CWA; 33 USC 1317 CWA; 33 USC 1361 CWA

CFR Citation: 40 CFR 433

Abstract: Metal finishing concerns 45 different industrial processes, including electroplating, machining, anodizing and painting. The Agency is developing BPT, BAT, NSPS, and pretreatment standards to regulate the discharge of copper, nickel, zinc, chromium, lead, cadmium, silver, cyanide, total toxic organics, oil and grease, and TSS.

Abstract: The Agency is proposing BPT, BCT, BAT, NSPS, and PSES for 13 subcategories in the nonferrous metals manufacturing industry. These 13 subcategories include the production of aluminum, copper, lead, silver and zinc and represent a significant fraction of the total wastewater discharged by this industry. Legal Authority: 33 USC 1311 CWA; 33 USC 1314 CWA; 33 USC 1316 CWA; 33 USC 1317 CWA; 33 USC 1361 CWA

CFR Citation: 40 CFR 430

Abstract: The Agency has proposed BAT and NSPS regulations that would limit the discharge of polychlorinated biphenyls (PCBs) into waters of the United States from mills in the pulp, paper, and paperboard industry where fine and tissue papers are made from deinked wastepaper. On January 6, 1981, EPA proposed BPT, BAT, NSPS, PSNS, and PSES limitations for the pulp, paper, and paperboard industry, including the deink subcategory (46 FR 1430). EPA did not propose PCB effluent limitations at that time because of insufficient information on the levels of treatability. Based on further analysis of all current available technical and economic data, the Agency has determined that limitations for the control of PCBs are appropriate.

●AMENDMENT TO CONSTRUCTION GRANTS REGULATION--CHLORINATION

Legal Authority: 33 USC 1361 CWA

CFR Citation: 40 CFR 35

Abstract: This rulemaking will amend the construction grants regulation to include a requirement for grantees proposing chlorination facilities to evaluate the adverse impacts of chlorine on aquatic wildlife. Where the impacts are significant, the grantee may be required to reduce the amount of chlorine added to the wastewater or construct and operate a dechlorination process. The evaluation would include a comparison of the chlorine concentration downstream of the discharge and the applicable chlorine criteria which will protect the designated uses.

CONSTRUCTION GRANTS PROGRAM DELEGATION TO STATES

Legal Authority: 33 USC 1251 CWA

CFR Citation: 40 CFR 35 F

Abstract: These proposed revisions to the existing regulation governing construction grant program delegation to States under Section 205(g) of the Clean Water Act (40 CFR 35, subpart F) are needed to simplify delegation agreement requirements, establish a more systematic EPA oversight approach, and to fit into the proposed regulation for State Financial Assistance for Continuing Environmental Programs (40 CFR 35, Subpart A), 47 FR 25912 (June 15, 1982). The proposed regulation (40 CFR 35, Subpart J) includes only delegation agreement and overview requirements. It will provide greater flexibility to States and EPA Regions to manage delegation while maintaining continuity in the 205(g) grant process.

REVISION TO BAT FOR INORGANIC CHEMICALS

Legal Authority: 33 USC 1311 CWA; 33 USC 1314 CWA; 33 USC 1316 CWA; 33 USC 1317 CWA; 33 USC 1361 CWA

CFR Citation: 40 CFR 415

Abstract: In response to industry request, EPA is reconsidering the necessity for zero discharge in BAT regulations for the following three subcategories: sodium chloride, calcium chloride, and sodium sulfide. Since toxic pollutants are not present in these subcategories, the costs to achieve the zero discharge required by BAT may not be reasonable.

Legal Authority: 33 USC 1311 CWA; 33 USC 1314 CWA; 33 USC 1316 CWA; 33 USC 1317 CWA; 33 USC 1361 CWA

CFR Citation: 40 CFR 415

Abstract: EPA has proposed to withdraw BAT and substitute limits for COD and metals equivalent to BPT for nine subcategories. Lead limits for three subcategories were studied and revisions to these limits are being made. Rubber reclaimers covered by subparts H and I have been re-examined for BCT, BAT, and NSPS regulations. National regulations will not be issued for the two rubber reclaimed subcategories.

WATER QUALITY STANDARDS REGULATIONS

Legal Authority: 33 USC 1313 CWA

CFR Citation: 40 CFR 35.1550

Abstract: EPA is revising its water quality standards regulations to improve the management of the program. The revision will ensure that the process for setting water quality standards takes into account appropriate data and analysis, scientific peer review and participation of the affected public. The revision will allow EPA and the States to more effectively meet the requirements of the Clean Water Act.

AMENDMENT TO SECONDARY TREATMENT REGULATIONS

Legal Authority: 33 USC 1314 CWA

CFR Citation: 40 CFR 133

Abstract: The Agency is considering defining a level of effluent quality attainable by publicly owned treatment works (POTWs) through the application of treatment equivalent to secondary treatment. These possible revisions which in large part implement the 1981 amendments of the Clean Water Act, will include specific numeric levels of criteria for adjusting POTW effluent limitations to levels attainable by certain kinds of equivalent treatment technologies. The Agency is also reexamining the 85 percent removal requirement for secondary treatment.

SAFE DRINKING WATER ACT

MAXIMUM CONTAMINANT LEVELS FOR VOLATILE ORGANIC CHEMICALS FOUND IN DRINKING WATER

Legal Authority: 42 USC 300 SDWA

CFR Citation: 40 CFR 141

Abstract: EPA is considering several possible approaches for reducing exposure to certain volatile synthetic organic compounds (VOCs). These VOCs have been most commonly found in drinking water drawn from groundwater sources. These chemicals include such compounds as trichloroethylene, tetrachloroethylene, and vinyl chloride. Aeration and granular activated carbon (GAC) systems are treatment technologies that can reduce these contaminants to a low level. Preliminary estimates show that average residential monthly bills for affected systems could rise from $1 - $14 depending on the size of the drinking water system and the type of technology selected. The Agency will promulgate recommended Maximum Contaminant Levels (RMCLs) before it promulgates the Maximum Contaminant Levels (MCLs).

IDENTIFICATION AND LISTING OF HAZARDOUS WASTE: CHLORINATED DIOXINS AND CHLORINATED DIBENZOFURANS

Legal Authority: 48 USC 6921

CFR Citation: 40 CFR 261.31; 40 CFR 261.32

Abstract: Existing regulations include a list of hazardous wastes. This action modifies this list to add particular wastes containing certain chlorinated dibenzo-p-dioxins and dibenzofurans, chlorophenyls, phenoxy acids, amines, and esters derived from these chlorophenols. These contaminants are among the most toxic known, and consequently these wastes are of particular environmental concern.

IDENTIFICATION AND LISTING OF HAZARDOUS WASTE: WARFARIN AND ZINC PHOSPHIDE

Legal Authority: 42 USC 6905 RCRA; 42 USC 6912 RCRA; 42 USC 6921 RCRA; 42 USC 6922 RCRA

CFR Citation: 40 CFR 261.33

Abstract: EPA is modifying the list of hazardous wastes in section 261.33 to change the hazardous class under which chemical products containing warfarin at concentrations of 0.30 or less and zinc phosphide in concentrations of 10% or less are listed. This is based on scientific data showing that warfarin and zinc phosphide in these concentrations are not acute hazardous wastes. Those chemical products containing warfarin and zinc phosphide at higher concentrations will remain on 261.33(e). The Agency is also considering establishing concentration limits for all substances listed in 261.33.

IDENTIFICATION AND LISTING OF HAZARDOUS WASTE: RESTRICTION OF LAND DISPOSAL OF CERTAIN HAZARDOUS WASTE

CFR Citation: 40 CFR 261

Abstract: This action would prohibit the land disposal of certain types of hazardous wastes. EPA is considering establishing criteria for identifying wastes. These criteria will then be used to promulgate a list of wastes which should be prohibited from land disposal based on their extreme persistence, mobility, or toxicity and on the availability of environmentally sound alternate treatment technologies.

●PERSONS MANAGING RECYCLED HAZARDOUS WASTES

Legal Authority: 42 USC 6921 RCRA

CFR Citation: 40 CFR 261.6(b)

Abstract: 40 CFR 261.6 defines standards for hazardous wastes which are used, re-used, recycled, or reclaimed. Certain hazardous wastes (those listed or those that are sludges) are subject to transportation and storage controls prior to such use, re-use, recycling, or reclamation. This action corrects some accidental omissions since substantive standards in Part 264 were not added to this section as they were developed. These corrections clarify the rules to read as they were intended to apply, and as they, in general, have been interpreted.

STANDARDS FOR HAZARDOUS WASTE GENERATORS: "SATELLITE" ACCUMULATION OF HAZARDOUS WASTE

Legal Authority: 42 USC 6922 RCRA

CFR Citation: 40 CFR 262.34

Abstract: Current regulations allow generators of hazardous waste to accumulate waste on-site for 90 days without a permit, provided the accumulation is in accordance with certain standards. This action will add an initial period for "satellite" accumulation, defined as waste accumulated in small quantities at or near a point of generation before the standards for 90 day accumulation apply. The 90 day period would begin only after the initial period is completed. This change will be more appropriate and less burdensome for short term satellite storage activities than are the existing requirements. This action would also waive the contingency plan requirement for satellite storage.

STATES WITH FINAL AUTHORIZATION

Legal Authority: 42 USC 6905 RCRA; 42 USC 6912 RCRA; 42 USC 6924 RCRA

CFR Citation: 40 CFR 264

Abstract: EPA plans to add permitting standards for several processes which are not currently covered by the standards for owners and operators of hazardous waste management facilities. Under EPA's May 19, 1980 regulations, until a State with final authorization makes revisions based on new Federal standards, neither EPA nor the State can issue RCRA permits to new or existing facilities covered by the new standards. To

remedy this problem, EPA amended its hazardous waste management regulations to enable certain facilities in authorized States to obtain Federally-issued RCRA permits while the States revise their RCRA permit requirements. The Agency also clarified the applicability of new permit standards in States with Phase II interim authorization.

STANDARDS FOR OWNERS/OPERATORS OF WASTE FACILITIES: SURFACE IMPOUNDMENTS USED FOR NEUTRALIZATION OF CORROSIVE WASTE

Legal Authority: 42 USC 6924 RCRA

CFR Citation: 40 CFR 264

Abstract: Neutralization surface impoundments are surface impoundments that: (1) are used to neutralize wastes that are hazardous solely because they exhibit the characteristic of corrosivity (261.22) or have been listed in Part 261 subpart O only for this reason; (2) contain no other hazardous waste; and (3) sufficiently neutralize the corrosive waste rapidly so that there is no potential for migration of hazardous waste from the impoundment. Neutralization surface impoundments present such minimal risk of groundwater and surface water contamination that it may be unnecessary to require such facilities to comply with the full set of technical standards necessary for other facilities.

However, the Agency is currently studying the environmental effects of burning by conducting tests of stack emissions and doing other research. The Agency expects to complete this research during 1983 and propose appropriate regulations in 1984. CONSOLIDATED PERMITS: MINOR MODIFICATIONS TO EXISTING RCRA PERMITS

Legal Authority: 42 USC 6925 RCRA

CFR Citation: 40 CFR 122.17

Abstract: Existing regulations allow EPA to make specified minor modifications to existing RCRA permits without going through the draft permit and public participation procedures required to make more substantial changes to permits. Under the settlement agreement in NRDC v EPA, EPA is proposing an amendment which would expand the kinds of permit modifications that qualify as minor modifications and thus are exempt from most procedural requirements.

Legal Authority: 42 USC 6925 RCRA; 42 USC 6926 RCRA

CFR Citation: 40 CFR 122.9; 40 CFR 123; 40 CFR 264

Abstract: Existing EPA regulations provide that EPA-issued permits for hazardous waste treatment, storage and disposal facilities are effective for a fixed term not to exceed ten years. Under the settlement agreement in NRDC v EPA, EPA proposes to revise this regulation by making permits effective for the designed operating life of the facility. Permit terms for land disposal facilities would include the post-closure care period

as well. EPA would also increase opportunities for the Agency to modify permits during their term. EPA will also propose to amend State program requirements to allow authorized States to adopt similar standards to vary the duration of permits.

CLEAN AIR ACT

●COMPLIANCE WITH THE STATUTORY PROVISIONS OF PART D OF THE CLEAN AIR ACT

Legal Authority: 42 USC 7407 CAA; 42 USC 7410 CAA; 42 USC 7405 CAA; 42 USC 7501-8 CAA; 42 USC 7601 CAA; 42 USC 7616 CAA

CFR Citation: 40 CFR 52

Abstract: The Clean Air Act (CAA) requires that states institute plans to attain the primary ambient air quality standards by December 31, 1982. In certain cases, extensions were granted for ozone and carbon monoxide standards. States receiving such an extension were required to submit revised 1982 plans demonstrating attainment by December 31, 1987. The Agency has proposed to impose the statutory consequences (construction moratorium and possible funding sanctions) for: (1) areas not able to demonstrate attainment of the primary standards by December 31, 1982; (2) areas whose post-1982 attainment plans are inadequate; and (3) areas which have failed to meet other statutory provisions of Part D of the Act.

CFR Citation: 40 CFR 61

Abstract: EPA is developing standards under Section 112 of the Clean Air Act for stationary sources of inorganic arsenic emissions. As a result of an order by the U.S. District Court for the Southern District of New York these standards must be proposed by July 12, 1983. The nine source categories the Agency has identified are: high arsenic primary copper smelters, low arsenic primary copper smelters, glass manufacturing plants, primary lead smelters, secondary lead smelters, primary zinc smelters, zinc oxide production plants, cotton gins, and arsenic chemical manufacturing plants. This review affects glass manufacturing plants that use arsenic in the manufacturing process and cotton gins that produce cotton that has been dried with material containing arsenic only.

NESHAPS: BENZENE FUGITIVE EMISSIONS

Legal Authority: 42 USC 7412 CAA

CFR Citation: 40 CFR 61 J

Abstract: This regulation would limit benzene emissions from fugitive emission sources in new and existing petroleum refineries and organic chemical manufacturing plants. The standards would allow no detectable emissions due to leaks from safety/relief valves and product accumulator vessels. The standards would also require a leak detection and repair program for pipeline valves and pumps, and would require certain equipment for compressors, sampling connections, and open-ended valves.

●REVISIONS TO "GUIDELINE ON AIR QUALITY MODELS"

Legal Authority: CAA Sec 165(e)

CFR Citation: 40 CFR 51.24(1); 40 CFR 52.21(m)

Abstract: This action proposes to revise the "Guideline on Air Quality Models" (issued in April 1978) to reflect changes to the state-of-the-science of modeling and changes to current practice and policies. Revisions to the Guideline were developed in 1980 and public hearings were held. Based on public comments, EPA has conducted studies to resolve some issues. Additional evaluation studies of models, suggested by commenters and performed in accordance with the recommendations of the American Meteorological Society, are underway. Early results of both are now available and should become part of EPA's guidance. The revised guideline should greatly reduce inconsistencies in the development and revision of emission limitations and in the determination of PSD increment consumption. New modeling procedures allow potentially greater accuracy in

modeling results and the attainment of clean air goals at less cost.

FUEL ECONOMY LABELING AND DATA BASE REVISIONS

Legal Authority: 15 USC 2003 EPCA

CFR Citation: 40 CFR 600

Abstract: This action amends Part 600 to require labels to: (1) distinguish among designs that affect fuel economy; (2) change during the model year if design changes reduce fuel economy by one mile per gallon or more; (3) reflect fuel economy performance for highway driving; and (4) reflect fuel economy values as adjusted for the average differences between laboratory and in-use performance measures. EPA is also amending Part 600 to allow better use of test data in accounting for untested vehicle designs and improve the representative data used to calculate fuel economy values.

DESIGNATION OF HAZARDOUS SUBSTANCES

Legal Authority: 42 USC 9602 CERCLA

CFR Citation: 40 CFR 302

Abstract: Section 102 of the Act requires EPA to designate hazardous substances which may present substantial danger to the public health or welfare or the environment if released into the environment. EPA is developing this regulation to supplement the lists of hazardous substances already developed under CWA 307, 311, RCRA 3001, CAA 112, and TSCA 7.

EMISSIONS TRADING POLICY

Legal Authority: 42 USC 7503 CAA

CFR Citation: Not applicable

Abstract: EPA is developing emissions trading policy guidance governing the use of the bubble, emission offsets netting, and emission reduction banking. This policy guidance and accompanying Technical Issues Document will provide states with a framework for incorporating emissions trading activities into their state implementation plans. Through the use of emissions trading industy can substitute more controls where costs are low for less control where costs are high. This policy statement contains simplified administrative procedures and significantly expands opportunities for state and industry to use emissions trading. It takes the place of the previously announced banking regulation and incorporates EPA's recently proposed changes to its Bubble Policy.

GROUNDWATER MONITORING

Priority: Task Force

Legal Authority: 42 USC 6921 et seq RCRA

CFR Citation: 40 CFR 265

Abstract: At the request of the President's Task Force on Regulatory Relief, EPA is reviewing the interim status groundwater monitoring requirements for hazardous waste facilities that manage wastes in surface impoundments, in landfills or through land treatment. One purpose of this review is to determine whether the groundwater monitoring procedures succeed in identifying which facilities are adversely affecting groundwater. Another purpose is to review how useful the data is for EPA and other agencies. EPA will determine whether the resource burdens imposed on these facilities are justified by the expected benefits of the monitoring program.

CLEAN AIR ACT

NSPS: CLAUS SULFUR RECOVERY PLANTS

Legal Authority: 42 USC 7411 CAA

CFR Citation: 40 CFR 60 Subpart J

Abstract: EPA is reviewing this standard to determine whether revisions are warranted. The review will assess performance and costs of control systems and economic and technological developments in the industry. The existing rule exempts plants that produce 20 long tons or less of sulfur a day. EPA will issue a notice in the Federal Register announcing the results of its review.

RULES OF PRACTICE GOVERNING HEARINGS

Legal Authority: 7 USC 136 FIFRA

CFR Citation: 40 CFR 164

Abstract: Whenever it appears that the risks of using a pesticide outweigh the benefits of its use, FIFRA allows the Agency to refuse to register the pesticide or to remove it from the market through formal adjuticatory hearings. Such hearings examine the risks and the benefits of a pesticide's use, and the outcome can have significant effects on pesticide producers, users, and the public health. EPA will review the rule describing the procedures by which such hearings are conducted.

Semiannual Regulatory Agenda

EEOC

EQUAL EMPLOYMENT OPPORTUNITY COMMISSION

29 CFR Ch. XIV

Semiannual Regulatory Agenda

AGENCY: Equal Employment Opportunity Commission.

ACTION: Semiannual Regulatory Agenda.

SUMMARY: This semiannual regulatory agenda is published in accordance with the requirements of Executive Order 12291 (46 FR 13193, February 19, 1981) and the Regulatory Flexibility Act of 1980 (5 U.S.C. 601 *et seq.*). The agenda lists those guidelines which have been designated for review by the Presidential Task Force on Regulatory Relief under Section 3(i) of the Executive Order; proposed guidelines and regulations, or their amendments and revisions, that have been noticed in the Federal Register for public comment; the need and legal basis for the actions being considered; the name and telephone number of a knowledgeable official, and the status of items previously reported; and a list of proposed guidelines and regulations, or their amendments and revisions, currently being developed or under consideration for development. An assessment of EEOC's regulations under review and development shows that only one of the proposed regulations, so identified in this agenda, is likely to fall within the Executive Order's definition of a major rule. In addition, two proposed regulatory actions, so identified in this agenda, are likely to be subject to the Regulatory Flexibility Act requirements. These two items are published here to particularly allow interested small entities a meaningful and early opportunity to comment and participate in all stages of Commission regulatory development.

EQUAL EMPLOYMENT OPPORTUNITY COMMISSION (EEOC) — Current and Projected Rulemakings

COLLECTION OF APPLICANT DATA FOR AFFIRMATIVE ACTION PURPOSES.

Priority: Undetermined

Legal Authority: 29 USC 791 Rehabilitation Act of 1973, as amended

CFR Citation: 29 CFR 1613.706

Abstract: This amendment permits federal agencies to collect handicap information from applicants for employment in order to implement and evaluate special recruitment programs undertaken for affirmative action purposes. Implementation of the final regulation is dependent on the development of an interagency report form which is in the process of being developed by OPM with the approval of OMB.

RECORDKEEPING REGULATIONS.

Legal Authority: 42 USC 2000e et seq Title VII of the Civil Rights Act of 1964

CFR Citation: 29 CFR 1602

Abstract: The Commission proposes to revise its recordkeeping regulations to require certain employers and labor unions to maintain lists of applicants for employment and to retain employment records for two years or until termination of a commission or court processing. The Commission is considering further revisions to the proposed amendments pending completion of a study on the feasibility of a uniform government-wide equal opportunity recordkeeping regulation.

CFR Citation: 29 CFR 1607

Abstract: The guidelines, issued pursuant to Title VII of the Civil Rights Act of 1964, provide a uniform set of principles for all employers to assure that their selection procedures do not discriminate on the basis of race, color, religion, sex or national origin. Final Guidelines were published in 43 FR 38290 on Aug. 25, 1978, and became effective on September 25, 1978. A survey designed to assess the practical utility of the guidelines' recordkeeping requirements was sent to the Office of Management and Budget for clearance on February 26, 1982. In May, 1982, the OMB disapproved the survey as being unnecessary and recommended the holding of a public hearing in order to obtain views on practical utility and reasonableness of the recordkeeping requirements. Accordingly, the Commission will determine appropriate action.

Federal Emergency Management Agency

Semi-Annual Agenda

FEMA

FEDERAL EMERGENCY MANAGEMENT AGENCY

44 CFR Ch. I

Semianpual Agenda

AGENCY: Federal Emergency Management Agency (FEMA).

ACTION: Semiannual Agenda.

SUMMARY: Pursuant to section 5 of Executive Order 12291 ("Federal Regulations") the Federal Emergency Management Agency is publishing its semiannual agenda for FEMA. The agenda lists regulations that will be under development or review during the period April 1, 1983 to April 1, 1984.

ADDRESS: Docket Clerk, Office of General Counsel, Room 835, 500 C Street, SW, Washington DC 20472.

FOR FURTHER INFORMATION CONTACT: For general information contact William L. Harding, Assistant General Counsel, Legislation and Regulations, Office of General Counsel, Federal Emergency Management Agency, Washington, DC 20472 (202) 287-0377. For additional information about a specific regulation contact the person listed as the contact point in the agenda.

SUPPLEMENTARY INFORMATION: Executive Order 12291, "Federal Regulations," (46 FR 13193) directs each Executive agency to adopt procedures to improve existing and future regulations. Publication of an agenda of significant regulations is called for at least semi-annually in order to give the public adequate notice of agency rulemaking activities; also publication of a regulatory flexibility agenda concerning rules likely to have a significant impact on a substantial number of small entities must be published in accordance with 5 U.S.C. 602 and 605.

In fulfillment of requirements imposed by the Executive Order and 5 U.S.C. 601, *et seq.*, this agenda describes current and projected regulations, and regulations which will be under review during the period April 1, 1983 to April 1, 1984. This agenda also contains information on regulations on which action was completed since the last FEMA semi-annual agenda published October 28, 1982 at 47 FR 48782.

Public comment on the agenda, including that by State and local governments, is invited and should be submitted to the Rules Docket Clerk.

The agenda is not limited to major or significant rules and contains as much information as possible concerning all FEMA regulations to be published in the next 12 months except for routine flood elevation determinations, listing of eligible communities under the National Flood Insurance Program, listing of suspended communities and similar designations.

DATED: March 1, 1983.

George Jett,

General Counsel.

NONDISCRIMINATION IN FEDERALLY-ASSISTED PROGRAMS

Legal Authority: 42 USC 2000d-1; 20 USC 1978; 29 USC 6101; Reorganization Plan No. 3 of 1978; EO 12127; EO 12148

CFR Citation: 44 CFR 7

Abstract: This rule effectuates for FEMA the nondiscrimination requirements of Title VI of the Civil Rights Act of 1964, section 504 of the Rehabilitation Act of 1975, Title IX of the Education Amendments of 1972, and section 311 of the Disaster Relief Act of 1974. A draft regulation is undergoing interagency review. The Notice of proposed rulemaking will be issued as soon as interagency clearances are obtained.

Legal Authority: 42 USC 4001 et seq

CFR Citation: 44 CFR 59; 44 CFR 64; 44 CFR 65; 44 CFR 67; 44 CFR 70

Abstract: This would reduce page volume by eliminating publication in the FEDERAL REGISTER as rules of a number of lists of communities eligible for increased coverage under the regular program, lists of areas designated with minimal or no special flood hazard areas, lists of effective or withdrawn flood hazard boundary maps, and letters of map amendment for flood insurance rate maps. The form of Part 67 notices changed to reduce volume. Changed format of final notices of flood elevation determinations effective 01/15/83. No regulation change required to effect format change though rule related notice was published. No comments received consequent to August 4, 1982 notice of intent on format changes.

NATIONAL FLOOD INSURANCE PROGRAM FLOOD PLAIN MANAGEMENT CRITERIA FOR FLOOD-PRONE AREAS (44 CFR 60)

Legal Authority: 42 USC 4001 et seq

CFR Citation: 44 CFR 59; 44 CFR 60

Abstract: The Federal Emergency Management Agency (FEMA) proposes to revise the minimum flood plain management standards for community participation in the National Flood Insurance Program (NFIP). To be eligible for the sale of flood insurance, communities are required to adopt local flood plain management measures which meet these minimum standards. FEMA requests comments from interested persons on how to improve the efficiency of the NFIP while maintaining the effectiveness of these minimum standards in reducing flood losses. Comments are sought especially on the treatment of mobile homes, clarification of terms used in the NFIP regulations, how alluvial fan flooding should be addressed, and on ways in which to increase State involvement in flood plain management efforts.

Legal Authority: PL 85-804; 50 USC 1431 to 1434; EO 10789

CFR Citation: 41 CFR 44-17.100 to 17.505

Abstract: To implement provisions of PL 85-804, 50 USC 1431 et seq. and provide extraordinary contractual relief where such relief will facilitate the national defense. This regulation sets forth procedures whereby FEMA may grant such relief, shows what items of proof are needed. The regulation provides for modification of contracts without consideration, correction of mistakes, advance payments, indemnification for extraordinarily hazardous or nuclear risks where the agency believes such remedies will facilitate the national defense and where ordinary contractual procedures are not adequate to meet the agency's needs.

Unified Agenda of Federal Regulations

AGENCY: Federal Mediation and Conciliation Service

ACTION: Semiannual agenda required by the Regulatory Flexibility Act of 1980.

SUMMARY: The Federal Mediation and Conciliation Service is considering the rewriting of one regulation subject to the Regulatory Flexibility Act during the six month period from April 1983 to October 1983. That regulation is Arbitration Policy and Practice.

FOR FURTHER INFORMATION CONTACT: Daniel P. Dozier, Associate General Counsel, 2100 K Street, N.W., Washington, DC, 20427, 202/653–5305.

Review of Existing Arbitration Regulation

The Federal Mediation and Conciliation Service is considering whether to rewrite its existing Arbitration Services regulation at 29 CFR Part 1404. The Service will decide whether to rewrite these rules by September 1983. If the Service does rewrite the regulation, a Notice of Proposed Rulemaking would be published and public comments solicited. There will be no impact on small business. The authorizations to promulgate Part 1404 are pursuant to Section 202, 61 Stat. 153 as amended; 29 U.S.C. 172, and interpret or apply sec. 3, 80 Stat. 250, sec. 203, 61 Stat. 153; 5 U.S.C. 552, 29 U.S.C. 173.

●PUBLIC BENEFIT DISPOSALS

Legal Authority: 40 USC 486(c)

CFR Citation: 41 CFR 101-47.308-4; 41 CFR 101-47.308-7

Abstract: Current regulations describing the procedures for the disposal of surplus real property for educational or public health purposes contain references to the former Department of Health, Education, and Welfare (HEW). The elimination of HEW and the concurrent reorganization which created the Department of Education and the Department of Health and Human Services necessitates a revision of the regulations. Also, the revision serves to clarify procedures applicable to the disposal of surplus real property for public benefit purposes.

●DELETION OF COVENANT AGAINST CONTINGENCY FEES

Legal Authority: 40 USC 486(c)

CFR Citation: 41 CFR 101-47.315

Abstract: The Federal Property Management Regulation 101-45.313 requires that the purchaser of surplus property warrant that he has not paid a contingent fee or commission to someone other than a full time employee or an agency regularly maintained by the purchaser. Under this regulation, a potential purchaser is barred from paying a real estate broker or anyone else a commission in connection with any one-time purchase of Government-owned surplus real property. The Office of General Counsel advises that no statutory requirement can be found for this regulation and its deletion will facilitate the sale of surplus real properties. This action deletes the convenant against contingent fees, section 101-47.315.

●ADDITION OF CONCURRENT 30-DAY FEDERAL AGENCY AND PUBLIC USE SCREENING REQUIREMENT

Legal Authority: 40 USC 486(c)

CFR Citation: 41 CFR 101-47.203-5(b)

Abstract: In the past, screening of surplus Federal properties with the Federal agencies that sponsor public benefit uses occurred at the same time as screening with local public bodies for such uses and subsequent to the screening of property at the excess stage for direct use by Federal agencies. Addition of section 101-47.203-5(b) will provide for

concurrent screening of properties for direct use by Federal agencies and for public benefit uses sponsored by Federal agencies. This change will expedite the disposal process by eliminating screening in cases where no potential for public benefit use is indicated by sponsoring Federal agencies.

Abstract: This rule updates GSA's policies and procedures concerning the Federal surplus personal property donation program. It would: (1) prescribe new and revised definitions; (2) implement Title IX of the Education Amendments of 1972; (3) change procedures for donating aircraft, drugs, biologicals, and reagents; (4) clarify cannibalization procedures; (5) add additional terms to the State agency distribution documents; (6) clarify that conditional title, not unrestricted title, passes to a donee at the time it takes possession of the property; (7) prohibit reimbursement to State agencies for certain sales expenses; (8) change reporting requirements; (9) establish an informal appeals procedure; and (10) revise eligibility criteria for educational activities. This amendment is necessary to comply with the provisions of Title IX of the Education Amendments of 1972, section 502(a) of Public Law 94-241, and the Congressional Reports Elimination Act of 1980 (Public Law 96-470). Its intent is to increase the efficiency and effectiveness of the donation program. There should be no significant costs to the public as a result of this regulatory action. SILVER RECOVERY PROGRAM

Legal Authority: 40 USC 486(c)

CFR Citation: 41 CFR 101-42; 41 CFR 101-45

Abstract: This regulation transfers FPMR Part 101-42 and Part 101-45 and amends redesignated Subpart 101-45.9 to require each agency having activities that generate silver or other precious metals (including used Hypo-solution and scrap film) to recover it and submit a semiannual report to GSA. It further provides expanded civil agency participation in the Defense Precious Metals Recovery Program. These changes are made as a result of a General Accounting Office report PLRD-81-48, July 31, 1981, entitled "Civil Agencies should Save Millions by Recovering Silver from Photographic Waste." The report recommends that precious metals recovery be a mandatory requirement for all civil agencies regardless of the amount generated. We expect that the benefits of making silver recovery mandatory on Federal agencies will outweigh the costs incurred.

Abstract: GSA obtains increased proceeds from the sale of selected vehicles from the Interagency Motor Pool by reconditioning their appearance prior to sale. This proposed amendment will require civil agencies to appearance-recondition selected vehicles prior to reporting them to GSA for sales action. Increased proceeds should accrue from the sale of those vehicles receiving this cosmetic reconditioning.

GUIDELINES FOR SELLING SMALL LOTS OF SURPLUS PERSONAL PROPERTY

Legal Authority: 40 USC 484 (203(b))

CFR Citation: 41 CFR 101-45.304-3

Abstract: Section 101-45.304-3 prescribes selling procedures and will be expanded to cover more detailed instructions since Section 101-45.105-3 now permits holding agencies, after notification to the appropriate GSA regional office, to sell small lots of personal property where the estimated proceeds from a sale will not exceed $1,000. This dollar limitation raise has resulted in holding agencies conducting more small lot sales. This proposed amendment provides holding agencies detailed instructions for conducting these sales.

RECORDS MANAGEMENT--INTEGRATIONS OF WORK PROCESSING PROVISIONS INTO AUTOMATED INFORMATION RESOURCES MANAGEMENT

Legal Authority: 40 USC 486(c)

CFR Citation: 41 CFR 101-11.9; 41 CFR 101-35.2; 41 CFR 1-4.11

Abstract: This project will review FPMR Part 101-11 to determine the extent to which existing provisions should be integrated into the consolidated information resource management regulations. Initial efforts will be related to requirements analyses in the office automation area. Other areas will include management of current Federal records, standard and optional forms, interagency reports, and copying equipment management. This project involves only Subpart 101-11.9. Temporary regulations to both the FPR and FPMR, as well as an FPMR guidance bulletin, will be issued.

METHYLENE BLUE TESTING

Legal Authority: 40 USC 486(c)

CFR Citation: 41 CFR 101-11.506-3

Abstract: Regulations concerning microforms of permanent records where the original will be disposed of require that microforms shall be processed so that the residual thiosulfate ion concentration will not exceed 0.7 microgram per square centimeter in a clear area. Agencies must meet this requirement by either performing the methylene blue test or using commercial testing services in accordance with specifications in ANSI PH4.8-1978. The reimbursable methylene blue testing service provided by GSA is no longer self-supporting because the salary costs alone are greater than the income derived from the testing service. Since the service is available from commerical sources, it is not cost-effective for GSA to maintain this service. This regulation deletes the requirement that agencies obtain methylene blue testing service from GSA when the agencies do not have their own facilities for testing.

DECLASSIFICATION AND PUBLIC ACCESS TO NATIONAL SECURITY INFORMATION

Legal Authority: 40 USC 486(c)

CFR Citation: 41 CFR 101-11.3a

Abstract: This rule will revise the procedures for the declassification of and public access to national security information in the legal custody or under the declassification jurisdiction of the National Archives and Records Service (NARS). This revision is required by the signing of Executive Order 12356 of April 2, 1982 (National Security Information) and the issuance of the Information Security Oversight Directive Number 1 of June 22, 1982. This rule will affect the process for the mandatory declassification review of classified records by NARS.

CFR Citation: 41 CFR 105-61.101; 41 CFR 105-61.102

Abstract: These proposed changes impact on the use of microfilm reading rooms only, and clarify the legal status of records in Federal records centers that have not been transferred to the National Archives of the United States. Researchers using microfilm records, but not textual records, in microfilm reading rooms that are physically separate from textual research rooms would no longer be required to obtain research identification cards. Microfilm reading room attendants will assist researchers to identify rolls containing desired information, but the researcher will be responsible for locating the designated roll. The use of microfilm readers may be restricted to ensure equitable availability of equipment.

NONDISCRIMINATION IN FEDERALLY ASSISTED PROGRAMS

Legal Authority: Title VI of the Civil Rights Act of 1964; Section 504 of the Rehabilitation Act of 1973; Title IX of the Education Amendments of 1972, as amended; Sec 606 of the Fed Property & Admin Service Act of 1949

CFR Citation: 41 CFR 101-8

Abstract: The General Services Administration proposes this regulation to implement all of the above cited Federal laws. These statutes prohibit discrimination, in whole or in part, so that no person in the United States shall on the grounds of race, color, national origin, handicap, sex, or age be excluded from participation in, be denied the benefits of, or be subject to discrimination under any program or activity receiving Federal assistance from the General Services Administration. In addition, the objectives of the regulation are to streamline certain administrative procedural requirements by consolidating prohibitions of discrimination into one regulation and to make requirements clear and convenient for applicants and recipients to comply with, as well as making the regulation manageable for GSA to administer. This approach permits us to retain the substance of the prohibitions against discrimination, while reducing the cost of implementing and enforcing separate regulations for each of the four distinct laws for preventing discrimination.

REVISION OF U.S. GOVERNMENT BILL OF LADING STANDARD FORMS

Legal Authority: 40 USC 486(c); 31 USC 3726

CFR Citation: 41 CFR 101-41

Abstract: This amendment prescribes the use of revised SF 1103, U.S. Government Bill of Lading (GBL); SF 1109, U.S. GBL Continuation Sheet, and SF 1131, U.S. Government Transit Bill of Lading. These revisions will make these transportation documents more efficient and more responsive to data information systems. To accomplish the provisions of this directive, there will be an outlay of resources by GSA to print the forms but this expenditure will be offset by income derived from purchases of these forms by other Federal agencies. The amendment will have no impact on the public.

DEPARTMENT OF DEFENSE RESERVIST/RETIREE MILITARY EMERGENCY TRAVEL WARRANT

Legal Authority: 31 USC 3726; 40 USC 486(c)

CFR Citation: 41 CFR 101-41

Abstract: This regulation provides for the procurement of passenger transportation services and billing and payment for such services in connection with the DOD Reservist/Retiree Military Emergency Travel Warrant system. During periods of national emergency, the DOD will use travel warrants as an exception to U.S. Government Transportation Requests (GTR) to obtain transportation for selected military reservists and retirees who are ordered to active duty with the armed forces of the United States. The travel warrant will be included in a DOD Mobilization Order which will be sent to the member's home by Western Union Mailgram. Use of this system will simplify and expedite the procurement of transportation for the military member. No additional resources are required for GSA to accomplish the provisions of this directive. The rule changes do not impose any additional burdens on the Government or the public since the travel warrant will be used instead of the GTR.

USE OF CASH TO PROCURE PASSENGER TRANSPORTATION SERVICES COSTING MORE THAN $100

Legal Authority: 31 USC 3726; 40 USC 486 (c)

CFR Citation: 41 CFR 101-41

Abstract: This regulation amends the Federal Property Management Regulations to grant agency heads or their designated representatives authority to approve emergency cash purchases of passenger transportation services exceeding $100 instead of using SF 1169, U.S. Government Transportation Request. This amendment will eliminate the requirement for agencies to request a written exemption from the Administrator of General Services for the emergency cash purchase of transportation services exceeding $100. Removing this restriction will reduce the administrative burden on Federal agency heads and GSA.

Legal Authority: 31 USC 3726; 40 USC 486(c)

CFR Citation: 41 CFR 101-41

Abstract: The proposed regulation would permit the use of a facsimile signature of the

carrier's certifying official on the "Payee's Certificate" of the Public Voucher for Transportation Charges, SF 1113, without the requirement that such signatures be initialed by duly authorized persons. The intent of this proposal is to reduce the time and cost to the carriers and to facilitate carrier preparation of the SF 1113. No additional resources are required for GSA to accomplish the provisions of this directive. The proposed amendment will impose little or no additional burden on agencies and the GSA. Eliminating the need to initial the facsimile signature will benefit the public.

ADJUSTMENTS FOR UNFURNISHED SERVICES, UNUSED TICKET REFUND PROCEDURES, AND COMMERCIAL FORMS AND PROCEDURES

Legal Authority: 31 USC 3726; 40 USC 486 (c)

CFR Citation: 41 CFR 101-41

Abstract: This regulation revises the types of adjustments for unused transportation services to include "any other negotiable instrument." It will prohibit carriers from issuing any negotiable document to Government travelers. It will result in the issue of refund applications in accordance with proper ticket refund procedures. It amends and clarifies agency accounting actions when outstanding refunds are referred to GSA permitting agencies to remove such debts from their active accounts. It also revises procedures governing the use of commercial forms and procedures by relaxing monetary limitations on single- and multi-parcel shipments via certain modes. These stated revisions will reduce paperwork and certain costs in connection with related administrative procedures.

Abstract: This regulation revises procedures for collecting carrier refunds of unused tickets. It provides for carriers to refund to the Government the value of expired unused tickets for which no SF 1170's have been received. Carriers will be reimbursed if, after an initial ticket refund to GSA, a ticket is subsequently used for transportation or a second refund is made using an SF 1170. VENDING STANDS OPERATED BY BLIND PERSONS

Legal Authority: PL 93-516

CFR Citation: 41 CFR 101-20.2

Abstract: Update the subpart to reflect the priorities and newly authorized provisions granted licensed blind vendors in GSA-controlled buildings by the Randolph-Sheppard Act Amendments of 1974 (Pub. L. 93-516). Some specific provisions to be revised are the threshold criteria, site selection, notification procedure, sale of State lottery tickets, change of title from Department of Health, Education, and Welfare to read "Department of Education," inclusion of agency policy regarding renovation of existing facilities, emphasis on assignment of vending machines to State licensing agencies (SLA), permits, operation of cafeterias by blind vendors, and reports. The continued implementation of the Randolph-Sheppard Act in GSA-controlled buildings will not be of any significant increase in cost to the agency. The benefits, however, are significant. While the provision of essential services to Government employees are expanded and improved, the primary goal of the act, to provide remunerative employment for blind persons, is enhanced.

In view of todays inflated property values, the $1,000 disposal limitation does not delegate any meaningful authority as a practical matter. PART 101-26--PROCUREMENT SOURCES AND PROGRAMS

Legal Authority: 40 USC 486(c)

CFR Citation: 41 CFR 101-26

Abstract: Part 101-26 prescribes policies and procedures that govern the procurement of personal property and nonpersonal services by Federal agencies from or through GSA supply sources. A number of executive agencies have indicated that the current policies and procedures in this part need to be revised to clarify the content, eliminate duplication, and remove obstacles to satisfying requirements for these types of items. Representatives from the major executive agencies are currently developing a revised draft of this part that will be designed to more adequately meet their needs.

●WAIVER FROM USE OF GSA SUPPLY SOURCES

Legal Authority: 40 USC 486(c)

CFR Citation: 41 CFR 101-26.100-2; 41 CFR 101-26.102-1(a); 41 CFR 101-26.301(b); 41 CFR 101-26.401-3; 41 CFR 101-26.501(b); 41 CFR 101-26.505-3

Abstract: The Office of Federal Supply and Services (FSS) has submitted legislation to Congress to effect "Full Cost Pricing" and its companion "Industrial Funding." This legislation will permit FSS, for the first time, to charge customers for the purchase price of commodities and all direct and indirect costs associated with providing the goods or services. The legislation also makes FSS the mandatory source of supplies and services for items under its control. This proposed FPMR Temporary Regulation will establish parameters for agencies that consider it necessary to obtain a product from a non-GSA supply source. A request for waiver shall be based on either of two criteria: (1) Unforeseen urgency does not permit the application of the normal GSA supply source processing time or (2) a fully suitable product is available from a non-contract source at a lower total cost to the Government. This temporary regulation is intended to stimulate competition within the Federal community and force FSS to maintain price competitiveness, thereby achieving overall greater savings to the Government.

PROCEDURES FOR TRANSFER OF RECORDS TO A FEDERAL RECORDS CENTER

Legal Authority: 40 USC 486(c); 44 USC 2907

CFR Citation: 41 CFR 101-11.410-2

Abstract: Currently, all records with a final disposition approved by the National Archives are accepted for storage at the Federal records centers (FRC's). FRC's have been required to contact agencies repeatedly concerning those records series whose disposal is contingent on an event which occurs at unspecified intervals. In addition, FRC's have accepted records having a retention period of as little as one year, and records eligible for disposal but required to be retained under the provisions of agency-imposed and court-ordered freezes. Because of budget reductions and space problems the accessioning policy requires some changes. This regulation requires authorization from the Office of Federal Records Centers prior to retiring records without an established date of disposition to FRC's, and eliminates the acceptance of records, otherwise eligible for disposal, that must be retained as a result of agency or court-ordered freezes.

REVIEW OF FEDERAL PROPERTY MANAGEMENT REGULATIONS (SEE ADDITIONAL INFORMATION)

Legal Authority: 40 USC 486(c)

CFR Citation: 41 CFR Chapter 101

Abstract: GSA proposes to undertake a comprehensive review of its Federal Property Management Regulations (FPMR), which cover Parts 101-1 through 101-49 of Title 41. FPMR generally provide policies and procedures for agencies to manage their real and personal property. Internal GSA reorganizations, shifts of policy emphasis, and the development of new technologies have caused us to question whether the FPMR, as presently written, are effective in meeting the needs of agencies and the public. We will solicit comments from agencies and the public concerning areas that we should review.

U.S. GOVERNMENT BILL OF LADING CORRECTION NOTICE, SF 1200

Legal Authority: 31 USC 3726; 40 USC 486(c)

CFR Citation: 41 CFR 101-41

Abstract: This regulation amends Part 101-41 by introducing a new Standard Form 1200, that will be used to correct or amend U.S. Government Bill of Lading (GBL),; and GBL-Privately Owned Personal Property, SF 1203. The new form establishes a uniform correction document to replace the individual agency-oriented correction forms currently used. With respect to the manner in which GSA will accomplish the provisions of this directive, there will be an outlay of funds for producing this form but the outlay will be offset by income from its sale. The proposed amendment will not impose any new burden on agencies and GSA when correcting or amending GBL's. It will eliminate unnecessary duplication of forms, simplify and standardize documentation procedures, and permit dollar savings to the Government by reducing the number of forms that must be stocked and processed by Federal agencies.

INTERNATIONAL DEVELOPMENT COOPERATION AGENCY

Agency for International Development

22 CFR Ch. II

Federal Regulations; Agency Regulatory Agenda Semiannual Summary

AGENCY: Agency for International Development, IDCA.

ACTION: Agency Regulations Agenda.

SUMMARY: The Agency for International Development (A.I.D.) is publishing this Agenda as required by Section 5(a) of Executive Order 12291, Federal Regulation (46 FR 13193, February 18, 1981) and by the Regulatory Flexibility Act (Pub. L. 96-354, September 30, 1980). This Agenda reports the status of those regulations currently under review and gives A.I.D.'s plan for the issuance of proposed regulations during the next twelve months. It is expected that the information provided in this Agenda will enable the public to be more aware of, and more effectively participate in A.I.D.'s rulemaking process.

FOR FURTHER INFORMATION CONTACT:

General

For further information on the Agenda or the Review list, in general, Contact: Mr. Joseph R. Ellis, Office of Management Planning, Agency for International Development, Washington, D.C. 20523, Telephone (202) 632-2862.

Specific

For further information about any particular item on the Agenda, contact the individual listed as the contact for that item.

Regulatory Flexibility Act (RFA)

The Agency does not have any rulemaking activity that falls within the requirements of RFA and does not anticipate any during the next reporting period.

R. T. Rollis, Jr.,

Assistant to the Administrator for Management.

INTERNATIONAL DEVELOPMENT COOPERATION AGENCY (IDCA) — Existing Regulations Under Review

NON-DISCRIMINATION IN FEDERALLY ASSISTED PROGRAMS OF THE AGENCY FOR INTERNATIONAL DEVELOPMENT, — EFFECTUATION OF TITLE VI OF THE CIVIL RIGHTS ACT OF 1964

Legal Authority: 22 USC 2402

CFR Citation: 22 CFR 209

Abstract: The regulation will address the problem of discrimination on the basis of race, color, or national origin in any program or activity receiving assistance from the Agency for International Development. The regulation provides that no person in the United States on the ground of race, color or national origin, be excluded from participation in, be denied the benefits of or be subjected to discrimination under any program or activity receiving Federal financial assistance from AID. The regulation provides procedures for 1) assuring that such discrimination does not occur and 2) effecting compliance. The Agency is not considering any alternatives for addressing the problem. There will be some minor costs in administering the regulation; there are potential benefits to individuals who might otherwise be discriminated against.

OMB

OFFICE OF MANAGEMENT AND BUDGET

5 CFR Ch. III

Federal Regulations; OMB Directives Included in the Semiannual Agenda of Upcoming Activities

AGENCY: Office of Management and Budget.

ACTION: Publication of Semiannual Agenda.

SUMMARY: The Office of Management and Budget is publishing its semiannual agenda of upcoming activities on OMB rules, Circulars, and Federal Procurement Policy letters. This action is in accordance with OMB's internal procedures for implementing Executive Order No. 12291. OMB directives are issued under authority derived from several sources including: the Budget and Accounting Act of 1921, the Budget and Accounting Procedures Act of 1950, Executive Order No. 11541, and other specific authority as cited. The agenda includes actions on issuances which are not regulations, but which are of public interest.

OMB Circulars and OFPP Policy Letters are directives that communicate significant government-wide policy of a continuing nature. For purposes of this agenda, we have included Circulars and Policy Letters which are designed to implement, interpret, or prescribe law or policy or describe the procedure or practice requirements of an agency. Excluded are directives that outline procedures to be followed in connection with the President's budget and legislative programs and directives that affect only the internal functions, management or personnel of Federal agencies.

OMB, in coordination with agency Assistant Secretaries for Management, is currently conducting a review of all OMB Circulars presently in effect, as part of the Reform 88 initiative. That review is being conducted in addition to the specific actions listed in this agenda. As additional actions result from that review, they will be included in future agendas.

FOR FURTHER INFORMATION CONTACT: See agency person listed for each entry in the agenda, c/o Office of Management and Budget, Washington, D.C. 20503. On the overall agenda, contact Candice C. Bryant at the above address.

Candice C. Bryant,

Acting Deputy Associate Director for Administration.

CONTROLLING PAPERWORK BURDENS ON THE PUBLIC (CIRCULAR NO. A-40)

Legal Authority: 44 USC 3516 Paperwork Reduction Act of 1980; See preamble

CFR Citation: 5 CFR 1320

Abstract: This proposed rule establishes policies and procedures for controlling paperwork burdens imposed on the public by Federal agencies. Among significant issues dealt with in the rule are: coverage and OMB authorities; public protection from complying with Federal collection of information not approved by OMB; public access and participation; and agency procedures for obtaining OMB approval. The rule will supersede OMB Circular No. A-40, dated May 3, 1973.

POLICIES FOR ACQUIRING COMMERCIAL AND INDUSTRIAL PRODUCTS AND SERVICES FOR GOVERNMENT USE (CIRCULAR NO. A-76)

Legal Authority: PL 93-400; See preamble

CFR Citation: Not applicable

Abstract: This change is intended to simplify the policy and procedures of the Circular and the associated handbook. This Circular establishes policies and procedures for the Government to use in obtaining needed commercial products and services. It requires agencies to conduct a cost comparison to determine the most economical method of obtaining these products and services.

●PUBLIC PARTICIPATION (PROPOSED OFPP POLICY LETTER)

Legal Authority: PL 93-400; See preamble

CFR Citation: Not applicable

Abstract: The proposed Policy Letter, specifically required by statute, would establish uniform criteria and procedures for use by the executive agencies in soliciting the views of interested parties in the development of procurement policies, regulations, procedures and forms. It also describes procedures to be followed by OFPP in conducting hearings or meetings in connection with the development of procurement policies. The principal objective will be to enable greater public participation in this important process, at minimal additional cost.

●POLICIES ON CONSTRUCTION OF FAMILY HOUSING (CIRCULAR NO. A-18)

Legal Authority: See preamble

CFR Citation: Not applicable

Abstract: OMB Circular A-18, last revised in August 1967, sets forth policies for budgeting, planning, and undertaking the construction of federally-owned housing (exclusive of military barracks) for Federal personnel and for employees of Government contractors. Housing standards, concepts of living space requirements, the housing market and economic factors bearing on it have changed significantly since the Circular was last issued and updating and revision are required.

●POLICY GOVERNING CHARGES FOR RENTAL QUARTERS AND RELATED FACILITIES (CIRCULAR NO. A-45)

Legal Authority: 5 USC 5911; See preamble

CFR Citation: Not applicable

Abstract: Nearly twenty years have elapsed since this Circular was issued. It requires updating and, to the extent possible, simplification. Some of the issues to be addressed are (1) calculation of unusual transportation costs, and (2) the definition of an established community. While alternative treatments and potential costs have not yet been identified, among the principal benefits to be sought are more equitable rental rates for government quarters and simplified guidelines for determining such rates.

◉MANAGEMENT OF FEDERAL AUDIOVISUAL ACTIVITIES (CIRCULAR NO. A-114)

Legal Authority: See preamble

CFR Citation: Not applicable

Abstract: Circular A-114 was issued in April 1978. The Circular prescribes policies and procedures for improving the management of Federal audiovisual activities. Since the issuance of the Circular, several recommendations have been received (including two Comptroller General's decisions) regarding the need to revise the Circular, particularly Attachment E thereto, "Contracts for Motion Picture Productions." It is OMB's intent to review the Circular in response to the various recommendations and agencies' operating experiences.

Abstract: The Circular was issued in April 1980 to address the need for controls for consultant contracting. Subsequently, in October 1981, Circular No. A-123 was issued which addressed the use of internal controls in program and admininstrative activities. Therefore, a separate Circular addressing only controls for consulting contracts may no longer be necessary.

Abstract: OFPP Policy Letter 80-2, dated April 29, 1980, promulgated provisions to be included in contracts which, pursuant to P.L. 95-507, require small business and small disadvantaged business subcontracting plans. This supplement would authorize departments and agencies, in their regulations, to provide that prime contractors may be relieved, in appropriate circumstances, of the obligation to review and approve subcontracting plans. ●PROCUREMENT PROCEDURES, ADVANCE PROCUREMENT PLANNING AND REVIEW OF END-OF-YEAR PURCHASES (OFPP POLICY LETTER 81-1)

Legal Authority: PL 93-400; See preamble

CFR Citation: Not applicable

Abstract: The Policy Letter requires agencies to establish management controls to reduce wasteful end-of-year purchases. It was issued in August 1981. All agencies have established such controls and end-of-year spending has been reduced. It is duplicative of the general requirement of OMB Circular A-123, "Internal Controls."

Regulatory Agenda

AGENCY: Office of Personnel Management.

ACTION: Semiannual agenda of regulations.

SUMMARY: The following Office of Personnel Management regulations are scheduled for review or development from May 1, 1983 through April 30, 1984. This agenda carries out OPM's responsibilities to publish a semiannual agenda under E.O. 12291, Federal Regulation, and the Regulatory Flexibility Act (5 U.S.C. Chapter 6). P 1. 5 CFR Parts 300, 335, 430, 431, 451, 531, 532, 540 [1]	Performance Management	5 U.S.C. 4302, 4305, 4312–4315.	The proposed rule would require that agencies develop and implement a performance management system (PMS) which integrates basic management functions with performance, pay, and incentives systems for the purpose of improving individual and organizational effectiveness in the accomplishment of agency mission and goals. The proposed rule would also require that agency decisions which relate to merit pay, performance awards, within-grade and step increases, quality step increases, and career ladder promotions, in addition to any other statutory or regulatory requirements, be based on performance appraisal ratings.	Proposed regulations: 3/83.	Kathleen Connelly, Personnel Management Specialist, Office of Performance Management, U.S. Office of Personnel Management, 1900 E St., N.W., Washington, D.C. 20415 (202) 632-7630.	No.
P 2. 5 CFR Part 351 [1]	Reduction in Force	5 U.S.C. 3502	Proposed revisions to reduction in force regulations will improve the operation of the RIF system and give greater recognition to performance as a RIF retention factor	Proposed regulations: 3/83. Unified Agenda of Federal Regulations

PANAMA

PANAMA CANAL COMMISSION

35 CFR Ch. I

Unified Agenda of Federal Regulations

AGENCY: Panama Canal Commission.

ACTION: Publication of semiannual agenda of regulations.

SUMMARY: The purpose of this agenda is to report the proposed rulemaking activities of the Panama Canal Commission and to announce completed actions. This information will allow the public to participate in the rulemaking process.

FOR FURTHER INFORMATION CONTACT: For information about a particular regulatory project, contact the person listed in the subheading "Agency Contact" for that project.

For general information, contact Michael Rhode, Jr., Secretary, Panama Canal Commission, Suite 312, Penn Building, 425 13th Street, N.W., Washington, D.C. 20004, (202) 724-0104; or Dwight A. McKabney, Esquire, General Counsel, Panama Canal Commission, APO Miami 34011.

SUPPLEMENTARY INFORMATION: Executive Order 12291, Federal Regulation, and the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.* require that executive agencies publish in the **Federal Register** a semiannual notice of regulations which are under development or review or for which action has been completed. The Panama Canal Commission agenda contains some regulations which are limited in public impact but they are included to increase public awareness of Commission activities and to allow for increased public participation in the agency's regulatory review and development process. This agenda was prepared under the guidelines established by OMB Bulletin No. 83-8.

DATED: March 4, 1983.

Michael Rhode, Jr.,

Secretary, Panama Canal Commission.

PANAMA CANAL COMMISSION (PANAMA) — Existing Regulations Under Review

●REVISED RULES FOR THE PREVENTION OF COLLISIONS

Legal Authority: 22 USC 3811 Panama Canal Act of 1977; EO 12215

CFR Citation: 35 CFR 111

Abstract: The planned revision of the Panama Canal Rules for the Prevention of Collisions, Part 111 of 35 CFR, will be designed to update the existing rules which have not undergone a comprehensive, substantive revision for many years. In an effort to standardize the rules for the prevention of collisions and in keeping with the international character of the Panama Canal, the revision will follow generally the format, language and substance of the International Regulations for Preventing Collisions at Sea (72 COLREGS), incorporating where appropriate throughout the text rules of particular applicability to the Panama Canal.

●RULES FOR MEASUREMENT OF VESSELS

Legal Authority: 22 USC 3791 Panama Canal Act of 1979

CFR Citation: 35 CFR 135

Abstract: In July 1982 forty-eight nations, representing more than eighty percent of world shipping, began implementing a new, uniform method for tonnage determination in accordance with the International Convention on Tonnage Measurement of Ships, 1969. The present Panama Canal measurement system is based upon the old

PANAMA

Existing Regulations Under Review

national tonnage measurement systems. To continue the present Panama Canal System may require that new ships be measured twice, once under the new system and again under the now out-dated national system. No timetable for rulemaking has been established. This proposal is still under study by the Panama Canal Commission. The Commission is in the process of obtaining comments from Canal users which will be used to evaluate and assist in formulating a proposed rule.

29 CFR Ch. XXVI

Agenda of Regulations Under Development

AGENCY: Pension Benefit Guaranty Corporation.

ACTION: Agenda of regulations.

SUMMARY: This document sets forth the Pension Benefit Guaranty Corporation's regulatory agenda issued under Executive Order 12291 and the Regulatory Flexibility Act. The agenda lists regulations that are currently under development or that PBGC expects to have under development during the next twelve months. The effect of this agenda is to advise the public of PBGC's current and future regulatory activities.

ADDRESS: Office of the General Counsel (210), Pension Benefit Guaranty Corporation, 2020 K Street, N.W., Washington, D.C. 20006.

FOR FURTHER INFORMATION CONTACT: For further information on the agenda in general, contact Melanie Franco Nussdorf, Special Counsel, Office of the General Counsel, 202-254-6476. For information about a specific regulation project listed on the agenda, contact the person designated in the agenda for that regulation.

SUPPLEMENTARY INFORMATION: Under the President's Order on Federal Regulation, Executive Order 12291, 46 FR 13193 (the "Executive Order"), each agency is required to publish in April and October an agenda of regulations currently or soon to be under development. The Executive Order also requires that the agenda also include those currently effective regulations that are being reviewed by the agency pursuant to the Executive Order. The Regulatory Flexibility Act, 5 U.S.C. 601, Pub. L. 96-354, 94 Stat. 1164, has a similar agenda requirement. Under that law, the agenda must list any regulation subject to the Act that is likely to have a significant economic impact on a substantial number of small entities.

The Office of Management and Budget has issued guidelines (OMB Bulletin No. 83-8) prescribing the form and content of the regulatory agenda. Under those guidelines, the agenda must list all regulatory activities being conducted or reviewed in the next twelve months and provide certain specified information on each regulation. (All the items on this agenda are regulations under development. One regulation, the rule on reportable events (item 5) was reviewed by PBGC pursuant to the Executive Order, and it was determined that that rule should be amended. Accordingly, it is included with the regulations under development.)

The guidelines also require that "priority regulations" be listed first. Priority regulations are those designated as such by the agency head or those that are "major rules" under the Executive Order. PBGC has determined that all the regulations listed in this agenda are necessary to the effective implementation of the insurance program. Accordingly, no distinction is made for "priority regulations."

Finally, as an additional aid to readers, PBGC has separated the regulations under the single-employer insurance program from those under the multiemployer program.

Unless otherwise indicated, all citations in the agenda are to sections of the Employee Retirement Income Security Act of 1974, 29 U.S.C. 1001 *et seq.* (1976), *as amended by* the Multiemployer Pension Plan Amendments Act of 1980 ("the Multiemployer Act"), Pub. L. No. 96-364, 94 Stat. 1208 ("ERISA").

The guidelines require a description of the potential costs and benefits of each regulation. The regulations listed on this agenda fall into three general categories. Some lessen statutory requirements, thereby lowering costs to the public and minimizing burden on plans and plan sponsors. See, for example, items #1 and 5. Others simply implement statutory requirements, and although costs may be imposed because of these statutory requirements, the public is benefitted by clear and unambiguous rules which lessen the probability of disputes, litigation and public confusion. See, for example, items #6 and 7. Others of the regulations in the agenda reallocate costs necessarily imposed by the statute, so that although certain contributing employers may experience greater costs, others will experience an equivalent reduction in costs, resulting in a net effect of zero. See, for example, items #12 and 15. Where applicable, additional costs and benefits are stated separately in the item relating to the particular regulation.

Issued at Washington, D.C., this 16th day of March, 1983.

Edwin M. Jones,

Executive Director, Pension Benefit Guaranty Corporation

RULES GOVERNING THE ARBITRATION OF DISPUTES CONCERNING EMPLOYER LIABILITY.

Legal Authority: 29 USC 1302(b)(3) ERISA; 29 USC 1321(a)(2) ERISA

CFR Citation: 29 CFR 2641

Abstract: Section 4221 of ERISA provides that any dispute between an employer and the sponsor of a multiemployer plan regarding the determination of the employer's withdrawal liability to the plan shall be resolved through arbitration. Section 4221(a)(2) of ERISA provides that an arbitration proceeding under this section shall be conducted in accordance with fair and equitable procedures prescribed by the PBGC. The regulation will set forth those procedures. This regulation is needed to provide the rules of procedure under which an arbitration proceeding will be conducted. PBGC expects that the rule will minimize costs on plan sponsors and contributing employers because it provides a clear set of rules designed to clarify the Act's provisions and the responsibilities of the respective parties.

NOTICE AND COLLECTION OF WITHDRAWAL LIABILITY.

Legal Authority: 29 USC 1302(b)(3) ERISA; 29 USC 1399(c) ERISA

CFR Citation: 29 CFR 2644

Abstract: Section 4219(c)(6) of ERISA provides that the interest rate charged by a multiemployer plan in the event of delinquency or default in the payment of withdrawal liability shall be based on prevailing market rates for comparable obligations, in accordance with PBGC regulations. This regulation will implement that section by establishing the interest rate to be used. In addition, PBGC is considering giving plans authority to establish their own rates, consistent with section 4219(c)(6).

POWERS AND DUTIES OF PLAN SPONSORS OF PLANS TERMINATED BY MASS WITHDRAWAL; NOTICES OF BENEFIT REDUCTIONS AND SUSPENSIONS.

Legal Authority: 29 USC 1302(b)(2) ERISA; 29 USC 1441(c) ERISA; 29 USC 1441(d) ERISA

CFR Citation: 29 CFR 2675

Abstract: Section 4281 of ERISA contains rules relating to the administration and payment of benefits under multiemployer plans that have terminated by mass withdrawal. Under certain circumstances, the plan sponsor is required to amend the plan to eliminate benefits not eligible for PBGC's guarantee under Section 4022A. In addition, if the terminated plan becomes insolvent, the sponsor is required to suspend payment of any benefits that are in excess of those guaranteed under Section 4022A. The PBGC is authorized to modify the statutory duties of the plan sponsor, including the duty to provide participants and beneficiaries with notice of benefit reductions, and is required to prescribe rules that ensure that plan participants and beneficiaries receive adequate notice of the benefit suspensions. This regulation will prescribe the requirements for these two notices, and will also modify the statutory rules concerning when a plan sponsor must make determinations of plan solvency. This regulation will benefit multiemployer plans by reducing the number of notices that would otherwise be required under ERISA, thus reducing plan costs. In addition, the regulation will (cont)

Additional Information: ABSTRACT CONT: benefit plan participants and beneficiaries by requiring that they receive timely and informative notices of benefit reductions and suspensions. These benefits cannot be quantified. While providing the notices required by the regulation will obviously entail a cost to plans, the aggregate cost will be low: PBGC estimates that fewer than 30 plans per year will terminate by mass withdrawal, and only a very few of those will ever be required to reduce or suspend benefits.

VARIANCES FOR SALES OF ASSETS.

Legal Authority: 29 USC 1302(b)(3) ERISA; 29 USC 1384(c) ERISA

CFR Citation: 29 CFR 2643

Abstract: Section 4204 of ERISA provides that the sale of assets by an employer who contributes to a multiemployer plan, which would normally constitute a withdrawal from the plan, will not be considered a withdrawal if certain requirements are met. This regulation will provide exemptions or variances from the purchaser's bond/escrow requirement and the sales-contract requirement of section 4204 (a)(1)(B) and (C) of ERISA under certain conditions. This regulation will assist employers who engage in sales of assets to structure those transactions so as to avoid any immediate liability for the seller's withdrawal from a multiemployer plan. Further, by waiving the requirement that the purchaser post a bond or establish an escrow account, the regulation frees up funds that the purchaser may use for other purposes. In 15 cases decided so far in which the PBGC has granted individual exemptions from this requirement, the total amount of the bonds/escrows waived is approximately $8.4 million.

NOTICE OF INSOLVENCY.

Legal Authority: 29 USC 1302(b)(3) ERISA; 29 USC 1426(e) ERISA

CFR Citation: 29 CFR 2674

Abstract: Section 4245(e) of ERISA requires the plan sponsor of a multiemployer, upon determining that the plan may become insolvent, to give notice of that fact to the PBGC, contributing employers, affected employee organizations and plan participants. In addition, the plan sponsor must inform those parties of the plan's resource benefit level for the insolvency year. Section 4245(e)(4) of ERISA requires that the notices be given in accordance with regulations prescribed by the PBGC. This regulation will establish the procedures for issuing and the contents of the insolvency notices. The early notice of potential plan insolvency to the collective bargaining parties will enable the parties, if they so choose, to negotiate additional contributions in order to avoid insolvency and the consequent benefit suspensions. This is of benefit to plan participants and beneficiaries, although it is not possible to quantify that benefit. If adopted as currently drafted, the regulation would impose some costs above those already imposed by the pertinent statutory provisions, which require insolvency notices only from plans in reorganization, because the (cont)

MERGERS AND TRANSFERS BETWEEN MULTIEMPLOYER PLANS.

Legal Authority: 29 USC 1302(b)(3) ERISA; 29 USC 1411 ERISA

CFR Citation: 29 CFR 2672

Abstract: Section 4231(b)(1) of ERISA requires the plan sponsor of a multiemployer plan to notify PBGC, in accordance with regulations prescribed by PBGC, of a merger or transfer of assets or liabilities to another multiemployer plan. In addition, section 4231(b) contains three other conditions that all mergers or transfers between multiemployer plans must satisfy. This regulation will establish the requirements for the notice to PBGC, as well as provide guidance to plan sponsors in complying with the other three conditions. The primary benefit of this regulation is that it will protect the multiemployer insurance system and the premium payers by helping to insure that plans do not engage in transactions that would have the effect of weakening any of the plans involved in the transaction. By requiring the notice to include data that will enable PBGC to monitor compliance with section 4231(b), the regulation does impose new costs on the public. PBGC expects these costs to be approximately $12,000 per year, assuming 40 mergers and transfers of assets or liabilities per year.

SUPPLEMENTAL GUARANTEE PROGRAM.

Legal Authority: 29 USC 1302(b)(3) ERISA; 29 USC 1322a(g)(2) ERISA

CFR Citation: 29 CFR 2690 to 2699

Abstract: Section 4022A(g)(2) of ERISA requires PBGC to issue regulations establishing a supplemental program to guarantee benefits under multiemployer plans that would otherwise be guaranteed but for the limitations in section 4022A(c) of ERISA. Participation by plans in this supplemental program is optional. These regulations will address premiums, eligibility requirements, applications for coverage, the amount of coverage provided, and financial assistance from PBGC under the supplemental program. Since ERISA requires that the supplemental guarantee program be entirely self-supporting, it follows that the costs to the public (the premiums) will have to at least equal the insurance benefits provided plus the PBGC's cost of administering this program. Because participation in this program is voluntary and because PBGC has not yet published a notice of proposed rulemaking, PBGC does not have any reliable data on the number of plans that will participate and the amount of insurance coverage they will purchase. Accordingly, PBGC is unable to quantify the costs and benefits.

RULES DEFINING THE "BUILDING AND CONSTRUCTION INDUSTRY".

Legal Authority: 29 USC 1302(b)(3) ERISA; 29 USC 1383(b) ERISA

CFR Citation: 29 CFR 2646

Abstract: Section 4203(b) of ERISA contains special withdrawal rules applicable to the building and construction industry. ERISA does not, however, contain a definition of the term "building and construction industry"; nor does it define two other terms critical to the special rules, "primarily" and "substantially." This regulation would provide those definitions. Because there are conflicting views among the public as to the need for this regulation, and because of the difficulty in developing appropriate definitions of these terms, PBGC plans to issue an advance notice of proposed rulemaking on this matter. After reviewing the comments received in response to the advance notice PBGC will determine whether to proceed with a regulation.

REDUCTION OR WAIVER OF COMPLETE WITHDRAWAL LIABILITY.

Legal Authority: 29 USC 1302(b)(3) ERISA; 29 USC 1387(a) ERISA

CFR Citation: 29 CFR 2647

Abstract: Section 4207(a) of ERISA requires the PBGC to establish rules for reducing or waiving the liability of an employer who has completely withdrawn from a multiemployer plan and subsequently resumes covered operations or renews the obligation to contribute under the plan. This regulation will prescribe the circumstances under which an employer's liability will be reduced or waived and the rules for computing the employer's liability for a complete or partial withdrawal after it has reentered the plan. This regulation will benefit multiemployer plans by encouraging some employers who have withdrawn from these plans to renew their participation in the plans. By the same token these employers will benefit by having some or all of their withdrawal liability waived. While the plans will incur the cost of foregoing collection of some of the withdrawal liability owed them, the assumption underlying this statutory provision is that these costs will be offset by the contributions employers will make to the plans after their reentry. PBGC is unable to quantify these benefits and costs, because it cannot predict the number of employers who will avail themselves of this rule.

TRANSFERS OF LIABILITIES TO SINGLE-EMPLOYER PLANS; WAIVER OF MULTIEMPLOYER PLAN'S CONTINGENT LIABILITY.

Legal Authority: 29 USC 1302(b)(3) ERISA; 29 USC 1412(c) ERISA

CFR Citation: 29 CFR 2679

Abstract: Under section 4232(c), a multiemployer plan that transfers liabilities to a single-employer plan is contingently liable to PBGC, up to the amounts specified in section 4232(c), if the single-employer plan terminates within five years after the transfer. PBGC is authorized, however, to waive the contingent liability if it determines that its interests and the interests of plan participants and beneficiaries are adequately protected. This regulation will provide procedures for applying to PBGC for a waiver and standards under which waivers will be granted. This regulation will benefit those multiemployer plans that will qualify for a waiver of their contingent liability. To date, PBGC has received nine requests for waivers, involving potential maximum liabilities of approximately $2,885,000. PBGC is unable to predict how many more plans may apply for waivers once this regulation is issued. Insofar as the intended purpose of this regulation is achieved, there will be no costs associated with it, because the contingent liability will be waived only in those situations where it is extremely unlikely that the liability would ever become an actual claim of PBGC against (cont)

CFR Citation: 29 CFR 2676

Abstract: The rules for determining an employer's withdrawal liability do not necessarily allocate a plan's total unfunded vested benefits because of the rules reducing or eliminating withdrawal liability, such as the de minimis rule. Therefore, if all or substantially all the employers in a plan withdraw, there may be large unallocated amounts that would constitute a potential claim on the insurance system. In order to avoid this result, section 4219(c)(1)(D) requires the determination or redetermination of withdrawal liability, in order to fully allocate a plan's unfunded vested benefits, upon either the termination of the plan through the withdrawal of every employer, or the withdrawal of substantially all the employers pursuant to an agreement or arrangement to withdraw. This regulation will set forth rules implementing this requirement. This regulation primarily benefits the multiemployer insurance program and the plans that are required to pay premiums under it, by insuring that in the event of a mass withdrawal (or the withdrawal of substantially all the employers pursuant to an agreement to withdraw), the liability for all unfunded vested benefits is allocated to the (cont)

Legal Authority: 29 USC 1302(b)(3) ERISA; 29 USC 1301(a)(12) ERISA

CFR Citation: 29 CFR 2677

Abstract: Three of the four statutory methods for allocating a plan's unfunded vested benefits to a withdrawn employer generally reduce the amount of the unfunded vested benefits by the value of outstanding claims for withdrawal liability. Section 4001(a)(12) of ERISA provides that these claims are to be valued in accordance with PBGC regulations. This regulation will prescribe those valuation rules.

Legal Authority: 29 USC 1302(b)(3) ERISA; 29 USC 1341a ERISA; 29 USC 1441(d) ERISA

CFR Citation: 29 CFR 2675

Abstract: Section 4041A of ERISA provides rules with respect to the termination of multiemployer plans and the payment of benefits under those plans. Under section 4041A(f)(2), PBGC is authorized to prescribe rules for the administration of those plans that are appropriate to protect the interests of plan participants and beneficiaries or to prevent unreasonable loss to the insurance system. Under section 4281(d)(1), the plan sponsor of a plan that has terminated by mass withdrawal is required annually to determine the value of the plan's nonforfeitable benefits and assets. If the value of the benefits exceeds the value of the assets, the sponsor must amend the plan to eliminate benefits not eligible for PBGC's

guarantee under section 4022A(b), to the extent necessary to insure that the plan assets are sufficient to pay all nonforfeitable benefits. This determination of sufficiency is to be made in accordance with rules prescribed by PBGC. This regulation would establish the rules for administering plans that have terminated by mass withdrawal, including the rules for determining sufficiency in the circumstances described above. Legal Authority: 29 USC 1302(b)(3) ERISA; 29 USC 1341 ERISA; 29 USC 1344 ERISA; 29 USC 1362(b)(1) ERISA

Abstract: This amendment to the existing PBGC regulation on valuing plan assets, 29 CFR Part 2620, will set forth rules for valuing group insurance contracts as plan assets. This regulation applies to single-employer plans. This rule is necessary to provide uniform standards for plan administrators and employers to use in valuing insurance contracts. The rule will enable plans which are funded through insurance contracts to have clear guidance on how this asset should be treated in the plan termination context, and alleviate time-consuming costly delays due to uncertainty on how this commonly used plan funding vehicle should be valued.

CFR Citation: 29 CFR 2623

Abstract: The PBGC is developing a proposed regulation to set forth rules designed: (a) to reduce benefit overpayments made to plan participants after the date of plan termination by requiring plan administrators to reduce benefit payments to the estimated level of Title IV benefits payable; (b) to define the circumstances under which the PBGC will recover overpayments from plan participants; and (c) to describe the method(s) by which the PBGC will recover overpayments. The proposed regulation applies only to single-employer plans. This regulation is needed to establish rules and procedures for the prompt reduction of benefits after the date of plan termination in order to minimize overpayments to participants and to establish a formal procedure for PBGC recovery of overpayments to participants. This regulation will provide guidance to plan administrators and participants and minimize costs to the insurance system. No new costs will be added to plan sponsors because PBGC presently requests plan administrators to cut back benefits after termination to estimated guaranteed benefits. Legal Authority: 29 USC 1302(b)(3) ERISA; 29 USC 1343 ERISA; 29 USC 1365 ERISA

CFR Citation: 29 CFR 2615

Abstract: Section 4043 of ERISA sets forth several types of events with respect to which plan administrators must notify the PBGC and authorizes the PBGC to waive the thirty-day notification requirements for any of those events. The Multiemployer Act amended section 4065 of ERISA to authorize PBGC to waive the requirement that a list of reportable events be included in the Annual Report filed with the PBGC. In addition, the Multiemployer Act established separate reporting and notification requirements for multiemployer plans. Accordingly, the PBGC is amending its reportable events regulation, 29 CFR Part 2615, which modifies certain of the statutory requirements, to further delete unnecessary reporting requirements for both single-employer and multiemployer plans. The regulation will reduce the reporting and notification requirements to which plan administrators are subject.

EXTENSION OF SPECIAL WITHDRAWAL LIABILITY RULES.

Legal Authority: 29 USC 1302(b)(3) ERISA; 29 USC 1383(f) ERISA; 29 USC 1388(e)(3) ERISA

CFR Citation: 29 CFR 2645

Abstract: Under section 4203(f) of ERISA, PBGC may permit plans to adopt special withdrawal liability rules, similar to those applicable to the construction and entertainment industries, if PBGC determines that the rules adopted by a plan would apply to an industry that has the characteristics that would make use of the special rules appropriate, and that use of the rules would not pose a significant risk to the PBGC insurance system. PBGC has already issued a regulation establishing the procedures under which plans may seek PBGC approval of special withdrawal rules (47 F.R. 12622 (March 24, 1982)). The purpose of this rulemaking is to establish general standards under which PBGC could make the determinations described above. The benefit of this regulation is that it will enable certain employers in qualifying plans to cease participation in those plans without incurring withdrawal liability. This rule will also benefit those plans by helping them attract new employers and by reducing the administrative costs associated with calculating and assessing withdrawal liability.

RULES FOR FILING A NOTICE OF INTENT TO TERMINATE.

Legal Authority: 29 USC 1302 ERISA; 29 USC 1341 ERISA; 29 USC 1343 ERISA

CFR Citation: 29 CFR 2616

Abstract: This rule involves the issuance of a joint form (Form 5310) by the PBGC and the Internal Revenue Service ("IRS") and amendments to the PBGC's Notice of Intent to Terminate regulation, 29 CFR Part 2616. This regulation applies only to single-employer plans, and will provide plan administrators with simplified procedures, and a basic form for notifying the PBGC of plan terminations. Use of the new procedures will eliminate duplicative filing requirements of the PBGC and IRS. PBGC estimates that use of the joint form will halve the costs of filing associated with plan termination.

RULES RELATING TO PLAN ERISAFICATION (PROPOSED AMENDMENTS TO THE GUARANTEED BENEFITS AND LIMITATION ON GUARANTEED BENEFITS REGULATIONS).

Legal Authority: 29 USC 1301(a) ERISA; 29 USC 1302(b)(3) ERISA; 29 USC 1322 ERISA; 29 USC 1322B ERISA

CFR Citation: 29 CFR 2613; 29 CFR 2621

Abstract: The Multiemployer Act requires the PBGC to guarantee those benefits that are provided under the terms of a plan or that are required by law. Under the Multiemployer Act, all plans that terminate on or after September 26, 1980, are to be treated as though the essential requirements of Title I of ERISA were added to the plan as of the effective date under Section 211 of ERISA with respect to each plan. Accordingly, the PBGC proposes to amend its Guaranteed Benefits regulation, 29 CFR Part 2613, and its Limitation on Guaranteed Benefits regulation, 29 CFR Part 2621, to set forth the essential provisions that will be read into such plans. These amendments apply only to single-employer plans, although the agency will shortly begin work on amendments that will apply to multiemployer plans. The single-employer changes will not be delayed since the larger number of terminating single-employer plans necessitates regulatory guidance now. This regulation is needed in order to ensure that participants and beneficiaries in terminating single-employer plans receive the retirement benefit protection mandated by Congress.

Railroad Retirement Board

Semi-Annual Agenda of Regulations Under Development or Review

RRB

RAILROAD RETIREMENT BOARD

20 CFR Ch. II

Semiannual Agenda of Regulations Under Development or Review.

AGENCY: Railroad Retirement Board.

ACTION: Agenda of regulations under development or review.

SUMMARY: This agenda contains lists of regulations that the Board is developing or proposes to develop in the next twelve months and regulations that are scheduled to be reviewed in that period.

ADDRESS: 844 Rush Street, Chicago, Illinois 60611.

FOR FURTHER INFORMATION CONTACT: Steven A. Bartholow, Assistant General Counsel, Railroad Retirement Board, 844 Rush Street, Chicago, Illinois 60611 (312) 751-4944 (FTS 387-4944).

SUPPLEMENTARY INFORMATION: Regulations that are routine in nature or pertain solely to internal agency management have not been included in the agenda. Current regulations that are proposed to be modified based on a completed review of the regulations are listed in the agenda as regulations under development.

DATED: February 25, 1983.
By Authority of the Board.

James T. Brown,
Chief Executive Officer
Railroad Retirement Board.

RAILROAD RETIREMENT BOARD (RRB) — Current and Projected Rulemakings

ADJUSTMENT OF ANNUITIES WHEN REVENUES ARE NOT SUFFICIENT TO PAY FULL TIER I AND TIER II BENEFIT COMPONENTS.

Legal Authority: 45 USC 231f(b)(5); 45 USC 231u

CFR Citation: Not yet determined

Abstract: The Omnibus Budget Reconciliation Act of 1981 added a new section 22 to the Railroad Retirement Act of 1974. This new section imposes certain responsibilities on the Board if the Board in any fiscal year borrows 50 percent or more of the moneys that it is authorized to borrow by section 15(b)(2) of the Railroad Retirement Act. If 50 percent or more is borrowed in a fiscal year, the Board must submit a report to Congress and the President which among other things must identify the first year, if any, in which the amount of moneys available will not be sufficient to pay full benefits. Within 180 days after submission of a report to the President and Congress identifying a year in which benefits will exceed available funds, the Board must publish regulations in the Federal Register providing for the reduction of annuities in such fiscal year. The proposed regulation would implement Section 22 of the Railroad Retirement Act.

STATUTORY LIEN WHERE SICKNESS BENEFITS PAID.

Legal Authority: 45 USC 362(1); 45 USC 362(o)

CFR Citation: 20 CFR 341

Abstract: Section 12(o) of the Railroad Unemployment Insurance Act provides that sickness benefits shall be payable to an individual for days of sickness regardless of the liability of any person for the infirmity for which the benefits are paid. However, that section also provides that the Board is to be reimbursed for the sickness benefits actually paid from any sum or damages paid or payable to the individual by reason of the infirmity. The proposed regulation will explain when a lien is established under section 12(o) of the Railroad Unemployment Insurance Act, how the amount of the lien is determined, what procedures must be followed by the Board in establishing the lien, and how the lien may be satisfied. In addition, the proposed regulation will establish procedures to be followed by the Board in terminating sickness benefits where it has been reported to the Board that the beneficiary has recovered through settlement or judgment any sum or damages for the same injury or sickness for which sickness benefits under the Railroad Unemployment Insurance Act have been paid. Comments on the NPRM were received from the public and consideration has been given to those comments.

Regulatory Agenda

AGENCY: Selective Service System.

ACTION: Regulatory Agenda.

SUMMARY: The purpose of this agenda is to report the proposed rulemaking activities of the Selective Service System that might affect the processing of registrants under the Military Selective Service Act (50 U.S.C. App. 451 et seq.). This information will allow the public to participate in the System's decisionmaking at an early stage.

FOR FURTHER INFORMATION CONTACT: Henry N. Williams, General Counsel, Selective Service System, Washington, D.C. 20435. Telephone (202) 724-1167.

SUPPLEMENTARY INFORMATION: This agenda is published in accord with the requirements of E.O. 12291. Selective Service Regulations appear in 32 CFR Chapter XVI.

DATED: February 28, 1983

Thomas K. Turnage,

Director of Selective Service.

The agenda follows:

Small Business Administration

Semiannual Agenda

SBA

SMALL BUSINESS ADMINISTRATION

13 CFR Ch. I

Improving Government Regulations; Semiannual Agenda

AGENCY: Small Business Administration.

ACTION: Publication of the Semiannual Agenda of Regulations under review or development by the Small Business Administration.

SUMMARY: This is SBA's eighth semiannual agenda of regulations. Although not a regulatory Agency, SBA has attempted to draft agendas that met both the criteria and the spirit of the regulatory review process. This agenda is published pursuant to Executive Order 12291 and the Regulatory Flexibility Act, 5 U.S.C. 601 *et seq.*, Pub. L. 96-354 effective January 1, 1981.

FOR FURTHER INFORMATION CONTACT: For further information on agenda items, the public is encouraged to contact the individual Agency official listed for the particular item.

For information concerning overall SBA Regulatory Review and Development Program and general semiannual agenda questions, contact Martin D. Teckler, Associate General Counsel for Legislation, Small Business Administration, 1441 L Street, N.W., Washington, D.C. 20416, 202/653-6662.

SUPPLEMENTARY INFORMATION: The SBA agendas will contain many regulations which are limited in public impact, but they are included to increase public knowledge of all SBA regulatory activities and allow for increased public participation in the review and development process.

Public comments on SBA's previous agendas have been general, and all were positive. None were directed at specific contents, nor were any changes suggested or recommended.

The agenda format is now slightly modified. Part I, Current and Projected Rulemakings, includes rulemakings currently underway and scheduled to be completed shortly. Part II, Reviews of Existing Regulations, includes existing regulations being reviewed within the Agency to determine whether to propose modifications through rulemaking. Part III, Completed Actions, includes regulations completed or withdrawn, and reviews completed since the preceding agenda.

Publication of this agenda does not impose any binding obligation on SBA with regard to any specific item in the agenda. Additional regulatory action not listed on the agenda is not precluded.

DATED: March 11, 1983

James C. Sanders,

Administrator.

Regulatory Agenda

AGENCY: Tennessee Valley Authority.

ACTION: Regulatory Agenda.

SUMMARY: As a nonregulatory agency, TVA originates very few nonroutine regulations and thus does not ordinarily have agenda items to announce. However, TVA currently has two nonroutine regulations under development and is therefore publishing a regulatory agenda in voluntary compliance with Executive Order No. 12291.

FOR FURTHER INFORMATION CONTACT: For further information on either regulation, please contact the person listed for that regulation.

W. F. Willis,

General Manager.

TENNESSEE VALLEY AUTHORITY (TVA) — Current and Projected Rulemakings

ADMINISTRATIVE COST RECOVERY

Legal Authority: 16 USC 831 to 831dd TVA Act of 1933, as amended; PL 82-137 Independent Offices Appropriations Act of 1952

CFR Citation: 18 CFR 1310

Abstract: TVA has proposed a regulation for recovery of fair and equitable administrative costs associated with the disposition and use of real property in TVA custody and control and the resolution of violations of Section 26a of the TVA Act which requires that TVA approve plans for the construction, operation, or maintenance of dams, appurtenant works, or other obstructions affecting navigation, flood control, or public lands or reservations in the Tennessee River system, prior to the construction, commencement of construction, operation, or maintenance of such structures.

●INTERGOVERNMENTAL REVIEW OF TENNESSEE VALLEY AUTHORITY FEDERAL FINANCIAL ASSISTANCE AND DIRECT FEDERAL DEVELOPMENT PROGRAMS

Legal Authority: 16 USC 831 to 831dd TVA Act of 1933, as amended; 42 USC 4231(b); EO 12372

CFR Citation: 18 CFR 1311

Abstract: TVA is proposing regulations to implement Executive Order No. 12372 ("Intergovernmental Review of Federal Programs") and the Intergovernmental Cooperation Act of 1968 and to assist TVA in carrying out its responsibilities under the TVA Act. The regulations would apply to Federal financial assistance and direct Federal Development programs and activities of TVA. Executive Order No. 12372 and these regulations are intended to replace the intergovernmental consultation system developed under Office of Management and Budget Circular A-95. The regulations are not intended to displace the many other ways TVA coordinates its activities with citizens and State and local officials.

Veterans Administration

Agenda of Federal Regulations

VA

VETERANS ADMINISTRATION

38 CFR Ch. I

Agenda of Federal Regulations

AGENCY: Veterans Administration.

ACTION: Publication of agenda of regulations.

SUMMARY: This agenda announces the regulations that the Veterans Administration will have under review, development or revision during the 12 month period from April 1983 to April 1984. The purpose in publishing this agenda is to give public notice of this Agency's regulatory development activities to allow all interested persons the opportunity to participate in the rulemaking process.

ADDRESSES: Interested persons are invited to comment on the regulations listed in the agenda by contacting the individual agency contact listed for each regulation, or by writing to: Information & Regulations Staff (004A1), Veterans Administration, 810 Vermont Avenue, NW, Washington, DC 20420.

FOR FURTHER INFORMATION CONTACT: Celia Fasone (202) 389-2308.

SUPPLEMENTARY INFORMATION: Executive Order 12291, Federal Regulation, and the Regulatory Flexibility Act (Pub. L. 96-354) require that executive agencies publish in the **Federal Register**, in April and October of each year, an agenda of regulations under development and review.

The Veterans Administration has no regulations considered major under the terms of E.O. 12291; however all of this agency's proposed rules and current rules under review, except those considered to be internal agency management or routine regulations, have been listed in accordance with Section 5.(a) of the executive order. This agenda incorporates those categories of information required pursuant to 5 U.S.C. 602(a) and 610(c) (Regulatory Flexibility Act).

The Veterans Administration has found that all rules listed in this agenda, if promulgated, will not have a significant economic impact on a substantial number of small entities as they are defined in the Regulatory Flexibility Act, 5 U.S.C. 601-612.

This agenda has been prepared in accordance with OMB Bulletin 83-8.

DATED: February 17, 1983.

By direction of the Administrator.

Dominick Onorato,

Associate Deputy Administrator for Information Resources Management

VETERANS ADMINISTRATION (VA) — Current and Projected Rulemakings

●WAIVER - OTHER THAN LOAN GUARANTY

Legal Authority: PL 97-306; 38 USC 3102(a)

CFR Citation: 38 CFR 1.963

Abstract: To reduce the time limit in which to request waiver of a benefit indebtedness from 2 years to 180 days. Also, to provide an extension of the time period if notice of indebtedness is not received within a reasonable period of time. There is no other alternative approach since this is an implementation of specific legislation. Cannot determine the potential costs and benefits of this regulation.

DELEGATION OF AUTHORITY

Legal Authority: 38 USC 212(a)

CFR Citation: 38 CFR 2.6

Abstract: This change implements the provisions of PL 97-226 which raised to $25,000 the maximum payable to resolve claims filed under the Military and Civilian

Employees Claims Act of 1964. The change also promulgates a shift of responsibility for reviewing claims activities within the Office of General Counsel. At no additional cost to the Government, the change will clarify the currently existing arrangements for processing and reviewing claims as well as amending the current regulations to reflect the new statutory maximum. No alternatives are being considered. The change benefits VA employees by identifying the office responsible and stating the maximum they may receive from a claim.

PROCEDURE WHERE VIOLATION OF PENAL STATUTES IS INVOLVED

Legal Authority: 38 USC 210(c)(1)

CFR Citation: 38 CFR 14.560

Abstract: This change promulgates a modification in the internal handling of VA matters involving violations of penal laws before such matters are referred to the Department of Justice. The change incorporates the VA Inspector General's office into the referral process. At no extra cost to the Government, the change makes public the procedures the VA has established. No alternative is being considered. The change will benefit the Agency by bringing published guidance into conformity with internally circulated guidance.

LIMITATION ON PAYMENT FOR EMERGENCY HOSPITAL CARE AND MEDICAL SERVICES NOT PREVIOUSLY AUTHORIZED.

Legal Authority: 38 USC 628

CFR Citation: 38 CFR 17.80a

Abstract: Existing authority provides the criteria for approval of claims by certain veterans for payment and reimbursement of the expenses of hospital care and medical services not previously authorized. One of the prerequisites is that the veterans must have received the care and services in a medical emergency of such nature that delay would have been hazardous to life or health. However, there is no termination point defined for the emergency. The new regulation accomplishes this. This action will correct an inequity which grants a greater benefit to veterans who file claims for payment or reimbursement for the expenses of non-VA hospital care or medical services not previously authorized than for veterans who request and receive prior authorization for such care. In the latter cases, the termination point for VA payment of costs of the emergency hospital care is already clearly defined.

INTERGOVERNMENTAL REVIEW OF FEDERAL PROGRAMS

Legal Authority: EO 12372

CFR Citation: 38 CFR 40

Abstract: Federal agencies are required to defer to the states' own procedures for developing such recommendations; to inform state and local elected officials of proposed Federal actions as early as possible; and where state and local recommendations cannot be accommodated, to explain in a timely fashion. The E.O. also contains provisions to strengthen the authority of state and local elected officials and encourage simplification of state planning requirements imposed by Federal laws.

●VETERANS EDUCATION: SUBMISSION OF MITIGATING CIRCUMSTANCES

Legal Authority: 38 USC 1780

CFR Citation: 38 CFR 21.4136; 38 CFR 21.4137

VA — Current and Projected Rulemakings

Abstract: Lengthens the time period veterans receiving educational assistance allowance have to report any mitigating circumstances that may be connected with withdrawals from courses or receipt of a grade which is not used in computing the veteran's graduation requirements. This change will shorten the time eligible persons have to report mitigating circumstances. The net effect will be to treat the two groups equally. The alternative is to continue unequal treatment. Estimates of the costs and benefits are not yet available.

Unified Agenda of Federal Regulations

CIVIL AERONAUTICS BOARD

14 CFR Ch. II

Unified Agenda of Federal Regulations

AGENCY: Civil Aeronautics Board.

ACTION: Publication of Unified Agenda of Federal Regulations.

SUMMARY: As part of its implementation of the Regulatory Flexibility Act, Pub. L. 96-354, and in accordance with the policy announced in OMB Bulletin 82-16, the CAB publishes its semiannual Unified Agenda of Federal Regulations.

DATES: Adopted: March 24, 1983.

ADDRESS: Copies of the rulemaking documents listed in this agenda can be obtained from the Distribution Section, Civil Aeronautics Board, Washington, D.C. 20428; (202) 673-5432. Each document should be identified by the designation appearing in parentheses after the *Federal Register* citation.

Persons wishing to be placed on a mailing list for future editions of this agenda should send a postcard request to the Distribution Section at the above address.

FOR FURTHER INFORMATION CONTACT: About a specific rulemaking action listed in this agenda--the contact person listed below. About this agenda--Joanne Petrie, Office of the General Counsel, Civil Aeronautics Board, 1825 Connecticut Avenue, N.W., Washington, D.C. 20428 (202) 673-5442.

SUPPLEMENTARY INFORMATION: The Board is publishing this Unified Agenda of Federal Regulations in accordance with the Regulatory Flexibility Act, Pub. L. 96-354, and the policy announced in OMB Bulletin 82-16, issued on July 22, 1982. The next agenda will be published in October 1983, as provided in the Regulatory Flexibility Act. The Board's previous agenda appears at 47 FR 48868, October 28, 1982.

The agenda is divided into two categories, Current and Projected Rulemakings, and Completed Actions, in compliance with the Regulatory Information Service model. The Board is keeping its internal designation codes in the title so that items can be easily traced back to previous agendas.

For each rulemaking action listed in this agenda, the following information is set out: title; regulatory information number (RIN); CFR citation, abstract, additional information, timetable, legal authority, and the name, office abbreviation, and telephone number of a knowledgeable Board official to contact for further information. For each proceeding in which a notice of proposed rulemaking has been issued, an estimated final action date is listed. Addresses for all contact persons are Civil Aeronautics Board, Washington, D.C. 20428.

The only rules that the Regulatory Flexibility Act requires agencies to include in their agendas are those that are "likely to have a significant economic impact on a substantial number of small entities." This agenda is more inclusive, listing all significant Board rulemaking activity. Items appearing to meet the statutory criterion are noted.

None of the rulemaking included in this agenda is "major" within the meaning of E.O. 12291, and the Board does not plan to perform any formal Regulatory Impact Analyses. Each rulemaking, however, undergoes an analysis of benefits, costs, and alternatives, in a degree of detail and formality that is commensurate with the importance of the rule. The Board also retains the discretion to prepare a formal Regulatory Impact Analysis on any rulemaking.

Statements in the action schedule column that a notice or advance notice of proposed rulemaking is in preparation indicate that the staff is preparing a draft for Board action. They do not imply that the proposal will necessarily be issued, that the Board has endorsed the substance of the proposal, or that the petition (if any) prompting the rulemaking activity will necessarily be granted. The dates noted for final action are estimates only, and so do not bind the Board or indicate that a final rule will necessarily be adopted.

Although this agenda is intended to list all significant Board regulations that are under development or review, it is not a complete guide to all significant rulemaking activity for the six months until publication of the next agenda. First, new rulemaking actions may arise and be completed between now and then. Second, we may have inadvertently omitted one or more items. Any such omission shall not preclude the Board from taking action on the item, and shall not be a ground for judicial review of the rule.

Abbreviations Used in This Agenda

"Act" means the Federal Aviation Act of 1958, as amended, 49 U.S.C. 1301 *et seq.*, including amendments made by the Deregulation Act and the International Air Transportation Competition Act, Pub. L. 96-192 Stat. 35.

"Deregulation Act" means the Airline Deregulation Act of 1978, Pub. L. 95-504, 92 Stat. 1705.

"CFR" means Code of Federal Regulations.

"FR" means Federal Register.

"ANPRM" means advance notice of proposed rulemaking.

"NPRM" means notice of proposed rulemaking.

"SNPRM" means supplementary notice of proposed rulemaking.

Office abbreviations:

BCAA--Bureau of Carrier Accounts and Audits

OCCCA--Office of Congressional, Community and Consumer Affairs

BDA--Bureau of Domestic Aviation

BIA--Bureau of International Aviation

OC--Office of Comptroller

OEA--Office of Economic Analysis

OGC--Office of the General Counsel

ER-, EDR-, SPR-, SPDR-, and similar designations appearing in parentheses are the Board's internal designations for final rules and proposed rules. Using these designations, interested persons can obtain copies of documents from the Distribution Section at the address listed above. The Distribution Section will also establish and maintain a list of persons wishing to receive copies of future agendas.

Accordingly, the Civil Aeronautics Board publishes the attached Unified Agenda of Significant Regulations.

CIVIL AERONAUTICS BOARD (CAB) — Current and Projected Rulemakings

SMALL COMMUNITY AIR SERVICE PROGRAM

A1. ESSENTIAL AIR SERVICE SUBSIDY GUIDELINES.

Legal Authority: 49 USC 1389

CFR Citation: 14 CFR 271, (New)

Abstract: The Board provides subsidy to airlines to ensure that small communities receive essential air service at a level determined in accordance with 14 CFR Part 398. This rule would implement section 419(d) of the Act, which directs the Board to establish guidelines for computing the fair and reasonable amount of compensation necessary to guarantee that level of service.

A2. ESSENTIAL AIR SERVICE SUBSIDY PROCEDURES.

Legal Authority: 49 USC 1389

CFR Citation: 14 CFR 327, (New)

Abstract: The Board pays a subsidy to airlines for providing essential air service to small communities. This rule would establish when the rate conference with the airline is held, what happens at the end of the airline's rate term, and other procedural matters involved in setting subsidy rates.

A3. OBLIGATION OF CARRIERS TO PROVIDE ADEQUATE SERVICE AT ELIGIBLE POINTS.

Legal Authority: 49 USC 1374; 49 USC 1389

CFR Citation: 14 CFR 398

Abstract: The Board has set essential air service levels under section 419 of the Act for eligible points (small communities). Some of these points are being served by air carriers that are not providing the required level of service. This rule would establish a new policy under which the Board would rely on the "adequate service" provision of section 404(a) of the Act as authority to order these carriers to provide adequate (i.e., essential) service at points they now serve.

A6. TERMINATION NOTICES FOR CERTIFICATED CARRIERS.

Legal Authority: 49 USC 1371; 49 USC 1389

CFR Citation: 14 CFR 323

Abstract: By PR-244, the Board changed its notice requirements for certificated carriers that wanted to terminate service to eligible points. The Board eliminated some notices but continued to require notice before a certificated carrier terminated or reduced service so as to leave an eligible point (1) without essential service, (2) without any other certificated carrier, (3) with only one certificated carrier, or (4) with a 33 percent reduction in available capacity. A recent decision by the U.S. Court of Appeals for the District of Columbia has cast doubt on the Board's authority to require some of these notices, particularly the fourth one. This rulemaking proceeding examines whether and how the fourth notice should be modified or eliminated.

FARES, RATES AND TARIFFS

B2. ELIMINATION OF MANDATORY JOINT FARES.

Legal Authority: 49 USC 1374; 49 USC 1484; 49 USC 1601

CFR Citation: 14 CFR 399

Abstract: The mandatory joint fare requirements established in the Domestic Passenger Fare Investigation ended on January 1, 1983, with the end of the Board's jurisdiction over domestic passenger fares. The Board issued a proposal on its own initiative and in response to a petition filed by American Airlines to change the joint fare requirements in 1 of 3 ways. The Board considered eliminating the system in some or all markets, or making interlining mandatory upon request. The rulemaking will be terminated because the Board no longer has authority to regulate this area.

B4. EXTENSION OF FARE FLEXIBILITY TO MICRONESIA.

Legal Authority: 49 USC 1302; 49 USC 1386; 49 USC 1482

CFR Citation: 14 CFR 399

Abstract: In response to a petition filed by Air Micronesia and Continental Air Lines, the Board proposed to extend upward flexibility of 30 percent above the standard industry fare level (SIFL), and unlimited downward flexibility for passenger fares in and to Micronesia and American Samoa. The rulemaking is being terminated because the Board no longer has authority over fares between the U.S. and Micronesia.

B10. HAWAIIAN JOINT FARES.

Legal Authority: 49 USC 1374; 49 USC 1482

CFR Citation: 14 CFR 399

Abstract: The Board proposed to require certain airlines to provide interline service in Hawaii until the end of 1982, to aid in the transition to domestic fare deregulation. This rulemaking is being terminated because the Board no longer has authority to regulate fares in domestic air transportation.

Legal Authority: 49 USC 1301; 49 USC 1302; 49 USC 1324; 49 USC 1378; 49 USC 1379; 49 USC 1386

CFR Citation: 14 CFR 296; 14 CFR 221

Abstract: This rule would permit indirect cargo air carriers to participate in joint tariffs filed by direct air carriers and direct foreign air carriers for the foreign air transportation of cargo. This exemption would require that advance notice be given to the shipper that the shipment will be interlined, and that the shipment is not otherwise consolidated for rating purposes.

Legal Authority: 49 USC 1301; 49 USC 1302; 49 USC 1324; 49 USC 1378; 49 USC 1379; 49 USC 1386

CFR Citation: 14 CFR 296; 14 CFR 297

Abstract: This rule would modify the Board's rules on indirect cargo air carriers, foreign air freight forwarders, and foreign cooperative shippers associations, to allow direct air carriers to pay fees to the indirect carriers on shipments by the latter. The proposal would eliminate the express prohibition on payment of commissions to the indirect cargo carriers and would exempt them from the prohibition on soliciting rebates in section 403(b) of the Act. The rule was proposed in response to a request by a direct carrier in order to reduce regulatory intervention in the relationship between direct and indirect air carriers.

CFR Citation: 14 CFR 221

Abstract: This rule would exempt carriers from the tariff filing requirement for cargo service in intra-Alaska and intra-Hawaii markets. Under the Airline Deregulation Act, as of January 1, 1983, carriers will no longer be required to file passenger tariffs for those markets. The rule would implement the statutory mandate and establish parity between passenger and cargo service.

Legal Authority: 49 USC 1324; 49 USC 1371

CFR Citation: 14 CFR 207; 14 CFR 208; 14 CFR 212; 14 CFR 298; 14 CFR 380

Abstract: The Board has proposed substantial liberalizations of its charter rules, with a view toward the agency's sunset. The proposal seeks comments on replacing the current rules governing public charters with a new registration and bonding requirement for indirect air carriers or, alternatively, keeping some combination of a bonding and escrow requirement and some or all of the requirements designed to protect participants' expectations while eliminating all filing requirements on indirect air carriers. The proposal would also eliminate restrictions on eligible groups and dealings between charter operators and air carriers. The Board seeks to reduce the rules concerning charters to the minimum necessary for public protection. This proposal supersedes several other charter rulemaking proceedings. The Board is considering revising the proposal in light of recent changes in charter activity.

The NPRM further includes alternative proposals to set the per-person limit at $75,000 or $100,000 or to eliminate all minimum amounts, requiring a public notice instead. D31. GROUP CONTRACTOR EXEMPTIONS.

Legal Authority: 49 USC 1371; 49 USC 1386

CFR Citation: Not yet determined

Abstract: This rule would codify the Board's treatment of group contractors. A group contractor, like a charter operator, is an indirect air carrier that purchases air transportation from a direct air carrier and sells it to passengers as a principal rather than as an agent. Unlike charter operators, however, a group contractor is backed up financially by the direct carrier so that a passenger may look to the direct carrier for transportation or refund if the group contractor defaults. Group contractors are currently governed by Board Order 81-7-109, July 21, 1981, as modified by Order 82-3-132, March 24, 1982. They are sometimes referred to as "contract bulk fare operators."

Legal Authority: 49 USC 1381

CFR Citation: 14 CFR 399

Abstract: The Association of Retail Travel Agents (ARTA) petitioned the Board to adopt rules declaring certain avoidable forms of computer bias in automated reservation systems provided to travel agents by carriers to be an unfair or deceptive practice or unfair method of competition under section 411 of the Act. ARTA alleged that schedule and availability bias, fare bias and slow up-date bias reduces fare competition, inconveniences the traveling public, may increase some air fares, may erode travel agents' reputation for fairly representing airlines to the traveling public and may make it difficult or impossible for some carriers to compete with others on a price, schedule and/or services basis. CFR Citation: 14 CFR 234; 14 CFR 399

Abstract: The Board is considering amending its rules to include a policy statement that unrealistic scheduling will be considered an unfair or deceptive practice or an unfair method of competition under Section 411 of the Act. The requirement that certificated air carriers report their scheduled arrival performance, which has been waived temporarily, would also be eliminated because it is unnecessary.

Legal Authority: 49 USC 1324; 49 USC 1371; 49 USC 1377

CFR Citation: 14 CFR 241

Abstract: As part of the continuing effort to align the Board's accounting rules with generally accepted accounting principles, certain sections of the Uniform System of Accounts and Reports need to be deleted or amended. Abstract: The present definition of revenue and nonrevenue passengers for reporting purposes is stated in terms of the exemptions for free and reduced-rate transportation in sections 403(b) of the Act. These definitions have become outmoded in the process of fare deregulation. The Board is considering several options for revising these definitions.

CFR Citation: 14 CFR 250

Abstract: The Air Transport Association (ATA) petitioned the Board to modify its newly adopted oversales rule (14 CFR Part 250). In its recent comprehensive review of Part 250, the Board changed the rule to provide that carriers must compensate passengers that are denied boarding involuntarily because of Government requisition of their confirmed, reserved space. ATA argued that this provision should be revoked because it is inconsistent with the policy of the rule and because the Board does not have authority to order other Government agencies to reimburse carriers.

CFR Citation: 14 CFR 250

Abstract: The Aviation Consumer Action Project (ACAP) petitioned the Board to modify its oversales rule (14 CFR Part 250) prior to its effective date of January 23, 1983. In its recent comprehensive review of oversales, the Board modified Part 250 so that carriers need not pay denied boarding compensation to passengers that can be accommodated on alternative flights that are scheduled to arrive within 1-hour of the scheduled arrival time of the original flight. ACAP argued that this change will increase overbooking, undermine volunteer solicitation, and result in no compensation for passengers that are injured.

Abstract: This rule would inform passengers of their right to a seat in the non-smoking section of an aircraft by one of two proposed alternatives. ●254-1. DOMESTIC BAGGAGE LIABILITY.

CFR Citation: 14 CFR 253; 14 CFR 254, (New)

Abstract: The Board is proposing to amend its recently-issued domestic baggage liability rule. It proposes to modify the requirement that each airline provide specific notice on all tickets of its liability limitations, to allow the option of stating the minimum liability allowed by the Board rule. The Board also proposes to add baggage liability to the subjects required to be listed on the tickets under the rule allowing incorporation of contract terms by reference (Part 253). In addition, the CAB is requesting comment on alternative levels ($1000 and $1250) of minimum airline baggage liability. Pending the completion of this rulemaking, the effective date of the new rules has been stayed and the previous rules remain in effect. This action was in response to a petition by certain Members of the Air Transport Association to repeal the domestic liability rule prior to its effective date.

Abstract: In the past, the Board has held that a foreign air carrier's permit or exemption authority continues after the underlying bilateral Service Agreement expired, by virtue of section 558(c) of the Administrative Procedure Act. This rule would reverse that policy in order to ensure equal competitive opportunities for U.S. carriers.

Regulatory Flexibility Agenda

COMMODITY FUTURES TRADING COMMISSION

17 CFR Ch. I

Regulatory Flexibility Agenda

AGENCY: Commodity Futures Trading Commission.

ACTION: Publication of Regulatory Flexibility Agenda.

SUMMARY: The Commodity Futures Trading Commission, in accordance with the requirements of the Regulatory Flexibility Act, is publishing a semiannual agenda of significant rules which the Commission expects to propose or promulgate over the next year.

ADDRESS: Comments should be sent to: Commodity Futures Trading Commission, 2033 K Street, NW., Washington, D.C. 20581 Attention: Secretariat.

FOR FURTHER INFORMATION CONTACT: Nancy E. Yanofsky, Office of the General Counsel, Commodity Futures Trading Commission, 2033 K Street, NW., Washington, D.C. 20581 (202) 254–9880.

SUPPLEMENTARY INFORMATION: The Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.* ("RFA"), sets forth a number of requirements for agency rulemaking. Among other things, the RFA requires that:

(a) During the months of October and April of each year, each agency shall publish in the **Federal Register** a regulatory flexibility agenda which shall contain—

(1) a brief description of the subject area of any rule which the agency expects to propose or promulgate which is likely to have a significant economic impact on a substantial number of small entities;

(2) a summary of the nature of any such rule under consideration for each subject area listed in the agenda pursuant to paragraph (1), the objectives and legal basis for the issuance of the rule, and approximate schedule for completing action on any rule for which the agency has issued a general notice of proposed rulemaking; and

(3) the name and telephone number of agency official knowledgeable concerning the items listed in paragraph (1) (5 U.S.C. 602(a)).

Accordingly, the Commission has prepared an agenda of significant rules which it presently expects may be considered during the course of the next year.[1] The agenda lists all significant rules which may be considered by the Commission within the next year, irrespective of their potential impact on small entities.[2]

The agenda which the Commission is publishing today differs in two respects from past Commission regulatory flexibility agendas. First, the enactment on January 11, 1983, of the Futures Trading Act of 1982, Pub. L. No. 97–444, 96 Stat. 2294 (1983), which amended the Commodity Exchange Act, 7 U.S.C. 1, *et seq.* (1976 and Supp. V 1981) ("Act"), has resulted in the addition of several new agenda items, as well as the revision of several pending agenda items. The new agenda items generally reflect Congress' explicit or implicit direction that the Commission assume greater or altered regulatory responsibility in certain areas, such as registration, reparations, and the offer and sale of foreign futures contracts and options on certain agricultural commodities. To the extent the 1982 Act does not require new rulemaking initiatives, the Commission has retained the prior agenda items, with appropriate revisions to reflect the 1982 Amendments to the Act. Second, the Commission has changed the format of its agenda and the agenda contains certain information which has not appeared in prior Commission agendas. The Commission deems these changes to be appropriate in light of the Commission's decision to voluntarily participate in the Unified Agenda of Federal Regulations by submitting for publication therein its regulatory flexibility agenda.[3]

The Commission's April 1983 Regulatory Flexibility Agenda is as follows:

I. CURRENT AND ANTICIPATED RULEMAKING ACTIONS

1. Title: Revision of Rules Relating to Registration

The Futures Trading Act of 1982 amended the provisions of the Commodity Exchange Act relating to registration in several respects. The Commission anticipates that the following rulemaking proceedings will be initiated to implement those Provisions:

A. Title: Registration of Intrnducing Brokers and Associated Persons of Introducing Brokers, Commodity Trading Advisors and Commodity Pool Operators; Related Regulations.

Agency Contact: Kenneth M. Rosenzweig, Assistant Chief Counsel, or Lawrence B. Patent, Special Counsel, Division of Trading and Markets, Commodity Futures Trading Commission, 2033 K Street, NW., Washington, D.C. 20581 (202) 254–8955.

Effects on Small Business: Undetermined.

CFR Citation: 17 CFR Parts 1, 3, 4, 145, 155, 166 and 170.

Legal Authority: Sections 2(a)(1), 4d, 4f, 4g and 4k of the Commodity Exchange Act, 7 U.S.C. 2, 6d, 6f, 6g and 6k (1976 and Supp. V 1981), as amended by the Futures Trading Act of 1982, Pub. L. No. 97–444, 96 Stat. 2294 (1983).

Abstract: The Commission is proposing rules and rule amendments to implement recent amendments to the Commodity Exchange Act, contained in the Futures Trading Act of 1982. The new legislation requires those persons who were formerly characterized as "agents" of futures commission merchants to register with the Commission as introducing brokers and requires individuals engaged in the solicitation of customers, discretionary account clients, or pool participants (or the supervision of any person or persons so engaged) to register with the Commission as associated persons. Accordingly, the Commission will propose rules and rule amendments which would establish registration requirements and procedures for these new categories of registrants, prescribe

[1] The Commission's agenda represents its best estimate at this time of significant rules which will be considered sometime over the next twelve months. In this regard, Section 602(d) of the RFA, 5 U.S.C. 602(d), provides: Nothing in [Section 602] precludes an agency from considering or acting on any matter not included in a regulatory flexibility agenda, or requires an agency to consider or act on any matter listed in such agenda.

In addition to publishing the regulatory flexibility agenda required by Section 602 of the RFA, the Commission also makes available to the public, on a monthly basis, a calendar listing rules that the Commission intends to consider that month.

[2] The Commission has published its definitions of small entity to be used by the Commission in connection with rulemaking proceedings. 47 FR 18618 (Apr. 30, 1982). Pursuant to those definitions, the Commission is not required to list many of the agenda items contained in this regulatory flexibility agenda. *See* 5 U.S.C. 602(a)(1). Moreover, the Commission had previously certified, pursuant to Section 605 of the RFA, 5 U.S.C. 605, that certain items contained in this agenda will not have a significant economic impact on a substantial number of small entities. Accordingly, listing of an item in this regulatory flexibility agenda should not, in any event, be taken as a determination that a rule, when proposed or promulgated, will in fact require a regulatory flexibility analysis. However, the Commission hopes that the publication of an agenda which includes significant rules, regardless of their potential impact on small entities, may serve the public generally by providing and early and meaningful opportunity to participate in and comment on the formulation of new or revised regulations.

[3] The Unified Agenda of Federal Regulations is coordinated by the Office of Management and Budget pursuant to Executive Order 12291. While participation by executive agencies in that Agenda is mandatory, independent agencies, such as the Commission, participate in the Unified Agenda on a voluntary basis.

minimum financial, reporting, and recordkeeping requirements for introducing brokers and create certain exemptions from registration.

In connection with the Commission's rulemaking in this area, the Commission also intends to propose new fees to be charged applicants for registration in any capacity (see Agenda Item 10). Furthermore, the Futures Trading Act of 1982 amended the definition of commodity trading advisor and a conforming amendment to this definition also will be incorporated in the aforementioned rulemaking.

Timetable: NPRM expected during the Spring of 1983.

B. Title: Regulations Relating to All Categories of Applicants for Commission Registration and Commission Registrants: Statutory Disqualification.

Agency Contact: David S. Mitchell, Esquire, Division of Trading and Markets, Commodity Futures Trading Commission, 2033 K Street, NW., Washington, D.C. 20581 (202) 254–8955.

Effects on Small Business: Undetermined.

CFR Citation: 17 CFR Part 3.

Legal Authority: Sections 8a(1)–(5) and 8d of the Commodity Exchange Act, 7 U.S.C. 12a(1)–(5) (1976 and Supp. V 1981), as amended by the Futures Trading Act of 1982, Pub. L. No. 97–444, 96 Stat. 2294 (1983).

Abstract: The Futures Trading Act of 1982, in amended section 8a(2), establishes a system of statutory disqualifications for registration and permits the Commission, upon notice but without a prior hearing, to refuse to register, to register conditionally, to suspend or to place restrictions upon the registration of any applicant or registrant, if a person is subject to a statutory disqualification listed in Section 8a(2). Under Section 8a(2), the Commission also may revoke the registration of a registrant after such a hearing as may be appropriate. In addition, the Commission may refuse to register, register conditionally, suspend, revoke, or place restrictions upon the registration of any person after opportunity for a hearing, based upon certain conditions, acts or omissions enumerated in new Sections 8a(3) and (4) of the Act. The Commission intends to develop rules to implement the foregoing provisions by mid-1983.[4]

[4] Furthermore, the Futures Trading Act of 1982 amended the Commodity Exchange Act to explicitly permit the Commission to grant temporary licenses to any applicant for registration pursuant to such rules, regulations, or orders as the Commission may adopt.

Timetable: Action expected by mid-1983.

C. Title: Authorization To Perform Portions of the Commission's Registration Functions.

Agency Contact: Theodore W. Urban, Deputy Director, Division of Trading and Markets, Commodity Futures Trading Commission, 2033 K Street, NW., Washington, D.C. 20581 (202) 254–8955.

Effects on Small Business: Undetermined.

CFR Citation: Undetermined.

Legal Authority: Section 8a(10) and 17*o* of the Commodity Exchange Act, 7 U.S.C. 12a(10) and 21*o* (1976 and Supp. V 1981), as amended by the Futures Trading Act of 1982, Pub. L. No. 97–444, 96 Stat. 2294 (1983).

Abstract: The Futures Trading Act of 1982 permits the Commission to authorize any person to perform any portion of the Commission's registration function. In addition, that Act specifically permits the Commission to require a registered futures association to perform any portion of the Commission's registration function. The Commission intends, within the next year, to promulgate a rule delegating to a registered futures association or other person those registration functions which it wishes a registered futures association or other person to perform.

Timetable: NPRM expected by mid-1983.

2. Title: Regulations Permitting the Grant, Offer and Sale of Options on Physical Commodities (Dealer Options).

Agency Contact: Lawrence B. Patent, Special Counsel, Division of Trading and Markets, Commodity Futures Trading Commission, 2033 K Street, NW., Washington, D.C. 20581 (202) 254–8955.

Effects on Small Business: None.

CFR Citation: 17 CFR Parts 1, 3 and 32.

Legal Authority: Sections 4c(b), 4c(d), and 8a(5) of the Commodity Exchange Act, 7 U.S.C. 6c(b), 6c(d) and 12a(5) (1976 and Supp. v 1981).

Abstract: Congress has directed the Commission to issue regulations permitting grantors and futures commission merchants to grant, offer and sell so-called "dealer options" on certain physical commodities subject to certain conditions specified by statute and such other uniform and reasonable requirements as the Commission may prescribe. At present, the only persons who may lawfully grant dealer options are United States domiciles who, on May 1, 1978, were in the business of granting options on a physical commodity and in the business of buying, selling, producing or otherwise using that commodity.

The Commission has reproposed rules, principally concerning registration of dealer option grantors, requirements for the segregation of customer funds, disclosure to customers and prospective customers, and minimum financial requirements. The Commission expects to decide whether to adopt these rules in the later part of 1983.

Timetable: NPRM, 43 FR 59396 (Dec. 20, 1978); NPRM, 46 FR 23469 (Apr. 27, 1981); Final action is expected in the latter part of 1983.

3. Title: Contract Market Rules, Submission of Rules to the Commission, Exemption of Temporary Emergency Rules, Emergencies.

Agency Contact: Linda Kurjan, Assistant Director, Division of Trading and Markets, Commodity Futures Trading Commission, 2033 K Street, NW., Washington, D.C. 20581 (202) 254–8955.

Effects on Small Business: None.

CFR Citation: 17 CFR 1.41.

Legal Authority: Sections 5a(12) and 8a(5) of the Commodity Exchange Act, 7 U.S.C. 7a(12) and 12a(5) (Supp. V. 1981), as amended by the Futures Trading Act of 1982, Pub. L. No. 97–444, 96 Stat. 2294 (1983).

Abstract: The Commission has adopted emergency interim regulations to govern the submission of contract market rules pursuant to Section 5a(12) of the Commodity Exchange Act, as recently amended by the Futures Trading Act of 1982. In this regard, the amended Section 5a(12) revised certain procedures for Commission review of contract market rules. The Commission expects to adopt regulations in final form in late 1983 after its has gained experience in administering the amended Section 5a(12) under the interim rules. Public comment has been solicited and will be considered in the adoption of final rules.

In the context of this rulemaking proceeding, the Commission also intends to review, and determine whether to take final action on, its prior proposal to amend the definition of the term "rule" in Commission regulation 1.41(a)(1), 17 CFR 1.41(a)(1). That proposal, on which public comment has already been solicited, would amend the definition of the term "rule" to state explicitly that it includes action by a contract market, its governing board, or any of its committees or officials which are adopted or taken pursuant to enabling authority set forth in any existing rule of the contract market.

Timetable: Prior Proposal: NPRM, 45 FR 84082 (Dec. 22, 1980); Comment period, December 22, 1980–February 2, 1981. Emergency Interim Rules, 48 FR

4256 (Jan. 28, 1983); Comment period, January 28, 1983–March 29, 1983. Final action is expected to be taken in late 1983.

4. Title: Regulations Pertaining to Arbitration.

Agency Contact: Linda Kurjan, Assistant Director, Division of Trading and Markets, Commodity Futures Trading Commission, 2033 K Street, NW., Washington, D.C. 20581 (202) 254–8955.

Effects on Small Business: None.

CFR Citation: 17 CFR 12.21, 180.2 and 180.3.

Legal Authority: Sections 2a(11), 5a(11), 8a(5) and 14 of the Commodity Exchange Act, 7 U.S.C. 4a(j), 7a(11), 12a(5) and 18 (1976 Supp. V 1981), as amended by the Futures Trading Act of 1982, Pub. L. No. 97–444, 96 Stat. 2294 (1983).

Abstract: The Commission has proposed amendments to its rules governing arbitration and reparations proceedings which would (1) authorize the use of binding pre-dispute arbitration agreements, thereby effectively eliminating the right of a customer who voluntarily enters into such an agreement to seek reparations with respect to a dispute arising under the agreement; (2) provide the customer with a choice of arbitration forums; and (3) require contract markets to provide that their members will bear the costs of the proceedings. The proposed rules are intended to promote the use of arbitration as a dispute-resolution alternative to reparations proceedings. At the time the arbitration proposals and comments are considered, conforming arbitration rules required by the Futures Trading Act of 1982 will also be reviewed by the Commission.[5]

Timetable: NPRM, 46 FR 60834 (Dec. 14, 1981); Final action is expected by Spring 1983.

5. Title: Minimum Financial and Related Reporting Requirements for Futures Commission Merchants.

Agency Contact: Chief Accountant, Division of Trading and Markets, Commodity Futures Trading Commission, 2033 K Street, NW., Washington, D.C. 20581 (202) 254–8955.

Effects on Small Business: Not Applicable.[6]

CFR Citation: 17 CFR 1.17.

Legal Authority: Sections 4d, 4f and 8a of the Commodity Exchange Act, 7 U.S.C. 6d, 6f and 12a (1976 and Supp. V 1981).

Abstract: The Commission has proposed amendments to certain of its minimum financial and related reporting requirements for futures commission merchants ("FCMs"), as well as the basic financial reporting form for FCMs, Form 1–FR. One proposed amendment would alter the minimum dollar amount of adjusted net capital which must be maintained by FCMs. The Commission has also proposed a further amendment to the minimum financial regulations regarding the treatment of undermargined accounts. In addition, the Commission has proposed one specific capital charge relating to concentration of positions, and has invited further comment to assist it in the development of further appropriate minimum financial regulations concerning concentration of positions.

Timetable: NPRM, 45 FR 42033 (June 25, 1980), and 45 FR 79498 (Dec. 1, 1980); Final action is expecterd during the latter part of 1983.

6. Title: Domestic Exchange-Traded Commodity Options; Expansion of Pilot Program to Include Options on Domestic Agricultural Commodities.

Agency Contact: Kenneth M. Rosenzweig, Assistant Chief Counsel, or Lawrence B. Patent, Special Counsel, Division of Trading and Markets, Commodity Futures Trading Commission, 2033 K Street, NW., Washington, D.C. 20581 (202) 254–8955.

Effects on Small Business: No significant impact on small entities anticipated.[7]

CFR Citation: 17 CFR Part 33.

Legal Authority: Section 4c(c) of the Commodity Exchange Act, 7 U.S.C. 6c(c) (Supp. V 1981), as amended by the Futures Trading Act of 1982, Pub. L. No. 97–444, 96 Stat. 2294 (1983).

Abstract: Recent amendments to the Commodity Exchange Act have removed a long standing ban on the trading of options on certain domestic agricultural commodities. Specifically, Section 206 of the Futures Trading Act of 1982 authorizes the Commission to establish a pilot program, not to exceed three years in length, for the trading on domestic exchanges of options on the domestic agricultural commodities specifically enumerated in Section 2(a) of the Commodity Exchange Act. Options involving the domestic agricultural commodities, however, will continue to remain unlawful until such time as the Commission establishes such a pilot program and other conditions set forth in the new legislation are met. Although any such pilot program would be comparable to, or included in, the option pilot program already established by the Commission for the trading of options on futures contracts and options on physicals, the Commission has issued an advance notice of proposed rulemaking requesting comments on a number of issues prior to proposing specific rules to govern the trading of agricultural options.

Timetable: ANPRM, 48 FR 6128 (Feb. 10, 1983); Comment period February 10, 1983—April 11, 1983; NPRM is expected by mid-1983.

7. Title: Risk Disclosure by Futures Commission Merchants to Customers.

Agency Contact: David S. Mitchell, Esquire, Legal Section, Division of Trading and Markets, Commodity Futures Trading Commission, 2033 K Street, NW., Washington, D.C. 20581 (202) 254–8955.

Effects on Small Business: None.

CFR Citation: 17 CFR 1.55(d).

Legal Authority: Sections 2a(1), 4b, 4d, 4f and 8a of the Commodity Exchange Act, as amended, 7 U.S.C. 2, 6b, 6d, 6f and 12a (1976 and Supp. V 1981).

Abstract: The Commission has proposed an amendment to rule 1.55 that would make explicit the existing fiduciary obligations of a futures commission merchant ("FCM") to its customers. As such, it would confirm that the prescribed risk disclosures, set forth in the reguation, are not the exclusive disclosures required from an FCM to its existing and prospective futures customers and that the FCM is still obliged to disclose all material information to its customers even if the information is not specifically required by the rule.

Timetable: NPRM, 47 FR 52723 (Nov. 23, 1982); Comment period November 23, 1982—January 24, 1983; Final action expected during the Spring of 1983.

[5] In this regard, the Futures Trading Act of 1982 amended the Act to permit claims over $15,000 to be arbitrated, revised the definition of customer and deleted the restrictions on the procedure resulting in compulsory payment.

[6] The relevant provisions of the Regulatory Flexibility Act do not apply to rules proposed prior to the effective date of that Act, January 1, 1981. *See* 5 U.S.C. 601 note.

[7] The Commission has previously determined that designated contract markets, registered futures commission merchants and commodity pool operators, and large traders are not "small entities" for purposes of the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq. See* 47 FR 18618 (Apr. 30, 1982). *See also* note 2, *supra*. In light of the Commission's definitions of small entity, it is not anticipated that rules which primarily will impact those entities will have a significant economic impact on a substantial number of small entities. *See* 5 U.S.C. 605(b).

Legal Authority: Sections 4g and 8a of the Commodity Exchange Act, as amended, 7 U.S.C. Section 6g and 12a (1976 and Supp. V 1981).

Abstract: The Commission has proposed amendments to its regulations to require futures commission merchants ("FCMs") to include in the monthly statements of account activity furnished to customers a detailed accounting of commissions and fees charged to the customer's account during the preceding month. The Commission has also requested comments as to whether it should continue to require FCMs to include in their monthly statements to option customers information relating to commissions and fees. The Commission has stated in its proposed rulemaking that it believes that the presentation of such information in summary form in monthly activity statements would be of benefit to futures customers.

Abstract: The National Futures Association ("NFA"), which is registered as a futures association under Section 17 of the Commodity Exchange Act, submitted a petition for adoption of a Commission rule on November 15, 1982, pursuant to 17 CFR 13.2. Proposed Commission regulation 170.15 would require each person required to register as a futures commission merchant to become and remain a member of at least one futures association registered under Section 17 of the Act.

Legal Authority: Sections 2(a)(11), 8a, 17(d), and 26 of the Commodity Exchange Act, 7 U.S.C. Sections 4a(j), 12a, 21(d), and 16a (1976 and Supp. V 1981), as amended by the Futures Trading Act of 1982, Pub. L. No. 97–444, 96 Stat. 2294 (1983), and the Independent Offices Appropriations Act, 31 U.S.C. 483a.

Abstract: Section 26 of the Commodity Exchange Act, as recently amended by Congress, confirms the Commission's authority to establish a schedule of fees for services rendered and activities performed by the Commission in conjunction with its administration and enforcement of the Act. In amending Section 26, Congress specifically intended the Commission to establish a schedule of fees for (1) audits of firms which are not members of contract markets or a registered futures association; (2) rule enforcement reviews and financial reviews of contract markets and registered futures associations; (3) initial and renewal registrations; (4) contract market designations; (5) reparations fees; (6) Commission publications; (7) Freedom of Information Act requests; and (8) transcripts of Commission meetings.

The Commission anticipates that any changes in reparation fees will be considered at the same time the Commission considers changes in its reparation rules (see Agenda Item 23), and that any changes in registration fees will be considered at the same time the Commission considers amendments to its rules governing the registration of introducing brokers and associated persons (see Agenda Item 1(A)). The Commission expects to consider proposed fee schedules in other areas in mid-1983.

CFR Citation: 17 CFR Part 31.

Legal Authority: Section 8a and 19 of the Commodity Exchange Act, 7 U.S.C. Sections 12a and 23 (1976 and Supp. V 1981), as amended by the Futures Trading Act of 1982, Pub. L. No. 97–444, 96 Stat. 2294 (1983).

Abstract: Over the next few months, the Commission will consider and propose rules to govern certain leverage transactions. It is likely that such rules will concern registration, requirements for the segregation of funds, issuance of disclosure statements, and recordkeeping and reporting requirements.

A moratorium on the entry of new firms into the gold and silver leverage business which were not in that business on June 1, 1978, has been in effect since January 4, 1979. That moratorium, as well as a similar existing moratorium relating to leverage transactions in commodities other than gold and silver, will be considered in the context of the Commission's leverage rulemaking.

Abstract: Section 14(b) of the Commodity Exchange Act, as recently amended by Congress, authorizes the Commission to "promulgate such rules, regulations, and orders as it deems necessary or appropriate for the efficient and expeditious administration of [Section 14 of the Act]." The effective date of this amendment, to Section 14(b) is 120 days after the date of enactment of the Futures Trading Act of 1982, which was enacted on January 11, 1983. Pursuant to Section 14(b), as amended, the Commission intends to propose revisions to its rules relating to reparation proceedings to produce greater efficiency in the review and processing stages of the proceeding, and to expedite the final disposition of reparation claims. To that end, the Commission on February 15, 1983, published an advance notice of proposed rulemaking inviting public comment on changes that are currently under consideration. Among these

[8] *See* note 7, *Supra.*

changes are: (1) in addition to the existing summary and oral hearing procedures, instituting a voluntary decisional procedure, analogous to commercial arbitration, that would result in an expeditious, final, and unappealable decision; (2) changing from $5,000 to $10,000 the monetary ceiling on claims that could be heard pursuant to the Commission's summary procedure; (3) in cases where an oral hearing may be afforded, creating the position of "Proceedings Officer," an employee of the Commission who would assist in preparing a case record for a hearing by an Administrative Law Judge; and, (4) dismissing, rather than staying, a reparation proceeding as to respondents who are in receivership or bankruptcy proceedings or as to which an arbitration or civil court proceeding based on the same set of facts was pending at the time the reparation complaint was filed. The Commission also invited public comment on any suggested changes that would simplify the Reparation Rules and improve or expedite the reparations procedure.

Legal Authority: Sections 4 and 8a(5) of the Commodity Exchange Act, 7 U.S.C. sections 6 and 8a(5) (1976 and Supp. V 1981), as amended by the Futures Trading Act of 1982, Pub. L. No. 97–444, 96 Stat. 2294 (1983).

Abstract: The Futures Trading Act of 1982 added a new Section 4(b) to the Act which confirms the Commission's existing authority to regulate the offer and sale by persons located in the United States of futures contracts made on foreign exchanges. This new provision explicitly provides that the Commission may adopt rules concerning fraud, minimum financial standards, risk disclosure, filing of reports, keeping of books and records, safeguarding of customer funds and registration. Furthermore, it is provided that the Commission's rules may vary depending upon the particular foreign board of trade or market. The Commission intends to review and issue a proposal regarding the appropriate regulatory scheme for the offer and sale of foreign futures contract in 1984.

Legal Authority: Sections 5, 5a and 8a of the Commodity Exchange Act, 7 U.S.C. sections 7, 7a and 12a (1976 and Supp. V 1981) as amended by the Futures Trading Act of 1982, Pub. L. No. 97–444, 96 Stat. 2294 (1983).

Abstract: The Commission has issued an advance notice of proposed rulemaking and requested public comment on the adequacy of existing contract market rules and practices designed to prevent actual or apparent conflicts of interest from improperly influencing market or other actions taken by various governing bodies of designated contract markets. The Commission currently is reviewing the public comments received to determine whether further Commission action is necessary or appropriate.

Abstract: The Commission has proposed a rule which would require exchanges to collect, process and forward to to the Commission, in machine readable form, information which the Commission currently collects from futures commission merchants and foreign brokers on series '01 reports and form 102. The rule is intended to enhance effective market surveillance programs by the exchanges and to alleviate, to some extent, the duplicative reporting burden currently imposed on some exchange member firms.

Legal Authority: Sections 2(a), 5, 5a, and 6 of the Commodity Exchange Act, 7 U.S.C. 2, 7, 7a and 8 (1976 and Supp. V 1981), as amended by the Futures Trading Act of 1982, Pub. L. No. 97–444, 96 Stat. 2294 (1983).

Abstract: Section 218 of the Futures Trading Act of 1982 amends Section 6 of the Commodity Exchange Act by providing a time limitation during which the Commission must approve or deny an application for designation as a contract market. The statute includes a provision staying this time period where an application is materially incomplete. In addition, Section 101 of the Futures Trading Act of 1982 provides a specialized procedure and requirements for the designation of futures contracts based on stock indices or options thereon. The Commission will consider whether, in light of these new provisions, amendments to Guideline No. 1, which provides criteria by which the Commission determines whether a board of trade has complied with the economic and public interest requirements for contract market designation, are appropriate. As noted below, the Commission recently revised and redrafted its interpretive statement, Guideline No. 1, as an appendix to 17 CFR Part 5.

Abstract: As discussed above, Congress enacted the Futures Trading Act of 1982 on January 11, 1983 ("1982 Amendments"). The 1982 Amendments contain numerous provisions which will require the Commission to promulgate conforming amendments to its regulations. Over the course of the next year, the Commission intends to review and take appropriate action with respect to all of its existing rules to ensure that they are consistent with the 1982 Amendments.[14]

II. COMPLETED ACTIONS

1. *Title:* Economic and Public Interest Requirements for Contract Market Designation.

Agency Contact: Blake Imel, Deputy Director, or Paul M. Architzel, Chief Counsel, Division of Economics and Education, Commodity Futures Trading Commission, 2033 K Street, NW., Washington, D.C. 20581 (202) 254–3203; (202) 254–6990.

Action: Publication of Interpretive Guidline as an Appendix, 47 FR 49832 (Nov. 3, 1982).

2. *Title:* Domestic Exchange-Traded Commodity Options; Expansion of Pilot Program to Include Options on Physicals.

Agency Contact: Lawrence B. Patent, Special Counsel, or Kenneth M. Rosenzweig, Assistant Chief Counsel, Division of Trading and Markets, Commodity Futures Trading Commission, 2033 K Street, N.W., Washington, D.C. 20581 (202) 254–8955. For information concerning amendments to 17 CFR Part 15–18 and 21, contact: Lamont L. Reese, Associate Director, Division of Economics and Education, Commodity Futures Trading Commission, 2033 K Street, NW., Washington, D.C. 20581 (202) 254–3310.

Action: The Commission published these rules in the **Federal Register** as final rules on December 22, 1983. *See* 47 FR 56996 (Dec. 22, 1982). Some of the rules, however, will not become effective until the expiration of thirty calendar days of continuous session of Congress after the Commission transmitted the rules to the House Agriculture Committee and the Senate Committee on Agriculture, Nutrition and Forestry. *See* 7 U.S.C. 6c(c) (Supp. V 1981). It is anticipated that the Commission will publish a notice of the effective date of those rules sometime in March, 1983.

3. *Title:* Bankruptcy and Related Regulations.

Agency Contact: Andrea M. Corcoran, Director, or Suzanne W. Ryder or Bruce A. Beatus, Attorneys, Division of Trading and Markets, Commodity Futures Trading Commission, 2033 K Street, N.W., Washington, D.C. 20581 (2020 254–8955.

Action: Final Rules, 48 FR 8716 (March 1, 1983).

III. PUBLIC COMMENT

The Commission invites public comment on its agenda.

Issued in Washington, D.C., on March 1, 1983, by the Commission.

Jane K. Stuckey,

Secretary to the Commission.

---

[13] In addition, the Futures Trading Act of 1982 amended Section 4a of the Act, 7 U.S.C. 6a (1976), to give the Commission additional authority with respect to speculative position limits.

[14] In this connection, the Commission notes that, in the Futures Trading Act of 1982, Congress directed registered furtures associations, subject to Commission oversight, to establish training standards and proficiency examinations for persons involved in the solicitation of commodity futures transactions, the supervisors of such persons, and all persons for which it has registration responsibilities, as well as a program to audit and enforce compliance with such standards. Accordingly, the Commission has deferred temporarily its rulemaking proceeding regarding proficiency examinations for applicants for registration as associated person (*see* 46 FR 20679 (Apr. 7, 1981)) pending the expected assumption by a registered futures association of regulatory responsibility in this area.

[15] Other than the Commission rules currently under review in conjunction with the Commission's pending and anticipated rulemakings as discussed above, the Commission does not intend to conduct any reviews of its existing regulations during the next year. In this regard, pursuant to the plan established by the Commission pursuant to Section 610 of the Regulatory Flexibility Act, 5 U.S.C. 610, for a ten year periodic review of its rules, the Commission will not commence review of its rules until November, 1985. 46 FR 29952 (June 4, 1981).

We note that during the next year the Commission will be devoting significant resources to several studies mandated by Congress in the Futures Trading Act of 1982. *See* The Futures Trading Act of 1982, Pub. L. No. 97–444, 205(4) (trading activities of large hedgers in cattle, hog and pork belly markets), 236(a) (effects on economy of trading in futures contracts and options), 236(b) (effects of trading in futures markets by persons possessing material nonpublic information), and 237 (regulatory experience of National Futures Association) 96 Stat. 2300, 2324–25, 2325 and 2325–26 (1983). Some of these studies could result in suggestions for the issuance or revision of Commission rules.

Semiannual Regulatory Flexibility and Unified Agendas

CPSC

CONSUMER PRODUCT SAFETY COMMISSION

16 CFR Ch. II

Regulatory Flexibility Act; Semiannual Regulatory Flexibility and Unified Agendas

AGENCY: Consumer Product Safety Commission.

ACTION: Publication of regulatory flexibility and unified agendas.

SUMMARY: The Regulatory Flexibility Act (RFA) requires each Federal agency to publish twice each year a regulatory flexibility agenda listing for a 12-month period rules expected to be proposed or promulgated which may have a significant economic impact on a substantial number of small entities. In this document the Commission publishes its fifth semiannual regulatory flexibility agenda.

Additionally, although not required to do so, the Commission has elected to comply voluntarily with those provisions of Executive Order 12291 which require executive agencies to publish an agenda of regulatory actions under development or review during the succeeding 12 months by the agency, and which further provide that such an agenda may be incorporated with an agency's regulatory flexibility agenda published in accordance with the RFA.

DATES: The Commission welcomes comments from small entities, including small businesses, small organizations, and small governmental units, upon each subject area of the agenda. Written comments concerning the agenda should be received in the Office of the Secretary by June 28, 1983.

ADDRESS: Comments on the regulatory flexibility agenda should be sent to the Office of the Secretary, Consumer Product Safety Commission, Washington, D.C. 20207, (301) 492-6800, and should be titled "Regulatory Flexibility Agenda."

FOR FURTHER INFORMATION CONTACT: For further information on the agenda in general, contact: Iris R. Hoffman, Office of Program Management, Consumer Product Safety Commission, Washington, D.C. 20207, (301) 492-6554. All inquiries from the press and broadcast media should be directed to Lou Brott, Office of Public Affairs, Consumer Product Safety Commission, Washington, D.C. 20207 (202) 634-7780. For further information regarding a particular item on the agenda, consult the individual listed in the column headed "Contact" for that particular item.

SUPPLEMENTARY INFORMATION: The Regulatory Flexibility Act (5 U.S.C. 601 et seq.), contains several provisions intended to reduce unnecessary and disproportionate regulatory requirements on small businesses, small governmental organizations, and other small entities. Section 602 of the Act (5 U.S.C. 602) requires each agency to publish twice each year a regulatory flexibility agenda containing a brief description of any rule expected to be proposed or promulgated which may have a "significant economic impact" on a "substantial number" of small entities. The agency must also provide a summary of the objectives and legal basis for each agenda item and a schedule for acting on each item as well as the name and address of the agency official knowledgeable about the items listed. Further, agencies are required to provide notice of their agendas to small entities and solicit their comments by direct notification or by inclusion in publications likely to be obtained by such entities.

In addition, President Reagan's Executive Order 12291 requires executive agencies to publish, twice each year, a regulatory agenda of proposed regulations under development or review and further states that such an agenda may be incorporated with an agenda published under the RFA. While the Commission, as an independent regulatory agency, is not required to follow E.O. 12291, the Commission is complying voluntarily with those provisions concerning publication of a regulatory agenda.

In the **Federal Register** of October 28, 1982, (47 FR 48884), the Commission published its fourth agenda under the RFA. In this notice, the Commission publishes its fifth semiannual agenda and also hereby complies voluntarily with E.O. 12291.

The fifth semiannual regulatory flexibility agenda, published below, lists for a 12-month period anticipated regulatory activities under development or review. These include all such activities, not only those which may have a significant economic impact on a substantial number of small entities.

DATED: September 30, 1982.

Sheldon Butts,

Acting Secretary.

CONSUMER PRODUCT SAFETY COMMISSION (CPSC) — Current and Projected Rulemakings

CONSUMER PRODUCT SAFETY STANDARD FOR "CHAIN SAWS AND THEIR COMPONENT AND REPLACEMENT PARTS"

Priority: Major

Legal Authority: 15 USC 2058 (a) CPSA

CFR Citation: 16 CFR Chapter II

Abstract: Efforts in 1979 and 1980 to develop a voluntary chain saw standard were deemed unsuccessful. Subsequently, the Commission decided that a mandatory standard was needed to reduce kickback injuries and that it should be developed by the staff. On May 11, 1981, the Commission published a notice of proceeding to develop a safety standard. Under amended statutory authority, the Commission issued an advance notice of proposed rulemaking in May, 1982, with a 60-day comment period. Commission staff has continued working with industry to develop a voluntary standard which addresses chain saw kickback injuries. The staff has also performed a preliminary evaluation of a draft industry standard which addresses chain saw kickback injuries. During FY 1983, the Commission plans to decide to either support a voluntary standard or develop a consumer product safety standard.

UPHOLSTERED FURNITURE CIGARETTE FLAMMABILITY STANDARD

Priority: Major

Legal Authority: 15 USC 1193; 15 USC 1194

CFR Citation: 16 CFR 1633

Abstract: In October, 1981, the Commission voted to defer mandatory regulatory action on upholstered furniture in order to work with manufacturers participating in the Voluntary Action Program of the Upholstered Furniture Action Council. This program may eliminate the need for a mandatory standard. Several promising new materials and techniques for improving the cigarette ignition resistance of upholstered furniture are expected to be incorporated in commercial furniture in 1983. An evaluation of the industry's voluntary program will be carried out by Commission staff late 1983.

COAL AND WOODBURNING STOVES LABELING REQUIREMENTS -- WOOD HEATING EQUIPMENT

Priority: Agency Determination

Legal Authority: 15 USC 2076(e) CPSA

CFR Citation: 16 CFR 1406

Abstract: On June 8, 1979 the Commission granted a petition that requested that manufacturers be required to label and provide instructions on the minimum clearance to combustibles and the chimney type required for these stoves, as well as on other information for operating and maintaining these stoves. Hazard data show injuries and deaths associated with these stoves, some of which are caused by improper installation, operation, and maintenance of the types addressed by this rule. On Nov. 17, 1980 labeling requirements were proposed. In July, 1981 the Commission decided to defer a decision on a final rule pending staff review of current changes in voluntary standards and industry conformance to those standards. In early December, 1982, the staff briefed the Commission on their evaluation of the scope of industry voluntary labeling efforts and on options for consideration of a final rule for coal and wood burning appliances. On January 19, 1983 the Commission voted to issue a final rule.

PETITION CP 82-6. PETITION TO INITIATE A MANDATORY STANDARD FOR PRESSED WOOD PRODUCTS EMITTING UREA-FORMALDEHYDE

Priority: Agency Determination

Legal Authority: 5 USC 553(a) Administrative Procedure Act

CFR Citation: Not yet determined

Abstract: In correspondence received August 19, 1982, the Consumer Federation of America (CFA) petitioned the Commission to institute a mandatory product safety standard for pressed wood products emitting urea-formaldehyde. Work on this petition has been included within the Commission's ongoing priority project on pressed wood products. On January 12, 1983, the staff briefed the Commission regarding the status of this project, and on all currently available information pertaining to the CFA petition.

AMENDMENTS TO CLOTHING TEXTILE STANDARD APPAREL REVISION

Legal Authority: 15 USC 1194 FFA

CFR Citation: 16 CFR 1610

Abstract: On August 12, 1982, a notice was published soliciting comments on proposed amendments to regulations implementing the Standard for the Flammability of Clothing Textiles (16 CFR 1610). The notice proposes

that persons or firms subject to the standard, a) be permitted to devise and implement reasonable and representative tests to support guaranties, b) be exempt from further testing requirements to support guaranties for fabrics made entirely from acrylic, modacrylic, nylon, olefin and polyester fibers, and c) the record retention period of tests supporting guaranties be reduced from three years to one year. These amendments would reduce industry's testing and recordkeeping costs while maintaining the level of protection the standard affords consumers.

FLAMMABILITY CLASSIFICATION REGULATIONS

Legal Authority: 15 USC 1261(l) FHSA; 15 USC 1269 (a) FHSA

CFR Citation: 16 CFR 1500.3(b)(10); 16 CFR 1500.3(c)(6); 16 CFR 1500.43

Abstract: The Federal Hazardous Substances Act, as amended, authorizes the Commission to issue regulations to define the terms "extremely flammable," "flammable," and "combustible" for purposes of labeling household substances which may present a flammability hazard. The Commission is developing proposed regulations to change from an open-cup to a close-cup apparatus, and to specify an appropriate procedure for classifying flammability characteristics of household substances. If issued on a final basis, the proposed regulations would make the apparatus and procedures used by the Commission compatible with flammability tests used by other Federal agencies.

CLOTHING TEXTILES AND VINYL PLASTIC FILM FLAMMABILITY STANDARDS AMENDMENT

Legal Authority: 15 USC 1193 FFA; 15 USC 1194 FFA

CFR Citation: 16 CFR 1610; 16 CFR 1611

Abstract: Clarifying amendments were proposed in 1981 to resolve questions which have arisen about interpretation of the standards and their applicability to various products, including multilayer fabrics with an outer layer of film or coated fabric, such as those used for disposable diapers. On Feb. 24, 1982, the Commission published a final amendment to the regulation to exempt plastic film used as the outer layer of a disposable diaper from any requirement for separate testing if a full thickness of the assembled article passes the test in the applicable standard. A notice to extend the period for receipt of written comments on all remaining issues was published at the same time.

ALTERNATE APPAREL TEST METHOD - ENFORCEMENT AND ADMINISTRATIVE RULE

Legal Authority: 15 USC 1194 FFA

CFR Citation: 16 CFR 1610; 16 CFR 1615; 16 CFR 1616

Abstract: In May 1982, three Federal Register Notices were published concerning a proposed enforcement and administrative rule for 16 CFR 1610 - Standard for the Flammability of Clothing Textiles, 16 CFR Part 1615 - Flammability Standard for Children's Sleepwear, Sizes 0 through 6X, and 16 CFR Part 1616 - Flammability Standard for Children's Sleepwear, Sizes 7 through 14 (05/17/82, 47 FR 21081, 21085 and 21089). This rule will permit the use of alternate apparel flammability test methods with these standards. This rule would permit a reduction in industry's testing costs while maintaining the levels of protection the standards now afford consumers.

Legal Authority: 15 USC 1261 FHSA; 15 USC 1262 FHSA; 15 USC 2058 FHSA

CFR Citation: 16 CFR 1500; 16 CFR 1513

Abstract: On April 7, 1982, the Commission approved initiation of a rulemaking proceeding to address the risk of strangulation to children from falling toy chest lids following review of hazard information identifying injuries and deaths to children associated with these products. The Commission, on November 17, 1982, voted to proceed with an Advanced Notice of Proposed Rulemaking. On February 9,

1983 the Commission directed the staff to issue a Notice of Proposed Rulemaking which will address the risk of strangulation to children from falling toy chest lids.

PROPOSED REPLACEMENT ENFORCEMENT POLICY STATEMENTS ON APPLICABILITY OF THE CHILDREN'S SLEEPWEAR STANDARDS

Legal Authority: 15 USC 1194 FFA

CFR Citation: 16 CFR 1615.64; 16 CFR 1616.65

Abstract: Dec. 11, 1981 a decision of U.S. Court of Appeals for the Fourth Circuit in National Knitwear Manufacturers Association v. CPSC, 666 F. 2d 81, set aside the Commission's statements of policy on the applicability of the children's sleepwear standards for procedural reasons. Since the enforcement policy statement serves a useful purpose both for industry and the agency, the Commission has voted to propose a replacement enforcement policy statement.

ASBESTOS IN SELECTED CONSUMER PRODUCTS

Legal Authority: 15 USC 1261 et seq FHSA; 15 USC 2058 CPSA; 15 USC 2080(b) CPSA

CFR Citation: Not yet determined

Abstract: Hazard information shows that asbestos presents a risk of cancer respiratory disease. On October 17, 1979 the Commission issued an Advanced Notice of Proposed Rulemaking on asbestos in consumer products. On March 4, 1982 the Commission decided to convene a Chronic Hazards Advisory Panel (CHAP) on Asbestos in Consumer Products. The CHAP began meeting in January 1983 and is expected to deliver its report by May 1983. Based on the findings of the Panel, the Commission will decide what additional regulatory activity including an ANPRM, may be appropriate.

Unified Agenda of Federal Regulations

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Ch. I

Unified Agenda of Federal Regulations

AGENCY: Federal Communications Commission.

ACTION: Publication of the Unified Agenda.

SUMMARY: The Commission publishes the Unified Agenda (formerly entitled the Semi-Annual Agenda) to provide the public with adequate notice of all major and other significant proceedings under development or review. The agenda also provides the CFR Citations and Legal Authorities which govern these proceedings. This is in accordance with Executive Order 12291 and OMB Bulletin No. 82-16. In addition, the agenda, in compliance with the Regulatory Flexibility Act of 1980 (Pub L. 96-354) includes notations on the applicability of the Regulatory Flexibility Act to each item. The Unified Agenda will be published in the **Federal Register** in April and October of each year.

DATE: This information is as of April 1983.

ADDRESS: Federal Communications Commission, 1919 M Street, NW., Washington, D.C. 20554.

FOR FURTHER INFORMATION CONTACT: Claudette Pride, Office of the Managing Director, (202) 632-7513.

SUPPLEMENTARY INFORMATION:

Unified Agenda of All Major and Other Significant Proceedings

The Commission encourages public participation in the FCC rule making process. To help keep the public informed of significant rule making proceedings, the Commission has prepared an agenda of important proceedings now in progress. OMB will publish the Unified Agenda in the **Federal Register** in April and October of each year.

The following terms may be helpful in understanding the status of the proceedings included in this report:

A Docket Number is assigned to a proceeding if the Commission has issued either a Notice of Proposed Rule Making or a Notice of Inquiry in regard to the matter under consideration. Since January 1, 1978, the Commission has used docket numbers which consist of the last two digits of the calendar year in which the docket was established plus a sequential number which begins at 1 with the first docket initiated during a calendar year (e.g. Docket 78-1 or Docket 79-1). The abbreviation for the responsible Bureau usually precedes the docket number, is "BC Docket 79-164." When a docket number consists of only five digits (e.g. Docket 29622), this indicates that the docket was established before January 1, 1978.

Notice of Inquiry (NOI)— issued by the Commission when it is seeking information on a broad subject or trying to generate ideas in a given topic. A Comment period is specified during which all interested parties may submit comments.

Notice of Proposed Rule Making (NPRM)—issued by the Commission when it is proposing a specific change to the FCC Rules and Regulations. Before any changes are actually made, interested parties may submit written comments on the proposals.

Memorandum Opinion and Order (MO&O)—issued by the Commission to deny a petition for rule making, conclude an inquiry, modify a decision, or deny a petition for reconsideration of a decision.

Report and Order (R&O)—issued by the Commission to state a new or amended rule or state that the FCC Rules will not be changed

Rule Making (RM) Number—assigned to a proceeding after the appropriate Bureau/Office has reviewed a petition for rule making, but before the Commission has taken action on the petition.

Federal Communications Commission.

COLLECTION OF COST OF SERVICE INFORMATION FROM ELECTRIC UTILITIES UNDER SECTION 133 OF PURPA

Priority: Agency Determination, Task Force

Legal Authority: PURPA, Sec 133

CFR Citation: 18 CFR 290

Abstract: Section 133 of PURPA requires the Commission to collect certain cost of service data from electric utilities. Regulations implementing Section 133 were issued in 1979. A notice of inquiry requested public comment on use of the data and on ways in which the burden of compliance on the industry could be reduced. The Commission may issue an NOPR to propose implementation of those suggestions.

GENERIC DETERMINATION OF RATE OF RETURN ON COMMON EQUITY FOR ELECTRIC UTILITIES

Priority: Agency Determination

Legal Authority: Federal Power Act, Sec 201; Federal Power Act, Sec 205; Federal Power Act, Sec 206

CFR Citation: 18 CFR 37

Abstract: The proposed rule would establish procedures for determining rates of return on common equity for all electric utilities subject to the Commission's jurisdiction and for applying those rates of return in individual rate proceedings.

FEDERAL HOME LOAN BANK BOARD (FHLBB) — Current and Projected Rulemakings

IMPLEMENTATION OF NEW POWERS; LIMITATIONS ON LOANS TO ONE BORROWER

Priority: Agency Determination

Legal Authority: PL 97-320, Title III; 12 USC 1461; 12 USC 1425; 12 USC 1464; 12 USC 1725, 1726; Reorg. Plan No. 3 of 1947

CFR Citation: 12 CFR 523; 12 CFR 526; 12 CFR 541; 12 CFR 545; 12 CFR 555; 12 CFR 561; 12 CFR 563

Abstract: The Board is considering amendments to its regulations to implement the expanded authority for federal savings and loan associations contained in the Garn-St Germain Depository Institutions Act of 1982. The regulations would permit federal associations to offer demand deposit accounts and governmental unit demand accounts, and to engage in leasing and commercial lending; and expand the authority of associations to offer consumer loans, educational loans, real estate loans and to invest in government obligations. In addition, the Board is considering revising its regulations governing the general operations of federal associations in order to remove obsolete and unnecessary provisions and to facilitate use of the regulations by improving their organization and presentation. The alternative of less that full implementation of the new authorizations would be inconsistent with the statutory mandate designed to give associations the flexibility necessary to maintain their role of providing credit for housing by exercising new powers and increasing the scope of existing powers.

MONITORING FAIR LENDING PRACTICES

Legal Authority: 12 USC 2901; 15 USC 1691; 42 USC 3601 to 3619; 42 USC 1981; EO 11063; 14 USC 1437; 12 USC 1725; 12 USC 1726; 12 USC 1730; 12 USC 1464; Reorg. Plan No. 3 of 1947

CFR Citation: 12 CFR 528.6

Abstract: The Board is proposing to amend its Loan Application Register and Data Submission Report currently required to be maintained by all institutions that are members of the Federal Home Loan Bank System, for the purposes of monitoring fair lending practices. The proposed amendments would provide for efficient monitoring pursuant to Title VIII of the Civil Rights Act of 1968, the Equal Credit Opportunity Act, and the Community Reinvestment Act, while reducing paperwork of regulated institutions. The Board is working with the Federal Financial Institutions Examination Council in further studying this area before scheduling consideration of final rulemaking for a Board agenda.

PROCESSING OF APPLICATIONS

Priority: Agency Determination

Legal Authority: 12 USC 1464 Home Owners' Loan Act; 12 USC 1725 National Housing Act; 12 USC 1726 National Housing Act; 12 USC 1730 National Housing Act; Reorg. Plan No. 3 of 1947

CFR Citation: 12 CFR 545; 12 CFR 546; 12 CFR 552; 12 CFR 563

Abstract: The Federal Home Loan Bank Board ("Board") is reproposing a streamlined approach for processing all applications subject to public notice and protest procedures. Under the proposed application processing system, all applications which are not substantially protested may be approved within 30 calendar days. In addition, the Board is proposing a new three-tiered system of review for merger applications which makes use of revised antitrust criteria and an automatic-approval procedure for substantially unprotested applications for new branches, change of office location and redesignation of offices ("branch applications"). Under the proposed application processing system, the majority

of merger and branch applications will be deemed to be approved 30 calendar days after the applicant is notified in writing that the application is complete. Those merger and branch applications which do not meet the automatic approval criteria will require either the specific approval of the Board's Principal Supervisory Agent or will be referred to the Board for its consideration. These procedures are intended to reduce unnecessary delay in application processing and (cont)

FEDERAL MARITIME COMMISSION

46 CFR Ch. IV

Unified Regulatory Agenda

AGENCY: Federal Maritime Commission.

ACTION: Unified Agenda of Federal Regulations.

SUMMARY: Pursuant to section 5 of E.O. 12291 and the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) the Commission anticipates having under consideration during the period from April 1, 1983 to March 31, 1984 actions in the areas listed below.

FOR FURTHER INFORMATION CONTACT: For further information concerning Commission rulemaking procedures or the status of any matter listed below, contact: Francis C. Hurney, Secretary, Federal Maritime Commission, 1100 L Street, N.W., Washington, D.C. 20573, (202) 523-5725.

SUPPLEMENTARY INFORMATION: Section 602 of the Regulatory Flexibility Act (5 U.S.C. 602) requires the publication of an agenda of items for which regulatory agencies may propose or promulgate a rule which is likely to have a significant economic impact on a substantial number of small entities. Section 5 of Executive Order 12291 also requires executive agencies to publish a regulatory agenda; the Commission voluntarily complies with this section. The agendas include information on regulatory activities being conducted or reviewed during the succeeding 12 months by the Commission. The following is the Commission's Unified Regulatory Agenda. The agenda does not necessarily include petitions for rulemakings which are under staff review.

In addition, the Commission is publishing a compilation of the status of pending rulemaking proceedings and a listing of rules that have become final since the publication of the most recent regulatory agenda (October 1982). This list will be made available to the press and interested groups.
